Secured Note Certificates.—The sinking fund secured note certificates are redeemable, all or part, on any int. date on six weeks' prior notice at 102 and int. up to and incl. Dec. 15 1929, and at a declining premium of ½ of 1% during each 5-year period thereafter. They will be secured by the assignment to the trustee, by way of security, of all unpaid purchase money or deferred payments owing or accruing due to the company in respect of lands in the Province of Manitoba, Saskatchewan, Alberta and British Columbia, sold or contracted to be sold by it prior to Dec. 1 1924. The amount due or accruing due to the company on Dec. 1 1924 in respect of said sales was $66,000,000. The company will covenant to pay to the trustee all moneys, both principal and interest, less expenses and taxes paid to protect the security, received by the company in respect of these contracts. The company covenants that it will not charge the lands in respect of which such deferred payments are or shall be due so as to prejudice in any manner the security hereby created.

All moneys received by the trustee will be utilitized for the payment of interest on these note certificates and thereafter as a sinking fund for the purchase and cancellation of these note certificates at the best prices obtainable up to the call price prevailing at the time of such purchase. If note certificates cannot be so purchased the trustee shall redeem the note certificates by lot at the prevailing call price. The company will covenant that in the fourth and each succeeding year the annual amount available for the purchase of note certificates will be at least $300,000.

HISTORY.—Reorg. in 1887 without foreclosure; V. 44, p. 714, 716; V. 105, p. 1707. In 1901 Reading Co. acquired control, owning $14,500,000 stock. The latter co. will dispose of its holdings under its dissolution plan. V. 113, p. 1469; V. 112, p. 743, 2304; V. 72, p. 86, 136, 241, 391, 721. In Sept. 1913 the Govt. brought suit alleging violation of both the Sherman law and the commodities clause of the I.-S. Commerce law. In Oct. 1915 final decree of U. S. District Court dismissing said suit ordered that this co. must dispose of its interest in the Lehigh & Wilkes-Barre Coal Co. within 90 days. Both parties appealed to the U. S. Supreme Court. On April 26 1920 the U. S. Supreme Court sustained most of the Government's charges. The plan for the disposal by the company of all the stock of the Lehigh & Wilkes-Barre Coal Co. owned or controlled by it (as embodied in the dissolution decree of the Reading Co. dated Feb. 14 1921), provided that the stock be disposed of within six months after entry of the decree or previous to any other later date which may be fixed by the Court. Announcement was made on Nov. 17 1921 that the company had sold its 169,788 shares of Coal Co. stock to a syndicate for $32,500,000. See V. 114, p. 737, 946, 2578; V. 115, p. 182, 644, 868; V. 117, p. 669, 1555; V. 113, p. 1982, 2184, 2719; V. 112, p. 743, 2641; V. 101, p. 1464, 1807; V. 110, p. 1816. Full Crew Law, V. 105, p. 1897, 2093. Rebate decision in V. 109, p. 1891.

Tentative Valuation.—The I.-S. C. Commission has placed a tentative valuation of $103,473,706 on the total owned property of the system and $125,111,211 on the total used property as of June 30 1918. Reorganization Plan (as Modified), Dated June 1 1925.

It was announced on Nov. 20 1925 that the Kuhn, Loeb-National City, Roosevelt and Iselin interests had agreed upon certain modifications to the plan of reorganization dated June 1 1925, as proposed by Kuhn, Loeb & Co. and the National City Co. as reorganization managers. The bondholders' committee, the Pref. stockholders' committee and the Common stockholders' committee under the Kuhn, Loeb-National City Co. plan approved the modifications. The Roosevelt committee also approved the plan as modified and recommended the deposit of bonds thereunder. The Iselin committee stated that in its opinion the plan as modified is fair to the stockholders and therefore that the committee did not advise against the deposit of stock thereunder. The modified plan (compare V. 121, p. 2516) provides as follows:

Amount of Cash Estimated To Be Required To Carry Out the Plan ($70,032,548)

To be applied to the following and such other and further purposes as may be determined by the reorganization managers or by the new company:

(2) To pay the 6% note dated Dec. 15 1922, held by U. S. Govt.	10,000,000
(3) To provide for cash payment in connection with the liquidation of the 6% note dated Nov. 1 1920, held by U. S. Govt.	17,000,000
(4) To provide for adjustments and payments of interest in respect of bonds deposited under the plan	1,544,325
(5) To provide for additions and betterments, new equipment and miscellaneous expenses	16,488,223

(1) *Prorision for Cash Requirements.*—The cash requirements are to be met by payments of $28 per share by the holders of the $115,931,900 existing pref. stock and of $32 per share by the holders of the $117,411,300 existing common stock, for which only $60,698,820 of new bonds will be issued.

The modified plan contains a statement regarding the possibility of a reduction in the cash assessment payable by stockholders in case of legis-

lation during the coming session of Congress resulting in the funding, or extension for a long period, of the railway company's debt of $55,000,000 to the U. S. Government on terms which will meet the immediate and permanent requirements summarized in the modified plan, namely, that such debt should (subject to such reduction as might be obtained) be presently funded at an annual interest charge of not more than 5% and by long-term obligations junior in lien to the new financing mortgage.

Description of New Securities.

The new company is to authorize the following securities:

First & Refunding Mortgage Bonds.—Total authorized at any one time outstanding, together with any bonds reserved under the 1st & ref. mtge. for refunding underlying securities, shall be limited to twice the aggregate par value of the stock of the new company of all classes at the time issued and outstanding (stock without par value which is to be issued in the reorganization to be taken at $100 per share) and any such stock issued hereafter to be taken at the price at which it is issued, or if issued for property at the value, as determined by the directors of the new company, of such property, as all shall be more fully provided in the 1st & ref. mtge. The 1st & ref. mtge. bonds will be secured by a mortgage and deed of trust to a trustee or trustees to be selected by the reorganization managers, which will embrace (with such exceptions as the reorganization managers may determine) all railroads and other property, including stocks and bonds of subsidiary companies (but not including obligations of the classes to remain undisturbed under the plan) acquired by the new company in the reorganization and all properties thereafter acquired by the use of 1st & ref. mtge. bonds or their proceeds.

The 1st & ref. mtge. will be a lien on the owned lines subject, as to various parts of the mileage, to an authorized amount of approximately $191,893,000 of undisturbed underlying bonds, and a lien upon the leasehold interest in Chicago, Terre Haute & Southeastern Ry. Co.'s lines (upon which there will remain an authorized amount of approximately $26,250,000 of obligations in respect of which the company has assumed liability under the lease) and upon the stock of Chicago Milwaukee & Gary Ry. Co. (upon the lines of which there is an authorized amount of approximately $20,000,000 of bonds, $3,000,000 whereof have been guaranteed by the company and are outstanding, and an additional $2,700,000 whereof are owned by the company). For the refunding of all of the underlying bonds, including those on the leased and controlled lines, 1st & ref. mtge. bonds will be reserved. The 1st & ref. mtge. will provide restrictions for the release from the lien thereof of property subject thereto.

The 1st & ref. mtge. bonds may be issued in separate series, maturing on the same or different dates and bearing interest at the same or different rates payable on the same or different dates, and any series may be of such principal amount, mature on such date or dates, be redeemable in whole or in part at such times, on such notice and at such premiums, and may have such conversion privileges and other provisions as may be determined by the directors at the time of the creation of such series and be stated in the bonds of such series. New company will have the right upon the retirement of any series in whole or in part (other than upon conversion into stock or through any sinking fund or by the application of proceeds of released property) to issue, for such purposes and under such restrictions as may be prescribed in that behalf in the mortgage, a like aggregate principal amount of bonds of another series or of other series, bearing the same or different rates of interest as the bonds retired and with such maturity or maturities and with such other provisions as the directors may determine.

Provision may be made that, if so determined, the principal or interest, or both, or any of the 1st & ref. mtge. bonds of any series may be made payable (a) in New York City only, or (b) in N. Y. City and also in one or more other cities in the United States or foreign cities or countries, or (c) only in one or more foreign cities or countries. The bonds of any series which shall be payable as to principal or interest, or both, in the U. S. of America, shall be payable in gold coin of the U. S. of America of or equal to the standard of weight and fineness existing at the date of the coupon bonds of such series and may be made payable without deduction for any tax, assessment or governmental charge which the new company or the trustee or trustees under the 1st & ref. mtge. may be required or permitted to pay thereon or to retain or deduct therefrom under any present or future law of the United States or of any State, county or municipality or other taxing authority therein.

In case any bonds of any series shall be payable as to principal or interest, or both, in any foreign country or countries such bonds may be made payable in the currency of the respective currencies there current, at fixed rates of exchange, and may contain appropriate provisions as may be requisite or expedient to conform to the requirements of law or of commercial usage in the foreign country or countries in which they may be made payable, including provisions requiring the payment of the principal or interest thereof without deduction for taxes, foreign or domestic.

The 1st & ref. mtge. bonds shall be issuable, under restrictions and conditions to be determined by the reorganization managers and expressed in the 1st & ref. mtge., only for the purpose of providing for betterments, improvements and extensions, and for the acquisition of additional property and equipment, and for the purchase, redemption, retirement, refunding or payment of bonds and other obligations secured by liens, prior to the lien of the 1st & ref. mtge., upon any of the property which, or a leasehold interest in which, may at the time be subject to the 1st & ref. mtge., and for such other corporate purposes as shall be stated in the mortgage. A sinking fund, to be determined by the reorganization managers, shall be provided for any bonds issued in respect of equipment. After the principal amount of bonds issued for capital expenditures other than refunding presently outstanding undisturbed obligations shall have aggregated $150,000,000, bonds may be issued only for 80% of such expenditures.

No 1st & ref. mtge. bonds are to be issued in the reorganization.

50-Year 5% Mortgage Gold Bonds.—Will be limited to a total authorized principal amount of not exceeding $60,698,820 at any one time outstanding, will mature in 1975, will bear interest payable semi-annually at the rate of 5% per annum, and will be secured by a mortgage and deed of trust to a trustee or trustees to be selected by the reorganization managers, which is to embrace the properties embraced in the 1st & ref. mtge. and from time to time becoming subject thereto, subject, however, to the 1st & ref. mtge. and to the prior payment out of the mortgaged property of all bonds at any time issued and outstanding under the 1st & ref. mtge. The bonds will be redeemable on any int. date at par and int. and a premium, to and including 5 years from the date of maturity, of 5% of the principal amount, and, thereafter, at a premium equal to ½ of 1% for each 6 months from the date of redemption to the date of maturity. The mortgage securing the bonds will provide restrictions for the release from the lien thereof of property subject thereto.

The form of the 50-year 5% mtge. gold bonds and of the mortgage securing them shall be subject to the approval of the pref. stockholders' committee and the common stockholders' committee. The modified plan provides for the creation of a cumulative sinking fund of $225,000 a year after April 1 1936 for the retirement of 50-year 5% mtge. gold bonds.

5% Adjustment Mortgage Bonds.—Limited to the total authorized principal amount at any one time outstanding of not exceeding $230,950,800 plus any amount thereof which may be issued in connection with the liquidation of the 6% note of the railway co., dated Nov. 1 1920, held by the U. S. Govt., and will mature Jan. 1 2000. Secured by a mtge. and deed of trust to a trustee or trustees to be selected by the reorganization managers, which is to embrace the properties embraced in the 1st & reg. mtge. and from time to time becoming subject thereto, subject, however, to the 1st & Ref. Mtge. and to the mtge. securing the 50-year 5% mtge. gold bonds and to the prior payment out of the mortgaged property of all bonds at any time issued and outstanding under said mortgages. The adjustment mtge. will provide restrictions for the release from the lien thereof of property subject thereto.

The adjustment mtge. bonds will bear interest, payable annually or semi-annually, at the rate of 5% p. a., but required to be paid, prior to the maturity of the principal only out of the new company's net income ascertained in accordance with the accounting rules of the I.-S. C. Commission, or other analogous Federal authority, from time to time in force, but without deduction for int. on the adjustment mtge. bonds or for the sinking fund under the adjustment mtge. The net income of the new company thus to be applicable to the payment of int. on the adjustment mtge. bonds is herein called the available net income. The int. on the adjustment mtge. bonds will be non-cumulative prior to Jan. 1 1930, but will be cumulative from and after Jan. 1 1930, but accumulations of int. shall not bear int. At the maturity of the principal, all arrears of cumulative int. shall be payable. Int. on the adjustment mtge. bonds issued in exchange for bonds deposited under the plan shall be computed from Feb. 1 1925 to which date int. on the deposited bonds is to be adjusted. Int. on any adjustment mtge. bonds which may be issued in connection with the liquidation of the 6% note of the railway co. dated Nov. 1 1920 held by the U. S. Govt. shall be computed or adjusted from the date to which int. is paid on said note.

The adjustment mtge. will provide that the new company shall on or before April 1 1936 and on or before April 1 in each year thereafter, so long as any of the adjustment mtge. bonds shall be outstanding, pay or set apart as a sinking fund, as hereinafter provided out of the available net income of the new company remaining after payment of full cumulative int. on the adjustment mtge. bonds, an amount equal to ½ of 1% of the authorized principal amount of the adjustment mtge. bonds; and such obligation shall be cumulative. The sinking fund shall be applied to the purchase either at public or private sale at not exceeding their principal amount together with full cumulative int., or to the redemption of adjustment mtge. bonds, all bonds purchased or redeemed for the sinking fund to be kept alive and the int. paid thereon from time to time to be added to the sinking fund and applied in the same manner. [If the sinking fund installments and all int. on the bonds in the sinking fund are regularly paid without accumulation, the entire issue will be retired by 1986.] Adjustment mtge. bonds will be redeemable for the sinking fund only on any int. payment date on or after April 1 1936 at the principal amount of the bonds redeemed together with full cumulative int.

The adjustment mtge. will provide that until Jan. 1 1930, the date after which int. on the adjustment mtge. bonds will become cumulative, no divs. on any class of stock at the time outstanding shall be paid in any year, or set apart for payment in any year, unless int. on the adjustment mtge. bonds for such year at the full rate of 5% per annum shall have been paid or set apart for payment, and that no divs. on any class of stock at the time outstanding shall be paid in any year, or set apart for payment in any year, after Jan. 1 1930, unless the full cumulative int. on the adjustment mtge. bonds shall have been paid or set apart for payment, and after April 1 1936 unless, in addition to said int., the full cumulative sinking fund payments under the adjustment mtge. shall have been paid or set apart.

The adjustment mtge. will further provide that all of the available net income of the new company for each year beginning Jan. 1 may be applied, and that two-thirds of the available net income of each year until the available net income of such year shall equal $7,500,000, and all of the available net income of each year in excess of $7,500,000 shall be required to be applied, so far as necessary therefor, to the payment of int. on the adjust. mtge. bonds and thereafter, beginning April 1 1936 to the sinking fund under the adjust. mtge., including all accumulations of both int. and sinking fund during the cumulative period. Int. on the adjustment mtge bonds will, however, be required to be paid only in multiples of a ¼ of 1%, smaller fractional amounts being carried forward and added to that portion of the available net income of the new company for the ensuing year required to be applied to the payment of int. and sinking fund on the adjustment bmtge. bonds. Any remaining available net income of the new company of any year until Jan. 1 1930, for which int. on the adjustment mtge. bonds at the full rate of 5% per annum shall not have been paid or set apart for payment, and any remaining available net income of the new company of every year thereafter for which full cumulative int. and full cumulative sinking fund payments shall not have been paid or set apart for payment, will be required to be carried into a separate account available only for expenditures chargeable to capital account under the accounting rules of the I.-S. C. Commission or other analogous Federal authority, from time to time in force, or for providing for discounts on securities sold, or, as to that part of the special account arising from available net income accruing after Jan. 1 1930, for installments of cumulative int. on the adjustment mtge. bonds, or, when full cumulative int. on the adjustment mtge. bonds to date shall have been paid, for the sinking fund.

For the purpose of determining the available net income for any period from and after Feb. 1 1925 before the mortgaged lines of railroad embraced in the plan shall have been delivered to the new co., the gross income of the

railway co. or of the receivers of the system for such period shall be deemed gross income of the new co. for such period and shall be subject only to such deductions, including proper depreciation charges, as would have been made if the mortgaged lines of railroad had been owned and operated by the new co. during such period and the bonds secured under the ref. mtge. and the Puget Sound bonds had been exchanged under the terms of the plan on Feb. 1 1925 for new adjustment mtge. bonds. For the period Feb. 1 1925 to Dec. 31 1925, however, eleven-twelfths of the gross income for the year 1925 shall be taken.

The adjustment mtge. bonds will be redeemable otherwise than for the sinking fund, at the option of the new co., in whole or in part, on any int. payment date on or after Oct. 1 1930 at 105 together with full cumul. int.

The form of the adjustment mtge. bonds and of the adjustment mtge. shall be subject to the approval of the bondholders' committee.

The entire authorized issue of adjustment mtge. bonds (except such amount as may be issued in connection with the liquidation of the 6% note of the railway co. dated Nov. 1 1920, held by the U. S. Government) is to be applied in exchange for bonds $230,950,796 deposited under the plan.

Preferred Stock.—Authorized 2,000,000 shares, par $100 each. Holders of the pref. stock shall be entitled in any fiscal year of the new co. to receive divs. to the amount of $5 per share, but no more, before any divs. shall be paid in such fiscal year, or declared or set apart for payment in such fiscal year, upon the common stock; but no part of such divs. shall be accumulative whether or not in any fiscal year there shall be net income available for payment of such divs. After full divs. on the pref. stock to the amount of $5 per share shall have been paid in any fiscal year, or declared and set apart for payment in such fiscal year, holders of the common stock shall be entitled to receive all further divs. which may be paid in such fiscal year, or declared or set apart for payment in such fiscal year, up to the amount of $5, but no more, before any further divs. shall be paid in such fiscal year, or declared or set apart for payment in such fiscal year, upon the pref. stock but no part of such divs. shall be cumulative whether or not in any fiscal year there shall be net income available for payment of such divs. All divs. in excess of $5 per share which may be paid in any fiscal year, or declared or set apart for payment in any fiscal year, shall be paid or declared or set apart for payment equally in amount per share upon both the pref. stock and the common stock. Divs. on both the pref. stock and the common stock shall be payable only out of the net income or the surplus of the new company as determined by the directors and only as and when declared by the directors, but may in any fiscal year be paid out of such net income or surplus whether arising during the same fiscal year or accrued during the prior fiscal years and may be paid annually, semi-annually or quarterly.

In the event of the dissolution, winding up or liquidation of the new company, the holders of the pref. stock shall be entitled to receive out of the assets of the new company the par value of their shares before any distribution shall be made to the holders of the common stock, but shall not be entitled to share in any assets of the new company thereupon remaining.

The pref. stock and the common stock are to have equal voting power per share.

Of the authorized issue of new preferred stock $115,931,900 is to be offered to holders of pref. stock of the company deposited under the plan. The remainder of the authorized issue (except such amount as may be issued in connection with the liquidation of the 6% note of the railway company dated Nov. 1 1920, held by the U. S. Government and as may be required to be applied in settlement of claims of general creditors of the company) will be reserved for future issue for corporate purposes of the new company.

Common Stock.—Authorized, 1,174,113 shares, which shall be without par value, or may have such par value as the reorganization managers shall determine.

The entire authorized issue of new common stock is to be offered to holders of common stock deposited under the plan.

Voting Trust.—All of the pref. stock and com. stock issued in connection with the reorganization shall be deposited under a trust agreement, in such form and with such terms (which may include the pledge of the stock as additional security for the adjustment mtge. bonds) as the reorganization managers shall determine, and under which the entire voting power in respect of the stock shall be vested in 5 voting trustees, to be designated by the reorganization managers. Of the voting trustees named in the trust agreement, three shall be persons approved by the bondholders committee, one by the preferred stockholders committee and one by the common stockholders committee.

The reorganization managers have announced that the five trustees in whom the voting power of the new stock is to be vested until Jan. 1 1930, that is, for the period during which the int. upon the new adjust. mtge bonds is not cumulative, are Elihu Root, Frederick H. BONDS.—The 100-year General and Refunding Mortgage of 1913 is an open mortgage and not limited to any specified amount, but the bonds at any time outstanding are limited to three times the outstanding stock, now amounting to $233,251 800. When the amount of bonds issued thereunder (bearing interest not in excess of 6%) reaches approximately $700,000,000, further issues must be limited to 75% of the cost of property placed under the mortgage.

The mortgage is secured by a direct lien on all the properties, including about 10,143 miles directly owned, 109 m. jointly owned, terminal properties in Chicago, Milwaukee, Seattle, Tacoma, Spokane & other cities, and the entire equipment, subject to $184,421,000 prior liens ($18,331 p. m.) to retire which an equal amount of bonds is reserved, $132,007,200 being also reserved to retire debentures and convertible bonds, which are equally secured thereunder. None of the prior liens may be extended and no further amounts issued except gen. M. for refunding purposes, so that eventually the Gen. and Ref. bonds will become an absolute first lien. Further bonds may be issued for improvements, betterments, acquisitions, construction, equipment, &c. Of the bonds, $154,489,500 have been issued in exchange for Chic. Milw. & Puget Sound 1st 4s (leaving only $26,175,000 of the latter outstanding). On Dec. 31 1924 the treasury held available $117,217,200 of the new bonds issued for said exchange and against impts., &c V. 104, p. 451, 1701, 2640; V. 100, p. 307; V. 97, p. 1662, 1583; V. 98, p. 73, 303, 386, 1244, 1315, 1766; V. 99, p. 1450. The April 1915 interest on the Series "A" bonds is in default.

The $29,129,800 Gen. & Ref. Mtge. bonds issued in 1915 are convertible into common stock at par for 10 years beginning Feb. 1916. V. 100, p. 139, 228, 307, 811, 900, 981; V. 101, p. 287.

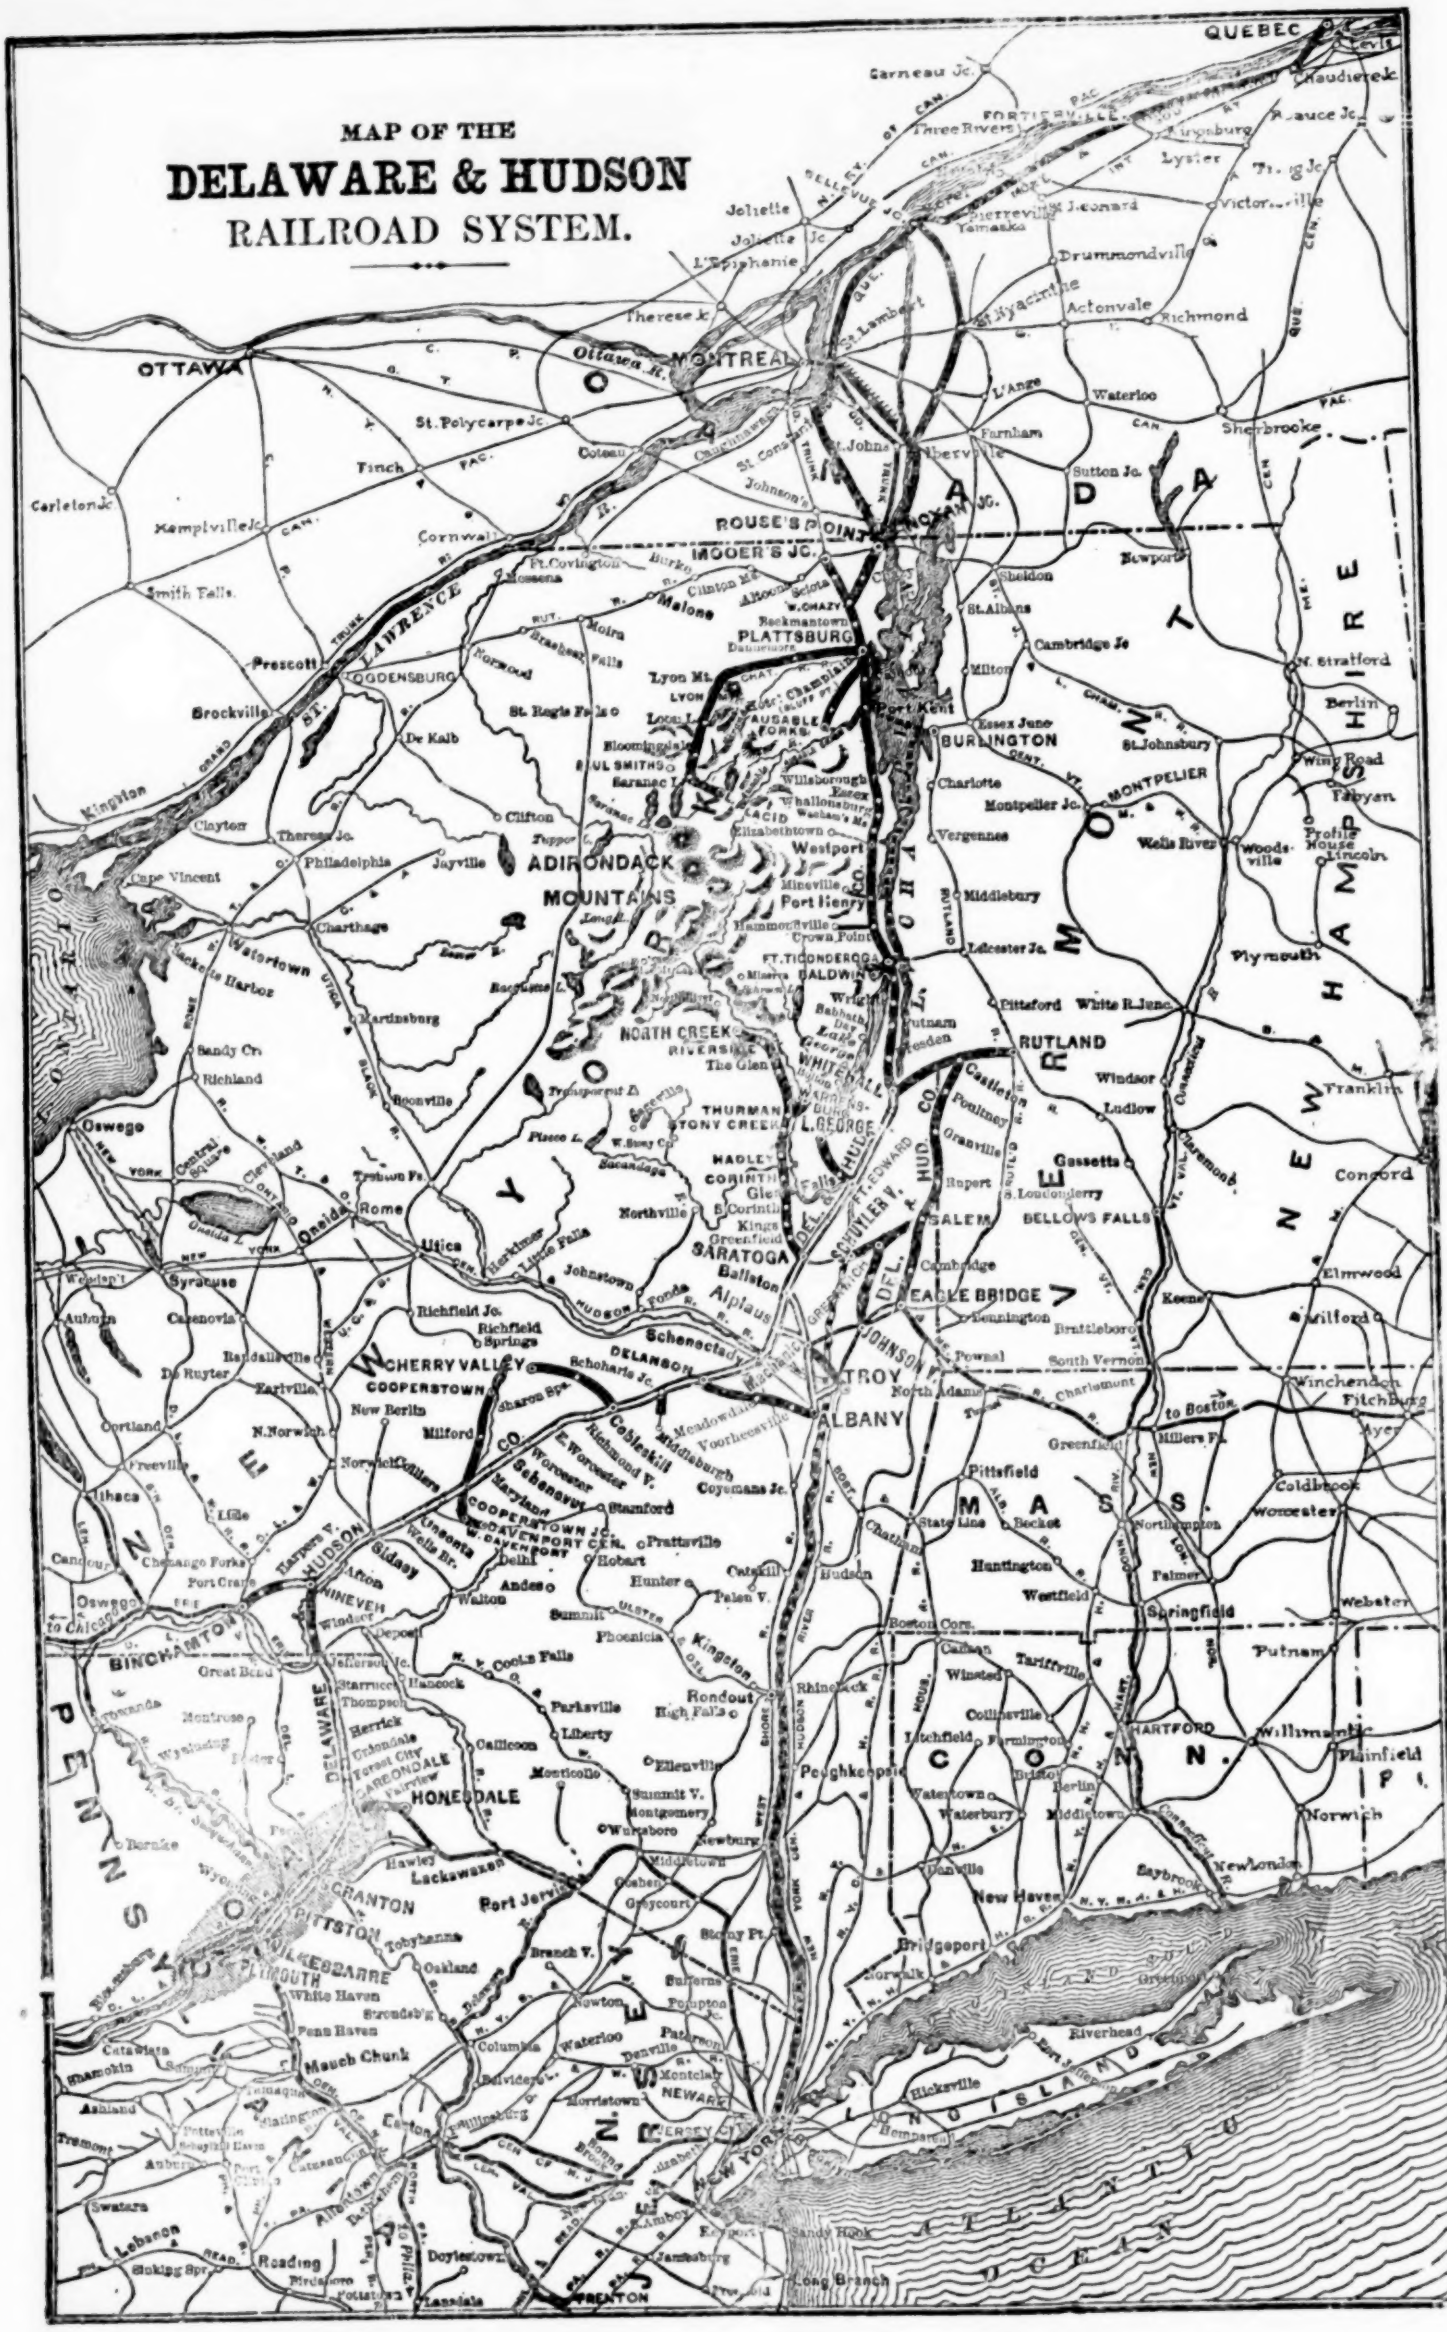
The entire issue but not any part, redeemable on 60 days' notice at 103% and int. on Jan. 1 1928 and on any int. date thereafter at their face value and accrued int., together with a prem. of ¼% for each 6 mos. between the red. date and the date of maturity. In Jan. 1919 the company concluded a settlement of its litigation with the Colorado & Southern Ry. Co. respecting the Trinity & Brazos Valley Ry., extending from Fort Worth and Dallas to Houston and Galveston, whereby the Colorado & Southern accepted in cash 60% of the amount due on the contract, which, under the final decree in the Rock Island receivership, would be payable in full in 6% preferred stock at par, such as was paid to all other general creditors of the Rock Island. This involved the payment of some $4,000,000 and the Rock Island now owns outright a half interest in the Trinity & Brazos Valley Ry. and will have a permanent outlet to the Gulf ports. HISTORY, &c.—Chartered in 1832, present title assumed in 1853.



In June 1909 the D. L. & W. Coal Co. was incorporated with $6,800,000 authorized stock, to act as selling agent for the company's coal in Pennsylvania, the railroad stockholders being permitted to subscribe for its stock See extra dividend below, also that company's caption under Miscel. Cos.

United States Supreme Court on June 21 1915 in the suit brought by the Government held that the company, under the contract of Aug. 2 1909, violated the commodities clause of the Hepburn Act and the Sherman anti-trust law (V. 100, p. 2114; V. 101, p. 17), in its relations with the D. L. & W. Coal Co. A new contract was arranged. V. 101, p. 47.

The company on Sept. 17 1920 submitted to the I.-S. C. Commission a plan for the segregation of its coal properties and the operation of its mines owned as distinct enterprises from its railroad properties. The Comission, in April 1921 authorized the company to issue $45,000,000 common stock to be distributed as a stock dividend. The stockholders on July 21 1921 authorized an increase of $45,000,000 in the capital stock and also approved the sale of the road's anthracite coal properties to the Glen Alden Coal Co. for $60,000,000. Compare V. 112, p. 2190.

HISTORY.—Incorp. in Dela. Nov. 15 1920 as successor to the Denver & Rio Grande RR.

On July 21 1922 a receiver was appointed for the Denver and Rio Grande Western RR. System by the U. S. District Court for Colorado in suits to foreclose the 1st & ref. mtge. and the adjustment mtge. of the Denver and Rio Grande RR. Co. (the old Denver company), and there were transferred to the receiver at the same time cash and cash items and certain properties of the Denver and Rio Grande Western RR. Co. concerning which disputes existed as to whether or not they were subject to the lien of said mortgages.

On Sept. 18 1924 final decree was entered by the court and on Oct. 29 1924 the properties constituting the Denver and Rio Grande Western RR. System were sold at public auction and were purchased by representatives of the reorganization managers under the reorganization plan. The purchasers afterwards assigned all their rights to the railroad company. Said sale was confirmed by the court on Nov. 20 1924 and at 12:01 a. m. on Dec. 20 1924 the railroad company resumed possession and operation of the property.

BONDS.—*Refunding & Impt. Bonds.*—To be secured by a mtge. which will be a lien (subject only to existing liens of underlying bonds and to liens subject to which after-acquired properties may be acquired) on all of the railroad properties and equipment of the new co., including its interest in terminal properties, and such securities and (or) after-acquired property as the reorganization managers shall determine. Bonds may be issued in separate series, maturing on same or different dates and bearing same or different rates of int. and other provisions determined by directors at time of issuance.

The mortgage securing the ref. & impt. bonds shall authorize the issue thereunder by the new company of such principal amount of bonds, at any one time outstanding, not exceeding $150,000,000, as determined by the directors. Of the bonds so authorized there shall be reserved to refund underlying bonds a principal amount equal to 105% of the principal amount of underlying bonds (now $81,112,000) from time to time outstanding.

The I.-S. C. Commission on Nov. 1 1924 authorized the company to issue $3,000,000 ref. & impt. mtge. 6% bonds, series "A"; said bonds to be sold at not less than par and interest. Securities to Be Authorized by New Company.

New 1st Mtge. Bonds.—Unlimited as to the total authorized amount unless the committee should limit the amount, but under no circumstances to be less than the aggregate of the Series A and Series B bonds presently to be authorized. Bonds may be issued from time to time in separate series, to be dated and maturing on the same or different dates, bearing the same or different rates of interest, and each series (except Series A and B) may be of such principal amount, be redeemable in whole or in part, at times, on notice and premiums, and with such conversion privileges and other provisions as may be prescribed in this plan or determined by the directors of the new company at the time of the authorization of each series.

Series A shall be for $2,500,000, maturing 1950, bear int. at rate of 6% per annum, payable semi-annually; denom. $1,000 each; red., all or part, on any int. date on 60 days notice at 105 and int.

Series B bonds shall be for $3,000,000, maturing 1950, bear int. at rate of 6% per annum, payable semi-annually; denom. $1,000 each; red., all or part, on any int. date on 60 days notice, at 105 and int.

Income Bonds.—Authorized $11,000,000; due 1960. Secured by an income mortgage, which shall be a lien on all of the property of the new company covered by the new first mortgage, but subordinate thereto.

Income bonds will bear int. from such date as may be determined by the reorganization committee, but not later than Jan. 1 1927, at the rate of 6% per annum, payable only out of the net income of the new company. Income bonds shall be preferred to the extent of interest at the rate of 6% over the stock and the directors shall authorize the distribution and payments on account of interest on the income bonds of 75% of the net income of the new company for any fiscal year within three months after the close of such fiscal year, which 75% of net income shall be cumulative as a charge in favor of the income bonds and as against the stock. Interest on the income bonds if earned and payable at all, will be paid only in multiples of 1% of the then outstanding income bonds, and smaller fractional net income available for such interest shall be carried forward and added to similar available net income for the ensuing year or years, and to be applied to the payment of interest on income bonds.

Income bonds shall be red. in whole or in part on any int. date on 60 days notice at 102½% of the principal plus the fair amount of any unpaid installments of interest which may be due thereon at the time. Income mortgage shall also provide that series of new 1st mtge. bonds other than Series A and B shall not be authorized or issued until notice is given to the holders of income bonds, and not then if 60% or more of the outstanding income bonds shall in writing notify the new company of their dissent from and disapproval of the issuance of such proposed series of new 1st mtge. bonds.

Stock.—All of one class; shall possess all voting rights and shall consist of 50,000 shares, or such other number as the reorganization committee shall determine, and which shares shall have such par value or be without par value as the reorganization committee may determine.

Treatment of Deposited Securities.

Bonds.*—For each $1,000 of 1st mtge. bonds accompanied by May 1 1916 and all subsequent coupons, the holders of such bonds or certificates of deposit therefor, shall receive at their option either: (1) Upon payment in cash of $200, $200 of new 1st mtge. bonds, $1,000 of new income bonds, and 2 shares of new stock; or (2) without any cash payment, $666 2-3 of new income bonds and 1 share of new stock.

(*b*) *Adjustment Bonds.*—For each $1,000 of adj. bonds, accompanied by all warrants or coupons appurtenant thereto, the holders of such bonds or certificates of deposit therefor shall receive: Upon payment in cash of $200, $200 of new 1st mtge. bonds and 5 shares new stock.

Failure on the part of any holder of adj. bonds to pay the above amount of $260 in cash will disentitle such holder to any participation under this plan, and the holders of the adj. bonds or certificates of deposit therefor will receive no shares of the stock of the new company, nor other securities hereunder.

Holders of 1st mtge. bonds and adj. bonds or certificates of deposit therefor will be required to pay 10% of the total payments required of them on assenting to the plan and not later than Sept. 10 1925 (to be returned if the plan shall not be declared operative) an additional 30% of the total payments required of them within ten days after the plan is declared operative, and without further notice, and the balance of the total payments as and when called for by the reorganization committee after the plan shall have been declared operative.

DETROIT & IRONTON RR.—Organized in 1920 by Henry Ford who acquired control of the Detroit Toledo & Ironton RR. on July 9, 1920 by the purchase for cash of approximately 98% of the Adjustment Mortgage bonds and the Pref. and Common stock. The price paid was $600 for each $1,000 bond and $5 and $1 for each share of the Pref. and Common stock respectively (V. 111, p. 492, 294).

The I.-S. C. Commission in May 1921 authorized the company to construct a standard-gauge steam railroad, approximately 15 miles long, extending southward from Springwells or Fordson, Mich., 8 miles west of the Detroit city hall, to a connection with the Detroit Toledo & Ironton RR. This road will connect with the Detroit Terminal RR. on the north, which will give it a connection with the other steam railroads at Detroit. The company was authorized to issue $1,000,000 capital stock for the purpose of building the road. The authorized capital stock was increased from $1,000,000 to $15,000,000 in 1925.

The I.-S. C. Commission on Aug. 1 1924 authorized the company to construct a line of railroad extending from a connection with the line of the Detroit Toledo & Ironton RR. at Malinta, Henry County, O., in a northerly and northeasterly direction through Henry and Fulton counties, O., and Lenawee and Monroe counties, Mich., to a connection with the Ironton at Durban, Monroe County, Mich., a distance of approximately 55.71 miles.

Authority was also granted to issue an initial series of $7,500,000 1st Mtge. gold bonds, Series "A," 5%, for cash at par for the purpose of providing funds for the proposed construction.

The company has applied to the I.-S. C. Commission for authority to acquire control of the Detroit Toledo & Ironton RR. and the Toledo-Detroit RR., through the purchase of 63,763 shares of common and 59,325 shares of preferred stock, that being a majority of all stock outstanding. Frontier Electric RR., V 106, p 1900

HISTORY.—On Dec. 1 1895 succeeded, per plan in V. 61, p. 368, the N. Y. Lake Erie & Western RR. Co., sold in foreclosure under its second consolidated mtge. The company holds in fee or through ownership of all or practically all the stock of the subsidiary companies the line from New York to Chicago (including the Nypano RR. and Chic. & Erie companies).

COAL PROPERTY.—The allied coal properties at last advices aggregated 12,400 acres of anthracite, of which about 9,000 acres, and 53,000 acres of bituminous coal lands were held by allied companies. 14,000 acres of bituminous held under mineral rights. *Pennsylvania* coal properties acquired in 1901 are additional. V. 82, p. 1322.

Merger Plan Rejected.—The proposed unification of this road with the New York Chicago & St. Louis RR., Hocking Valley, Chesapeake & Ohio and Pere Marquette roads was rejected by the I.-S. C. Commission on March 2 1926. Compare V. 122, p. 1249.

STOCK.—Prior and General Lien bonds of 1895 have 10 votes for each $1,000 of principal. Provisions of pref. stock were in "Supplement" of April 1897, page 3. V. 66, p. 335, 573.

BONDS.—First Consol. mtge. of 1895 for $175,000,000 (Farmers Loan & Trust Co., trustee)—see abstract, of deed, V. 62, p. 89, secures the $35,000,000 Prior Lien (V. 103, p. 1032) and $140,000,000 General Lien bonds. Both series have voting power: see "Stock" above

Of the $140,000,000 *Consol. Gen. Lien* 4s, $92,668,000 were reserved for ultimate acquisition of bonds and guaranteed stocks left undisturbed on various parts of the system (see list, V. 62, p. 89), and $17,000,000 were reserved for new construction, betterments, additions, &c. after 1897—not over $1,000,000 to be used in any one year. On Dec. 31 1925 $55,104,000 Gen. Lien bonds had been issued, of which $35,885,000 were in hands of the public and $19,219,000 owned by Erie RR. (on Dec. 31 1925 $19,217,000 of these had been pledged). V. 102, p. 2077; V. 97, p. 1898; V. 100, p. 1168.

The collateral trust 4s of 1901 are secured by 51% of the entire N. Y. Susq. & Western stock ($26,000,000 total issue), all of the Pennsylvania Coal Co. stock, and the stock of the Erie & Wyoming Valley RR., Scranton, Pa., to Lackawaxen, 80 miles, and Delaware Valley & Kingston RR. Sinking fund of 10c. per ton of coal mined from mines of Penn. Coal Co. V. 71, p. 1219, 1311; V. 72, p. 44, and circular p. 36, 532, 257; V. 79, p. 212; $19,345,000 included in the $34,000,000 "outstanding" were in sinking fund Dec. 31 1925.

The Gen. M. Convertible 4s of 1903 ($50,000,000 authorized) cover the entire system subject to prior liens, and when issued were convertible into common stock, but the conversion period has expired for all except series "D" bonds which till Oct. 1 1927 are exchangeable at option of holder for common stock at 50 ($200 par value of stock for $100 of bonds). There is no Series "C."

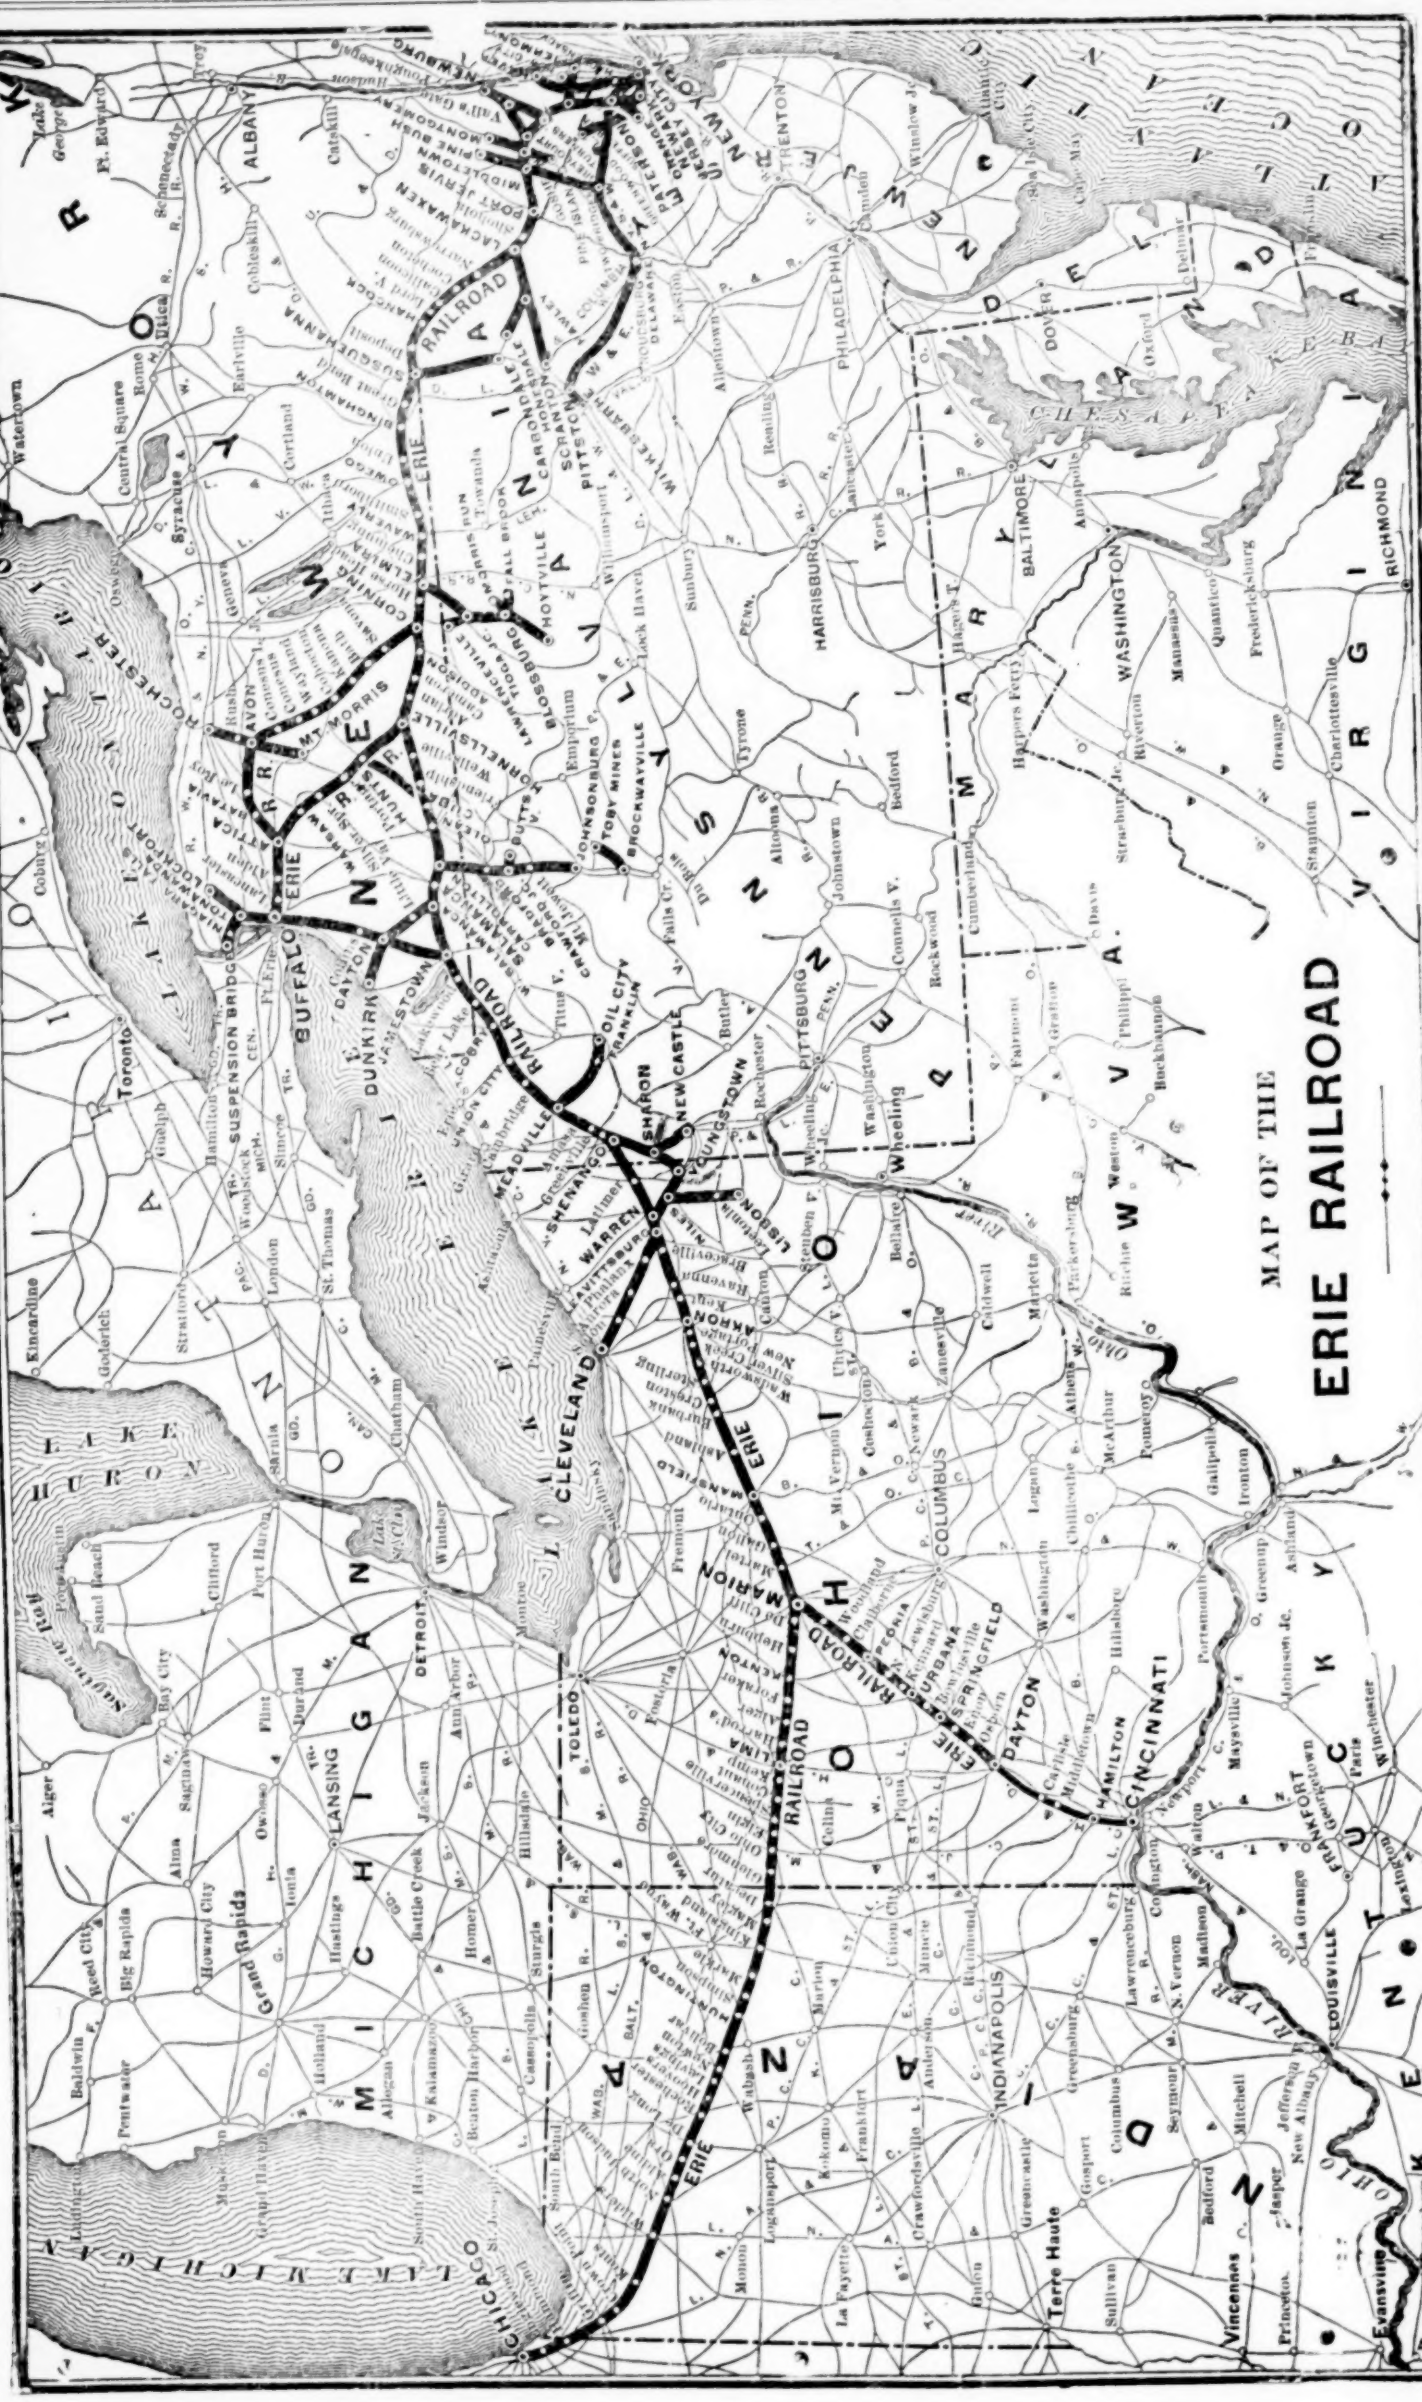
The shareholders on Dec. 1 1916 authorized a Refunding and Improvement mortgage, limited to $500,000,000 (maturing as to Series A at Dec. 1 1936), to provide for refunding existing funded debt and for necessary capital expenditures over a long period of years. V. 103, p. 412.

In Nov. 1917 authority was obtained to issue $15,000,000 6% Series A *Ref. & Impt. Mtge.* bonds and forthwith pledged $8,750,000 thereof as collateral security for a short-term loan aggregating $5,000,000, with the right to use the remaining $6,250,000 as security for other and additional loans, upon the basis of not more than $175 in amount of bonds for each $100 in amount of loan. On Dec. 31 1925, $13,500,000 pledged, $1,650,000 unpledged.

In May 1918 was authorized to amend the mortgage so as to make possible the extension of the old (underlying) bonds.

In July 1918 obtained permission from the New York P. S. Commission to issue further $12,500,000 6% series "B" Ref. & Impt. Mtge. bonds as security for not over $12,500,000 notes issuable on account of improvements and additions made and to be made. V. 107, p. 82, 181, 291; V. 106, p. 577, 1900, 2559. In March 1919 $5,400,000 of "B" bonds were pledged as part collateral for the $15,000,000 note issue. V. 108, p. 1060. An additional $4,300,000 Series "B" was auth. in Aug. 1920. V. 111, p. 588. On Dec. 31 1925 $25,000,000 Series "B" bonds had been issued, of which $20,727,000 were pledged and $1,273,000 in treasury.

In Feb. 1915 sold $7,400,000 Erie & Jersey (closed) 1st M. and $6,000,000 Genesee River 1st M. bonds. Both issues are subject to call as a whole or in part to July 1 1920 at 110, and thereafter at 115. Cumulative annual sinking fund for each issue. Both roads have been merged in the Erie RR. Co. V. 100, p. 474, 481, 397, 555, 641, 981, 1437; V. 104, p. 963.



N. Y. Lake Erie & Western Docks & Impt. Co. 1st 5s (extended) are redeemable at 105. V. 96, p. 1422, 1772; V. 97, p. 54, 370.

As to extension of bonds (three issues), due July 1 1918, see V. 106, p. 1756; extension of Jefferson RR., $2,800,000 5% bonds in 1919 at 5½%, see V. 108, p. 1165. (Extension of N. Y. & Erie, $2,149,000 2d M. 4s, callable at 110. See V. 109, p. 370.

Extended 5% bonds from Oct. 1 1920 until Oct. 1 1930, at 5% per annum, and to pay $142.50 per $1,000 bond to such holders as presented their bonds for extension on or before Sept. 20 1920. The extended bonds are subj. to redemption at 105% & int. on any int. date on 30 days' notice, and interest is to be paid without deduction for any taxes which the company may be permitted or required to pay thereon or to deduct therefrom (except such part of any Federal income tax as may be in excess of 2%). The present mortgage security is to remain unimpaired.

In Aug. 1920 offered to extend $16,891,000 consol. mtge. 7s of 1870 and $3,699,500 N. Y. L. The extended bonds are redeemable at 110. Announced on Sept. 1 1920 that a sufficient amount of the bonds had been deposited to permit the company to carry out the plan of extension. V. 111, p. 588, 692, 792, 895, 990.

In April 1922 offered to extend $1,100,000 N. Y. L. E. & W. Coal & RR. 1st mtge. 6% gold bonds due May 1 1922 to May 1 1942 at 5½% and to pay $40 for each $1,000 of bonds so extended. EST RR. CO. OF FRANCE (COMPAGNIE DES CHEMINS DE FER DE L'EST).—The company operates 3,124 miles of track. It serves an industrial region characterized by the numerous metallurgical concerns in the neighborhood of Nancy and the mines of the Briey Basin.

The first of its three most important lines connects Paris with the region of the Ardennes, with Belgium and with Luxembourg, by way of Rheims and Charleville; the second connects it with Alsace and with Lorraine by way of Chalons-sur-Marne, Bar-le-Duc and Nancy; the third connects it with Switzerland and by way of Troyes, Vesuol, Belfort and Basle. The geographical situation of its system assures it, therefore, a large freight traffic, because, on the one hand, it serves one of the most important industrial regions of France, and, on the other hand, it provides the avenue for the exchange of commodities with the countries of Central Europe.

CAPITAL STOCK AND BONDS.—The company's balance sheet dated Dec. 31 1925 (compare V. 122, p. 2489) showed shares and debentures issued amounting to Frs. 4,635,615,732. Dividends have been paid on the common stock without interruption since 1846.

In January 1925 Dillon, Read & Co., Marshall Field, Glore, Ward & Co., White, Weld & Co., Cassatt & Co., New York, and Union Trust Co., Cleveland, sold at 87½ and interest, $20,000,000 7% External Sinking Fund Gold bonds. Dated Nov. 1 1924, due Nov. 1 1954. Interest payable M. & N. Denom. $1,000 and $500 c*. Principal and interest payable in U. S. gold coin of the present standard of weight and fineness at the office of Dillon, Read & Co., New York, without deduction for any French taxes present or future. A sinking fund is provided, beginning May 1 1925, which is calculated to retire the entire issue by maturity, by purchase in the market at or below 100% and interest, or if not so obtainable, by call by lot at 100% and interest. Redeemable as a whole at 105 and int. on Nov. 1 1929 or any interest date thereafter.

GUARANTY OF FRENCH STATE.—The convention between the French Government and the principal French railway companies signed on June 28 1921 and approved by the Law of Oct. 29 1921, secured to the Est RR. (with the other principal railway companies) the payment of its working expenses and the interest on and amortization of its loans of every kind, and dividends on and amortization of its capital stock. In the event of receipts proving insufficient to meet these charges the deficit has to be borne by a "common fund" formed for the benefit of all the large systems. Into this fund excess receipts of all the systems are paid and tariffs have to be adjusted to meet the requirements of the fund, but if this adjustment of tariffs should not produce sufficient income for the purpose, the deficiency has to be made good by the French Treasury. Further, at the expiration of the concession, the payment of interest on and amortization of any bonds which may be outstanding will be borne by the State. These guarantees are identical to those under which all other issues of the principal French railway companies have been made pursuant to the above law.

PROVISIONS OF ISSUE.—This issue of bonds will be the direct obligation of the company, rank pari passu with all other issues of the company now outstanding, and the company agrees that it will not place any mortgage, lien or other charge on any of its properties or revenues or on any of the rights accruing to the company under the convention dated June 28 1921 and the law of Oct. 29 1921 confirming the said convention, without causing the above issue to share ratably in the security created by such mortgage, lien or charge.

The company covenants that it will not while any of the bonds of this loan are outstanding, be instrumental in, or give its consent to, any change in the convention with the Government of the French Republic approved by the law dated Oct. 29 1921, which would curtail any security, guaranty, benefit or advantage accruing to the Est RR. in respect of the bonds of this loan, or through it to the holders of the bonds of this loan under said convention or said law of Oct. 29 1921.

The company has obtained assurance from the Government of the French Republic that, while any of the bonds of this issue are outstanding, no obstacle will be placed in the way of the railroad company to fulfil its obligations in respect thereof.

On Oct 9 1915 Gen. Mgr. Arthur L. Mills was made receiver, but retired on April 15 1921 being succeeded by Chas. T. O'Neal, of Washington, D. C. V. 101, p. 1272. Sold in Jan. 1923 to A. C. Dustin of Cleveland, representing the bondholders, for $50,000, plus $800,000 of receivership indebtedness.

The property of the old Ft. Smith & Western *Railroad* on Feb. 1 1923 was acquired by Fort Smith & Western *Railway*, a Delaware corporation, organized in the interests of the bondholders of the old Railroad Co. In exchange for the bonds of the old Railroad Co. (substantially all of which were in the possession of a bondholders' protective committee), such protective committee received all the securities issued by the new Railway Co., to wit:

$1,500,000 20-year 1st mtge. 6% bonds;
3,744,000 20-year 2d mtge. 5% bonds (income bonds for first 10 years);
62,400 shares no par common stock.

The new Railway Co., in addition to the railroad itself and the equipment, receive current assets and inventory amounting to $545,000 and assumed current and other liabilities of the receiver amounting to approximately $800,000. These liabilities are prior in lien to the above-mentioned bonds. Feb. 1 1925, all receiver's debts, excepting Govt loan of $156,000 due Dec. 1925, had been paid.

Pres. Alton C. Dustin in Feb. 1923 stated that the bondholders' committee (the protective committee of the old bondholders) will continue to function for at least another year in order to pay its debts and the receiver's debts before it will be in a position to make any distribution to the old mortgage bondholders, and that it was impossible at the time to give any estimate as to what the old bondholders will receive.

On Dec. 31 1920 Gt. Nor. and Nor. Pac. owned $107,613,500 of the $110,839,100 Chicago Burl. & Quincy RR. stock, exchanged for their joint 20-year 4% gold bonds (secured by deposit of the stock in trust), on basis of $200 in bonds for each $100 stock. See circular, V. 72, p. 871, 1034, 1135, and application to l.st, V. 73, p. 294, 903; V. 85, p. 600. Through the declaration of a stock dividend by the C. B. & Q. of 54.132% ($60,000,000) to stockholders of record Mar. 31 1921, these holdings were increased to $165,867,400 out of a total of $170,839,100.

In April 1921 a syndicate headed by J. P. Morgan & Co. and First Nat. Bank, New York, offered an issue of $230,000,000 Northern Pacific-Great Northern joint 15-year 6½% convertible gold bonds (C. B. & Q. collateral) due July 1 1936, at 96½ and int. The C. B. & Q. collateral joint 4% bonds due July 1 1921, with final coupon attached, were accepted in payment at 100 and int. to date of payment on allotments.

Bonds are to be the joint obligations of the Northern Pacific Ry. and of the Great Northern Ry., and are secured by pledge of the following collateral conservatively valued at an amount in excess of 120% of the principal amount of this issue:

1,658,674 shares of the capital stock of the Chic. Burl. & Quincy RR.
$33,000,000 North. Pacific Ry. Ref. & Impt. M. 6% bds., ser. B, due 2047.
$33,000,000 Great Northern Ry. Gen. M. 7% bds., ser. A, due 1936.

The bonds are redeemable as a whole or in amounts of not less than $5,000,000 at 103½ and int.

In the indenture securing the bonds the Northern Pacific and Great Northern Ry. cos. have covenanted that, in the event of any mortgage being placed on the properties junior, respectively, to the Northern Pacific Ref. & Imp. M. and to the Great Northern Gen. M., such new mortgages will secure the Joint 6½% bonds outstanding by a lien parl passu with that securing such new bonds.

The indenture also provides that if the amount of that issue is reduced through conversion or retirement the bonds and stock deposited as collateral may be withdrawn proportionately by the respective companies.

The bonds are convertible into Northern Pacific Ref. & Imp. M. 6% bonds, Series B, due 2047, or into Great Northern Gen. M. 7% bonds, Series A, due 1936, part of which issues are deposited as collateral and of which an additional amount is reserved, sufficient to provide for the conversion of the Joint 6½% bonds.

The conversion may be exercised by the holder of Joint 6½% bonds with a view to obtaining a like principal amount of bonds, either all in the Ref. & Imp. M. 6% bonds, Series B, of the Northern Pacific, due 2047; all in the Gen. M. 7% bonds, Series A, of the Great Northern, due 1936, or in bonds of both issues in any ratio between the two which the holder may desire, but not more than $115,000,000 of either of such bonds will be issued in conversion.

As Joint 6½% bonds are presented for conversion, the trustee will withdraw from the deposited collateral a proportionate amount of C. B. & Q. stock and will deposit such stock with the trustee of the Northern Pacific Ref. & Imp. M., or the trustee of the Great Northern Gen. M., as required by the demand for conversion, and will deliver such Northern Pacific or Great Northern bonds, as the case may be, in exchange for the Joint 6½% bonds presented for conversion. At the time of conversion an adjustment of accrued interest will be made between the Joint 6½% bonds presented for conversion and the mortgage bonds issued in exchange. Compare V. 112, p. 1866

The G. N. Ry. Co.'s portion, $115,000,000, has been converted into a like amount of gen. mtge. 7% bonds and proportionate amount of Burlington stock has been released from lien of the joint indenture and pledged under the gen. mtge. The remaining outstanding joint convert. bonds (the Northern Pacific's portion not converted) were called for redemption July 27 1922 at 103½ and int. V. 114, p. 2240.

The Gen. Mtge. bonds are secured by a mortgage covering the entire railroad property of the Great Northern Ry. in the U. S., subject to existing debt, and, in addition, by pledge of $36,332,000 Ref. M. bonds secured by the same mortgage under which the $35,668,000 Great Northern Ref. M.

The reorganization managers, J. & W. Seligman & Co. and Speyer & Co., in June 1922 prepared a reorganization plan (V. 114, p. 2468). The plan was declared operative on July 5 1922.

BONDS.—1*st Mtge. Bonds.*—Total authorized amount, $40,000,000, at any one time outstanding. Interest, payable s.-a., at such rate as may from time to time be determined at the time of issue.

Bonds may be issued in separate series maturing on the same or different dates, and any series may be made redeemable all or part at times, on notice and at premiums, and may have such conversion privileges, as may be determined by the directors at the time of issue. The company may have the right to retire any series, all or part, and to issue for such purposes like aggregate principal amount of bonds in another series, bearing the same or different rates of interest, &c.

Series A 6% 30-year gold bonds, dated and carrying interest from July 1 1922, maturing July 1 1952, are redeemable as a whole only at 107½ and int. On Dec. 31 1925 $21,809,000 had been issued, of which $3,250,000 were pledged as collateral and $1,309,000 were held by or for the company.

The remaining $18,191,000 1st Mtge. bonds authorized, will be issued or reserved for issue under the regulations provided in the 1st mtge., to the extent of not exceeding $3,191,000 bonds to be issuable to a principal amount equal to the entire cost, and beyond that amount of bonds to 80% of the cost of new equipment, improvements, betterments, additions, new mileage or property, or (if permitted by law) stocks or bonds representative of new mileage or property, whether constructed or acquired by the company or by some subsidiary company.

(2) *Adjustment Mortgage Bonds.*—Total authorized amount, $25,000,000, at any one time outstanding. Secured by mtge. to Irving Bank-Columbia Trust Co., as trustee, on the properties embraced in the new First Mtge. and from time to time becoming subject thereto. Subject to the First Mtge. and to the prior payment out of the mortgaged property of all bonds at any time issued and outstanding under the First Mortgage. Interest payable annually or semi-annually as may be provided, at such rate as may from time to time be determined by the directors at the time of issue, but required to be paid (except as to arrears, if any, of cumulative interest payable on maturity of the principal), only out of net income as defined in the mortgage.

They may be issued in separate series maturing on the same or different dates, and any series may be made redeemable, all or part, on notice and at premiums, as may be determined by the directors at the time of issue, but in all cases with accrued cumulative interest. Payment of installments of interest for any period on Adjustment Mortgage bonds of different series carrying different rates of interest shall be made in amounts which in all cases bear to each other the same proportions as the respective maximum rates of interest carried by such respective series bear to each other.

Under the Adjustment Mortgage the new company may reserve the right to retire any series, all or part, and to issue for such purposes like amounts of bonds in another series, bearing same or different rates of interest, &c.

The Adjustment Mortgage will provide that the net income applicable to the payment of interest on the Adjustment bonds shall be deemed to be its net income as that term is defined in the accounting rules of the I.-S. C. Commission from time to time in force, but without deduction in ascertaining net income for interest on the Adjustment Mortgage bonds; and only such portion of the net income for each year beginning Jan. 1 as directors may determine, but not less than 50% of such net income for each such year ending prior to Jan. 1 1928 shall be required to be applied (to the extent necessary) to the payment of interest on the Adjustment bonds, and that any remaining net income for any such year prior to Jan. 1 1928 to the extent of any difference between the full interest on the Adjustment bonds and the interest actually paid thereon, shall be carried into a separate account which shall be available for capital expenditures or other corporate purposes, but shall not in any year be a part of surplus available for the payment of dividends on any class of stock at the time outstanding.

After Jan. 1 1928 the interest on the Adjustment bonds at the rate borne will be cumulative, and at the maturity of the principal all arrears of cum. int. shall be payable, but accumulations of interest shall not bear int.

No accounts have been rendered nor has any compensation been paid, and as a consequence the directors are not in a position to present any revenue statement or balance sheet.

During the year £2,500 was received from the National Rys. of Mexico on account of the administration and moratorium expenses of this company and its leased lines.

With the consent of the debenture stockholders' committee appointed in May 1923, and with the acquiescence of the leased lines, the moratorium granted to the company in 1915 has been extended from time to time and is still in operation.

Government loan, V. 111, p. 1566; V. 113, p. 2504. **To build in Mexico, V. 111, p. 1852.**

The receivers on Sept. 29 1920 filed application with the I.-S. C. Comm. for authority to issue a receiver's certificate to the amount of $2,500,000, bearing interest at 6% and maturing Dec. 1 1921, to pledge and hypothecate it as collateral security for a loan of like amount from the Government.

Sale of Road.—The road was sold at public auction at Wichita, Kansas, on Mar. 27 1924 to Clifford Histed, General Counsel for the road, for $3,000,000. Compare V. 118, p. 1520. The sale was approved on Mar. 24 1925 by Federal Judge John C. Pollock.

Reorganization Plan.—A plan of reorganization for the road was filed Feb. 7 1925 in Topeka at the office of the Clerk of the Federal Court.

Under the proposed plan, the Government would be called upon to grant a 15-year extension on the $2,500,000 loan which the Orient now owes the Government. The extension would run from Dec. 1 1921 and ending in 1936. The new money which the road would acquire, according to the plan, would be $2,250,000; $1,000,000 to be advanced by the Government as an equipment loan and the balance to be advanced by Mr. Histed.

The Government would take prior lien on the Orient properties under the 15-years extension on the $2,500,000 loan now due the Government and under the proposed $1,000,000 advance in the reorganization plan.

It was proposed that the new operating company for the Orient be organized with a capital of $7,500,000. [The new company was chartered in Kansas on or about April 1 1925]. In return for the advance of $1,250,000, 35,000 shares of stock valued at $3,500,000 is to be delivered to Mr. Histed.

The remainder of the $4,000,000 in Common stock is to be allotted among the noteholders for subscription. The subscription price shall be $80 per share, payable in cash and installments without interest, as follows: 20% in cash to accompany the subscription, 25% on or before Sept. 1 1925, 25% on or before Dec. 1 1925. The remaining 30% on or before March 1 1926. Compare also V. 120, p. 2142.

The plan was approved by the Director-General of Railroads during the period of Federal control. In accordance with the plan the company acquired the properties that were subject to the receivership and was authorized by the I.-S. C. Commission to issue bonds, capital stock and equipment trust notes as below, for the purpose of further execution of the plan.

The Missouri Okla. & Gulf Ry. owned and operated 203.31 miles of main track and 41.3 miles of sidings, extending from Wagoner to Red River, Muskogee and Henryetta; Dewar to end of track, 9 m.; Junction to Bormide, 4 m.; Missouri Oklahoma & Gulf *RR.* (V. 96, p. 1022), Wagoner Okla., to Baxter, Kan., 98.2 miles. Receivership.—H. W. Gibson and H. L. Traber of Muskogee, Okla., were appointed receivers on June 6 1924. V. 118, p. 2949. H. L. Trober released as co-receiver Aug. 1 1925.

The Muskogee company has been incorporated under laws of Delaware as a holding company to own a controlling interest in the securities of the Kansas Oklahoma & Gulf Ry., upon its reorganization and foreclosure. V. 121, p. 1225.

Readjustment Plan (V. 122, p. 744).—A plan for the readjustment of securities of the company has been prepared by the following committee: Charles E. Ingersoll, Chairman, Philadelphia; H. H. Ogden, (First National Bank) Muskogee, Okla.; A. A. Jackson (Girard Trust Co.), Philadelphia, Pa., and F. J. Lisman (F. J. Lisman & Co.), New York. Owners of series A, B and C bonds and general creditors were requested to deposit the bonds and assignments of their claims with First National Bank, Miskogee, Okla., or Girard Trust Co., Philadepha, depositaries.

To Create New Bonds Prior to Existing Bonds—Exchange of Existing Bonds for Pref. Stock.—The plan formulated proposes that the company issue a new 6% first mortgage and that the present series A, B and C bonds be exchanged, par for par, for 6% preferred stock of three series, A, B and C, series A to be cumulative from Jan. 1 1926, series B and C to be non-cumulative, each series to be issued in the same amounts as are the principal amounts of the present A, B and C bonds, and otherwise to have the same relative priorities with respect to earnings and distribution of assets in liquidation as have been A, B and C bonds.

Government to Cancel Lien Notes Totaling $1,410,000 *and Accept Company Notes.*—It is further proposed that the Government cancel its Government lien notes totaling $1,410,000, the interest thereon to be paid, and accept in lieu thereof new 6% 6-year notes of the company in the same principal amount and secured by the deposit as collateral of $2,001,000 new 6% first mortgage bonds.

To Sell $1,999,000 *New Bonds to Provide Working Capital.*—It is planned that $1,999,000 of this new first mtge. be presently sold, the proceeds to be used for the rehabilitation of the property and other corporate purposes.

Equipment Trust Certificates.—The committee will endeavor to secure an extension of the equip. trust obligations totaling approximately $370,000.

The holders of a majority of the present preferred stock, if this plan be made operative, have agreed to purchase at par $1,999,000 of the proposed new 1st mtge. bonds.

The company on Feb. 7 1923 filed with the U. S. District Court for the Southern District of New York an amended plan for the segregation of its coal properties pursuant to a decree of the Court entered Feb. 24 1921 (V. 112, p. 849). The plan is a modification of the original plan filed with the Court in Oct. 1921 (V. 113, p. 1574), to which the Attorney-General of the United States filed several objections (V. 113, p. 1674, 1987). A final decree was signed by Federal Judge Learned Hand on Nov. 7 1923. The plan, given in full in V. 116, p. 576, and as supplemented by the final decree, V. 117, p. 2109, provided as follows:

1. The Lehigh Valley Coal Co. will create a new $40,000,000 50-year mortgage carrying 5% interest and protected by adequate sinking fund arrangements. This mortgage until Jan. 1 1933 will be a second mortgage on a small part of the coal company's properties, and thereafter will be a first mortgage on all its properties. Of the bonds $15,000,000 will be sold at once and the proceeds paid over to the Lehigh Valley RR. in satisfaction of all indebtedness on account of advances for capital expenditures and otherwise in the past. The proceeds will be devoted by the railroad company to the improvement of the railroad properties pledged under its general consolidated mortgage of 1903, the income from said fund, however, in the meantime to be received by the railroad company and used for general purposes.

The remaining $25,000,000 of bonds provided for by the new Lehigh Valley Coal Co. mortgage will be reserved for the purpose of retiring the present outstanding bonds of the Lehigh Valley Coal Co. when due—that is, on Jan. 1 1933—to the extent not provided for by the then existing sinking fund. The Lehigh Valley Coal Co. bonds now outstanding amount to $11,514,000, and it is estimated that the sinking fund, which now amounts to $2,871,000 par value of securities therein, will by Jan. 1 1933 with accumulations and additions have a value of at least $5,000,000, so that the bonds then to be paid off from new funds will not amount to more than $6,500,000. This will leave approximately $18,500,000 of the new mortgage bonds of the coal company available for improvements or other capital expenditures by the coal company as occasion may demand.

2. The [$9,465,000] stock of the Lehigh Valley Coal Co. is pledged with the Girard Trust Co. of Philadelphia, as trustee under the railroad company's general consolidated mortgage of Sept. 30 1903, which mortgage matures in 2003. The railroad company sold for $1,212,160 all of its right, title and interest in the equity of redemption which it owns in said stock, also voting rights and dividends payable thereon, to a new trustee issued certificates for 1,212,160 shares of interest therein carrying voting rights and dividends, thus making certificates on the basis of one share of interest in Lehigh Valley Coal Co. stock for each share of Lehigh Valley RR. stock, both common and preferred. The shareholders of the railroad company were given the right by said new trustee to subscribe to said shares of interest at the rate of $1 per share. Shares of interest not subscribed for on or before Jan. 15 1925 were sold by the new trustee to the Lehigh Valley Coal Co. at the rate of $1 per share.

Shareholders of the railroad company who bought and buy shares of interest as aforesaid will be obliged to dispose of their said shares of interest on or before Dec 31 1927 unless in the meantime they shall have disposed of their railroad company stock. Neither the railroad company nor any corporation controlled by it, nor any person acting in its interest, shall acquire by purchase or otherwise any of said shares of interest.

3. All certificates for shares of interest as above stated were, at the time of sale, registered by the Lehigh Valley Coal Co. in appropriate form in the names of the purchasers or their nominees, upon information furnished by the trustee and thereafter transfer may be made only on the books of the coal company.

4. The Girard Trust Co., as trustee under the general consolidated mortgage, holds the legal title to all of the coal company stock and gives the railroad company a proxy to vote the same, the giving of this proxy being dependent upon there being no existing default under the mortgage. After the sale of the railroad company's equity in the coal company's stock, as stated above, the trustee holding said equity will exercise its voting power for the benefit of and at the direction of the owners of the shares of interest that is to say, the registered owners of the coal certificates as shown by the transfer book of the coal company will exercise their voting power exclusively through their trustee.

5. Upon the maturity or termination of the general consolidated mortgage, the stock of the Lehigh Valley Coal Co. will be available for distribution to the then owners of said certificates of interest and will be distributed to them accordingly, each certificate of interest entitling the holder to a pro rata share of the coal company's stock.

6. The [$2,910,150] stock of Coxe Brothers & Co., Inc., will remain in pledge under the collateral trust agreement of Nov. 1 1905 until the maturity of that agreement on Feb. 1 1926, except that the voting power in the meantime will be assigned to a trustee to be appointed by the District Court. At the maturity of the collateral trust agreement the stock will be sold by the Lehigh Valley RR.

7. The [$1,500,000] stock of the Delaware Susquehanna & Schuylkill RR. will remain in pledge under the collateral trust agreement also until the maturity of the agreement on Feb. 1 1926, the voting power in the meantime to be assigned to a trustee to be appointed by the District Court. In the meantime application will be made to the Inter-State Commerce Commission for authority to merge and consolidate this company with the Lehigh Valley RR., in accordance with the provisions of the Inter-State Commerce Act which permits authority to be granted notwithstanding the status of the petitioners under the Federal Anti-Trust Laws.

8. The Lehigh Valley Coal Sales Co. will negotiate and enter into a lawful sales contract with the mining companies (Lehigh Valley Coal Co. and Coxe Brothers & Co., Inc.).

In operation Dec. 1924, 313.96 miles of Northern lines and 345.17 miles Southern lines. Additional mileage has been under construction.

In 1916-17 the Philippine Govt. purchased all the outstanding stock for $4,000,000 cash. V. 103, p. 939, 1031; V. 102, p. 609, 251, 2166.

BONDS.—The Manila RR. (Southern Lines) 1st gold 4s of 1909, guar. as to int. by Philippine Govt. under Act of U. S. Congress, are limited to $30,000,000. Under a supplemental indenture dated July 1 1916 holders of these bonds were offered the privilege of having due date extended to May 1 1959, provided bonds then outstanding were presented to trustee for extension prior to Nov. 1 1918. $1,122,000 were extended. Acceptance is stamped on each bond. A separate sinking fund was established sufficient to retire extended bonds by maturity. Interest on extended bonds is guaranteed by Philippine Government. The bonds are redeemable as a whole at any time at 110 or by lot for a sinking fund of ½ of 1% yearly from May 1 1919 to April 30 1928 and 1% yearly thereafter. V. 91, p. 215, 276, 717, 1711; V. 93, p. 45; V. 104, p. 1801; V. 105, p. 1802, 1898.

In June 1917, under agreement of sale ratified Sept. 5 1916, $4,330,000 Northern Lines First Mtge. 6% bonds and $7,716,000 2d Mtge 7% bonds were canceled as of July 1 1916. In lieu thereof there were issued $13,236,000 Manila RR. Co. *Refunding Mtge* 5% 40-year gold bonds, dated July 1 1916, a first lien on the Northern Lines and, subject to the Southern Lines First 4s, a lien on the Southern Lines. The entire issue is held and pledged by the Manila Ry. Co. (1906), Ltd., as below stated.

It was also arranged to apply not over £590,000 of the $4,000,000 purchase price to payment of loans of Manila Ry. (the English co.), canceling the A & B deb. stock pledged therefor and so reducing the nominal issues of its deb. stock (and bonds) to the amounts theretofore sold, viz., £2,000,000 Class A 4% and £1,880,000 Class B, the interest rate on the latter being reduced from 4% to 3½%. The A and B issues thus to be first and second charges, respectively, on the $13,236,000 new 1st M. 5% 40-year bonds of the American co. and on about $2,000,000 Southern Lines 1st M. 4s. See also V. 102, p. 2166; V. 103, p. 145, 493, 1032; V. 103, p. 1888.

The 7% sinking fund bonds of 1922 are guaranteed prin. & int. by the Govt. of the Philippine Islands. There have been deposited with Chase National Bank, New York, trustee, as security for the payment of the principal and interest of this issue, $2,811,000 Manila RR. The company has agreed to create and maintain a sinking fund for the redemption of the bonds at maturity, paying annual instalments to the Chase National Bank, New York, trustee, sufficient to retire entire issue by maturity. The I.-S. C. Commission has placed a tentative valuation of $104,674,000 on the properties of the company as of June 30 1916.

HISTORY.—A consolidation in 1888 of Minn. Sault Ste. Marie & Atl. Minn. & Pac., &c. See V. 46, p. 538, 609; V. 77, p. 628.

In 1909 51% of Wisconsin Cent. com. stock was purchased, affording a Chicago connection, the road being leased for 99 years from April 1 1909. $11,249 200 4% leased line ctfs have been issued (see Wis. Cent.), secured by Wis. Cent. pref. stock, $ for $. V. 88, p. 232, 564, 686; V. 98, p. 1668. Int. on Wisc. Cent. 1st & ref. 4s ($5,816,000 out) is guaranteed. V. 95, p. 968.

The company offered to take up at 43¼ Wisconsin Central Common stock issuing in exchange 5½% notes secured by Wisconsin Central stock. The offer expired Mar. 31 1924. 95% of the minority stock having been deposited in acceptance of the offer. V. 118, p. 1665, 2437.

The Central Terminal Ry., organized in 1911, on Apr. 1 1914 opened a new Chicago terminal. See BONDS below. V. 93, p. 1463, 1387, 871 285; V. 95, p. 745.

In Aug. 1921 acquired the property of the Wisconsin & Northern. V 113, p. 183.

STOCK.—Canadian Pacific on Dec. 31 1925 owned $12,723,500 common and $6,361,800 preferred. Preferred stock has preference as to dividends only. Each year's surplus earnings are regarded as a separate fund. If dividends are declared from any such fund the first 7% on par goes to the preferred; the next 7% on par goes to the common; any further dividends from the same source must be in equal percentages on both pref. and com.

A dividend of 2% was declared payable April 15 1922, but payment of this div. was enjoined by the U. S. District Court of Minnesota following a suit brought by two stockholders involving the question of rights of pref. and common stockholders. In Dec. 1922 the directors declared 2% payable Dec. 28 1922, this payment also being enjoined by another suit brought by the same plaintiffs. See V. 116, p. 2123. In May 1923 a decision was rendered in favor of the directors. V. 116, p. 2129; V. 115, p. 869, 1429, 1532, 2581, 2685. On Oct. 15 1923 the U. S. Supreme Court denied an appeal in the suit. Compare V. 117, p. 1775. On Dec. 17 1923 paid 4% on both the common and preferred stocks.

BONDS.—Can. Pac. guarantees 4% int. on all old bonds assenting to a reduction of int. to 4%; also on 4% consols of 1888 and $8,136,000 5% consols issued in 1925. (See V. 50, p. 784; V. 51, p. 239.) All but $4,000 Minn. S. S. M. & Atl. Bonds and practically all other issues assented. Abstract of *Minn. Sault Ste. Marie & Atlantic* mtge. in V. 45, p. 243; Can. Pac. Ry. Co. on Dec. 31 1925 owned $3,993,000 of the M. St. P. & S. Ste. M. 1st 4s. The *Consolidated mortgage* of 1888, abstract V. 47, p. 142, was for $21,000,000 on 800 miles (sufficient of this reserved to retire prior bonds) and for $20,000 per mile on all additions. Outstanding amount is, however, restricted to three times the stock. V. 94, p. 351; V. 73, p. 185; V. 78, p. 820; V. 79, p. 1332; V. 80, p. 651; V. 87, p. 1011, 1664; V. 89, p. 779; V. 91, p. 1026; V. 95, p. 544; V. 98, p. 1316; V. 100, p. 812; V. 103, p. 321; V. 106, p. 1126. As to 2d 4s, see V. 68, p. 669, 771, 977; V. 71, p. 845; V. 85, p. 1646; V. 96, p. 1089.

The Central Terminal 1st M. 30-year gold 4s ($20,000,000 auth.) are secured under a joint mtge. with Central Terminal Ry. on Chicago terminals of Minn. St. P. & S. S. M. and Can. Pac. system lines. They are subject to call on any interest date beginning Nov. 1 1916 as a whole at 105 and must be called yearly, beginning Nov. 1 1916, at 102½ by a sinking fund sufficient to retire issue at or before maturity if not purchasable for less. The $8,000,000 bonds sold represent cash investment equal at least to their par value, the remainder being reserves for not exceeding 80% of cost of extensions and improvements; in sinking fund Dec. 31 1925, $1,642,000. V. 93, p. 1463; V. 95, p. 745.

The ref. mtge. closes all prior bond issues of the company, at the amount now outstanding, $74,647,000. It authorizes the issue of bonds in series, with interest rate and maturity fixed for each series at the time of issue. The authorized issue is limited so that the amount at any one time outstanding, together with all outstanding prior mortgage obligations defined in the mortgage, shall never exceed three times the outstanding capital stock. An annual sinking fund, payable July 1 1922, and on July 1 in each year thereafter, of 1% of the Series "A" bonds from time to time outstanding in the hands of the public, will purchase bonds at not exceeding par and interest. V. 114, p. 1180.

The $10,000,000 6½% collateral trust gold bonds due Sept. 1 1931 are secured by pledge of $12,500,000 25-year 1st ref. mtge. 6% gold bonds, Series "A." V. 113, p. 1156.

Notes.—See under "History" above.

Proposed Merger.—L. F. Loree, Pres. of the Delaware & Hudson in March 1926 announced that he was preparing to present to the I.-S. C. Commission a petition for consolidation of the Kansas City Southern, Missouri-Kansas-Texas and St. Louis Southwestern railroads. V. 122, p. 1915.

Reorganization Plan Dated Nov. 1 1921 (V. 113, p. 2311, 2505).—Pres. Chas. E. Schaff was on Sept. 27 1915 appointed receiver for the company by the U.S. District Court at St. Louis. The Reorganization Managers J. & W. Seligman & Co. and Hallgarten & Co., New York, announced a Plan of Reorganization, dated Nov. 1 1921, an outline of which is given below (for details in full, see V. 113, p. 2311.) The plan was declared operative in Jan. 1922. V. 114, p. 198. Sale of road, V. 115, p. 2794; V. 116, p. 616, 721.

The new company authorized the following securities:

Prior Lien Mortgage Bonds.—The prior lien mortgage bonds are limited to the total authorized amount of $250,000,000 at any one time outstanding. They bear interest, payable semi-annually, at such rate as may from time to time be determined by the directors at the time of issue and be stated in the bonds, and are secured by mortgage and deed of trust to Central Union Trust Co. of New York and Daniel K. Catlin as trustees, which embrace except as otherwise dealt with in the carrying out of the plan, all or substantially all the lines of railroad, franchises and equipment, terminals and other property (including underlying bonds deposited under the plan and stocks and bonds of subsidiary companies) which may be vested in the new company pursuant to the plan and also all additional property of like character (including stocks and bonds of subsidiary companies) at any time thereafter acquired by the new company subject to existing liens or purchase money liens thereon. They may be issued in separate series maturing on the same or different dates and any series may be made redeemable in whole or in part at times, on notice and at premiums, and may have such conversion privileges as may be determined by the directors at the time of issue.

Cumulative Adjustment Mortgage Gold Bonds.—The adjustment mortgage bonds are limited to the total authorized amount of $100,000,000 at any one time outstanding. They are secured by mortgage and deed of trust to Irving Bank-Columbia Trust Co. and Thomas S. Moffitt as trustees, on the properties embraced in the prior lien mortgage and from time to time becoming subject thereto. The adjustment mortgage is subject to the prior lien mortgage. Bonds bear interest payable annually or semi-annually at such rate not exceeding 7% per annum as may from time to time be determined by the directors at the time of issue, but required to be paid, prior to the maturity of the principal, only out of the net income of the new company as defined in the adjustment mortgage. The interest will be cumulative from and after Jan. 1 1925, but accumulations of interest shall not bear interest. At the maturity of the principal, all arrears of cumulative interest shall be payable. The bonds may be issued in separate series, maturing on the same or different dates, and any series may be made redeemable in whole or in part at times, on notice and at premiums, as may be determined by the directors at the time of issue. The bonds of any series may be made convertible into preferred stock at such rate or rates, in such manner, under such regulations and during such periods as shall be authorized in the adjustment mortgage.

The adjustment mortgage bonds, Series A 5%, are redeemable in whole or in part at par and accrued interest and convertible prior to Jan. 1 1932 into preferred stock Series A 7%, at the rate of ten shares for each $1,000 bonds with adjustment of interest and dividends.

Preferred Stock.—The preferred stock is authorized to the amount of $200,000,000, divided into 2,000,000 shares of the par value of $100 each. The preferred stock may be issued in series. Each series shall carry dividends at such rate, not exceeding 8% per annum, as may be determined by the directors and any series may be made redeemable in whole or in part on such terms, on such notice and at such premium, if any, as may be determined by the directors and be stated in the certificates thereof. Dividends will be cumulative from and after Jan. 1 1928 or later issue. In the event of any liquidation, dissolution or winding up, whether voluntary or involuntary, the holders of the preferred stock shall be entitled to be paid in full out of the assets of the company $100 per share of their stock and all arrears in cumulative dividends, before any amount shall be paid out of said assets to the holders of the common stock, but they shall not be entitled to any other or further distribution of assets. Provision is to be made that no additional mortgage is to be put on the property becoming vested in the new company pursuant to the plan except with the consent of the holders of a majority of such part of the preferred stock at the time outstanding.

The note and the collateral securing the same will be held by the trustee for the benefit of certificate holders under a trust agreement, dated March 2 1925, providing that if part of the deposited note is called for redemption, the trustee will call a corresponding principal amount of certificates by lot for redemption at par. The railroad may redeem the note in whole or in part on any int. date. Whenever a part of the note is redeemed, a pro rata amount of the pledged collateral must be released to the railroad company. The 15-year 7% sinking fund notes (issued in exchange for stock of New Orleans Texas & Mexico Ry.) are secured by pledge of all stock of N. O. Tex. & Mex. Ry. acquired through the issue of notes. The indenture provides for a sinking fund beginning Sept. 1 1925 in the amount of $1,200,000 per annum, such amount to be proportionately reduced in case less than $18,000,000 of notes are issued. V. 120, p. 1744.

(340 miles) was merged Nov. 1 1913 and its bonds assumed and the Pan-American RR. in March 1914.—V. 97, p. 1740, 1823; V. 98, p. 1000.

Additional bonds may be issued to retire Mex. Internat. RR. consols. The General mtge. bonds will be subject to call at par after April 1 1927.

READJUSTMENT OF DEBT. (Compare advertisement in "Chronicle" of July 14 1923, page xxviii).

The International Committee of Bankers for Mexico in July 1923 announced that bondholders desiring to participate in the plan for the readjustment of the Mexican debt (V. 115, p. 1153) may do so by depositing their bonds with the authorized depositaries. The plan in brief provides as follows:

(1) The Mexican Government undertakes to set aside annually toward the payment of interest on the bonds after Jan. 2 1923: (*a*) The entire proceeds of the oil export tax; (*b*) 10% of the gross revenues of National Railways of Mexico; (*c*) the entire net operating revenues of such railways. In any event the Government agrees to provide for such current interest an annual fund amounting to not less than 30,000,000 pesos ($15,000,000 U. S. gold) during the first year; and increasing by 5,000,000 pesos ($2,500,000 U. S. gold) per annum for each of the ensuing four years, bringing the annual fund up to 50,000,000 pesos ($25,000,000 U. S. gold) in the fifth year, to be used for the payment in cash of the interest due on the bonds dealt with (compare table in "Chronicle" of July 14 1923, p. xxviii). The balance of such interest will be dealt with in 20-year scrip, not bearing any interest during the first five years, but, for the balance of 15 years, bearing interest at the rate of 3% per annum, payable half-yearly. Any excess of the allocated revenues over the minimum fund in any year may be applied to the purchase or redemption of such scrip, but the committee has the power, under certain conditions and in its sole discretion to determine the disposition of any such excess, in the interest of the bondholders and the general plan during the year 1923.

(It was announced in March 1924 that the cash warrants maturing up to and including Jan. 1 1924 would be paid upon presentation. The warrants maturing July 1 1924 were not paid. Compare V. 120, p. 142.)

(2) The interest coupons maturing on or before Jan. 2 1923 and included in the plan, with respect to bonds, are to be detached by the respective depositaries and lodged with Guaranty Trust Co. of N. Y. as depositary against the issue of receipts to an equivalent face amount. Such receipts are to be purchased or redeemed by the Government from a fund sufficient to retire them in full, during a period of forty years, beginning Jan. 1 1928. The receipts will be of two kinds—Class "A" and Class "B"; Class "A" to be retired completely prior to Class "B"—which will be issued in the approximate proportions stated in the schedule (see table in "Chronicle" of July 14 1923, p. xxviii) to the deposit agreement.

(3) The Government is to make prompt return of the National Railways to private management. It recognizes its obligations to restore such railways, including rolling stock, to their condition at the time the Government took over the railway lines. The Government has agreed to assume the payment of principal, interest and sinking fund of outstanding bonds of the National Railway System, listed hereinbefore, subject to the provisions set forth as to the payments during the five-year period. The liens created by the existing mortgages are not to be enforced unless the Government fails to carry out its obligations under the plan; in which event such liens may be enforced in favor of the respective bondholders.

(4) The matured 2-year notes of the National Railways of Mexico are to be extended for a period of ten years from Jan. 1 1923, with interest at 5% per annum for the first five years beginning in 1923 and at 6% per annum thereafter.

The following notes are to be extended to Jan. 1 1933, with interest at the rate of 6% per annum: National Railways of Mexico 6% Secured Gold Notes, maturing up to Jan. 1 1917.

The following issues are to be extended to Jan. 1 1933, with interest at the rate of 6% per annum after maturity to Jan. 1 1933: National RR. Co. of Mexico Prior Lien 4½% Bonds (No. 17); Mexican Central Ry. Co., Ltd., 5% Equipment Notes (No. 24).

(5) All sinking funds are to be postponed for a period not to exceed five years from Jan. 1 1923.

Modified Agreement.—Under the terms of a modified agreement reached in Oct. 1925 the National Railways were returned to private management on Jan. 1 1926. The modified agreement provided for the separation in the handling of the Governments' direct debt from the debt of the National Railways of Mexico. The interest payments for 1924 and 1925 now in arrears will be postponed and paid over an eight-year period beginning in 1926.

(b) N. Y. Cent. 3½% Mich. Cent. coll. bonds of 1898-1998..... 19,336,000

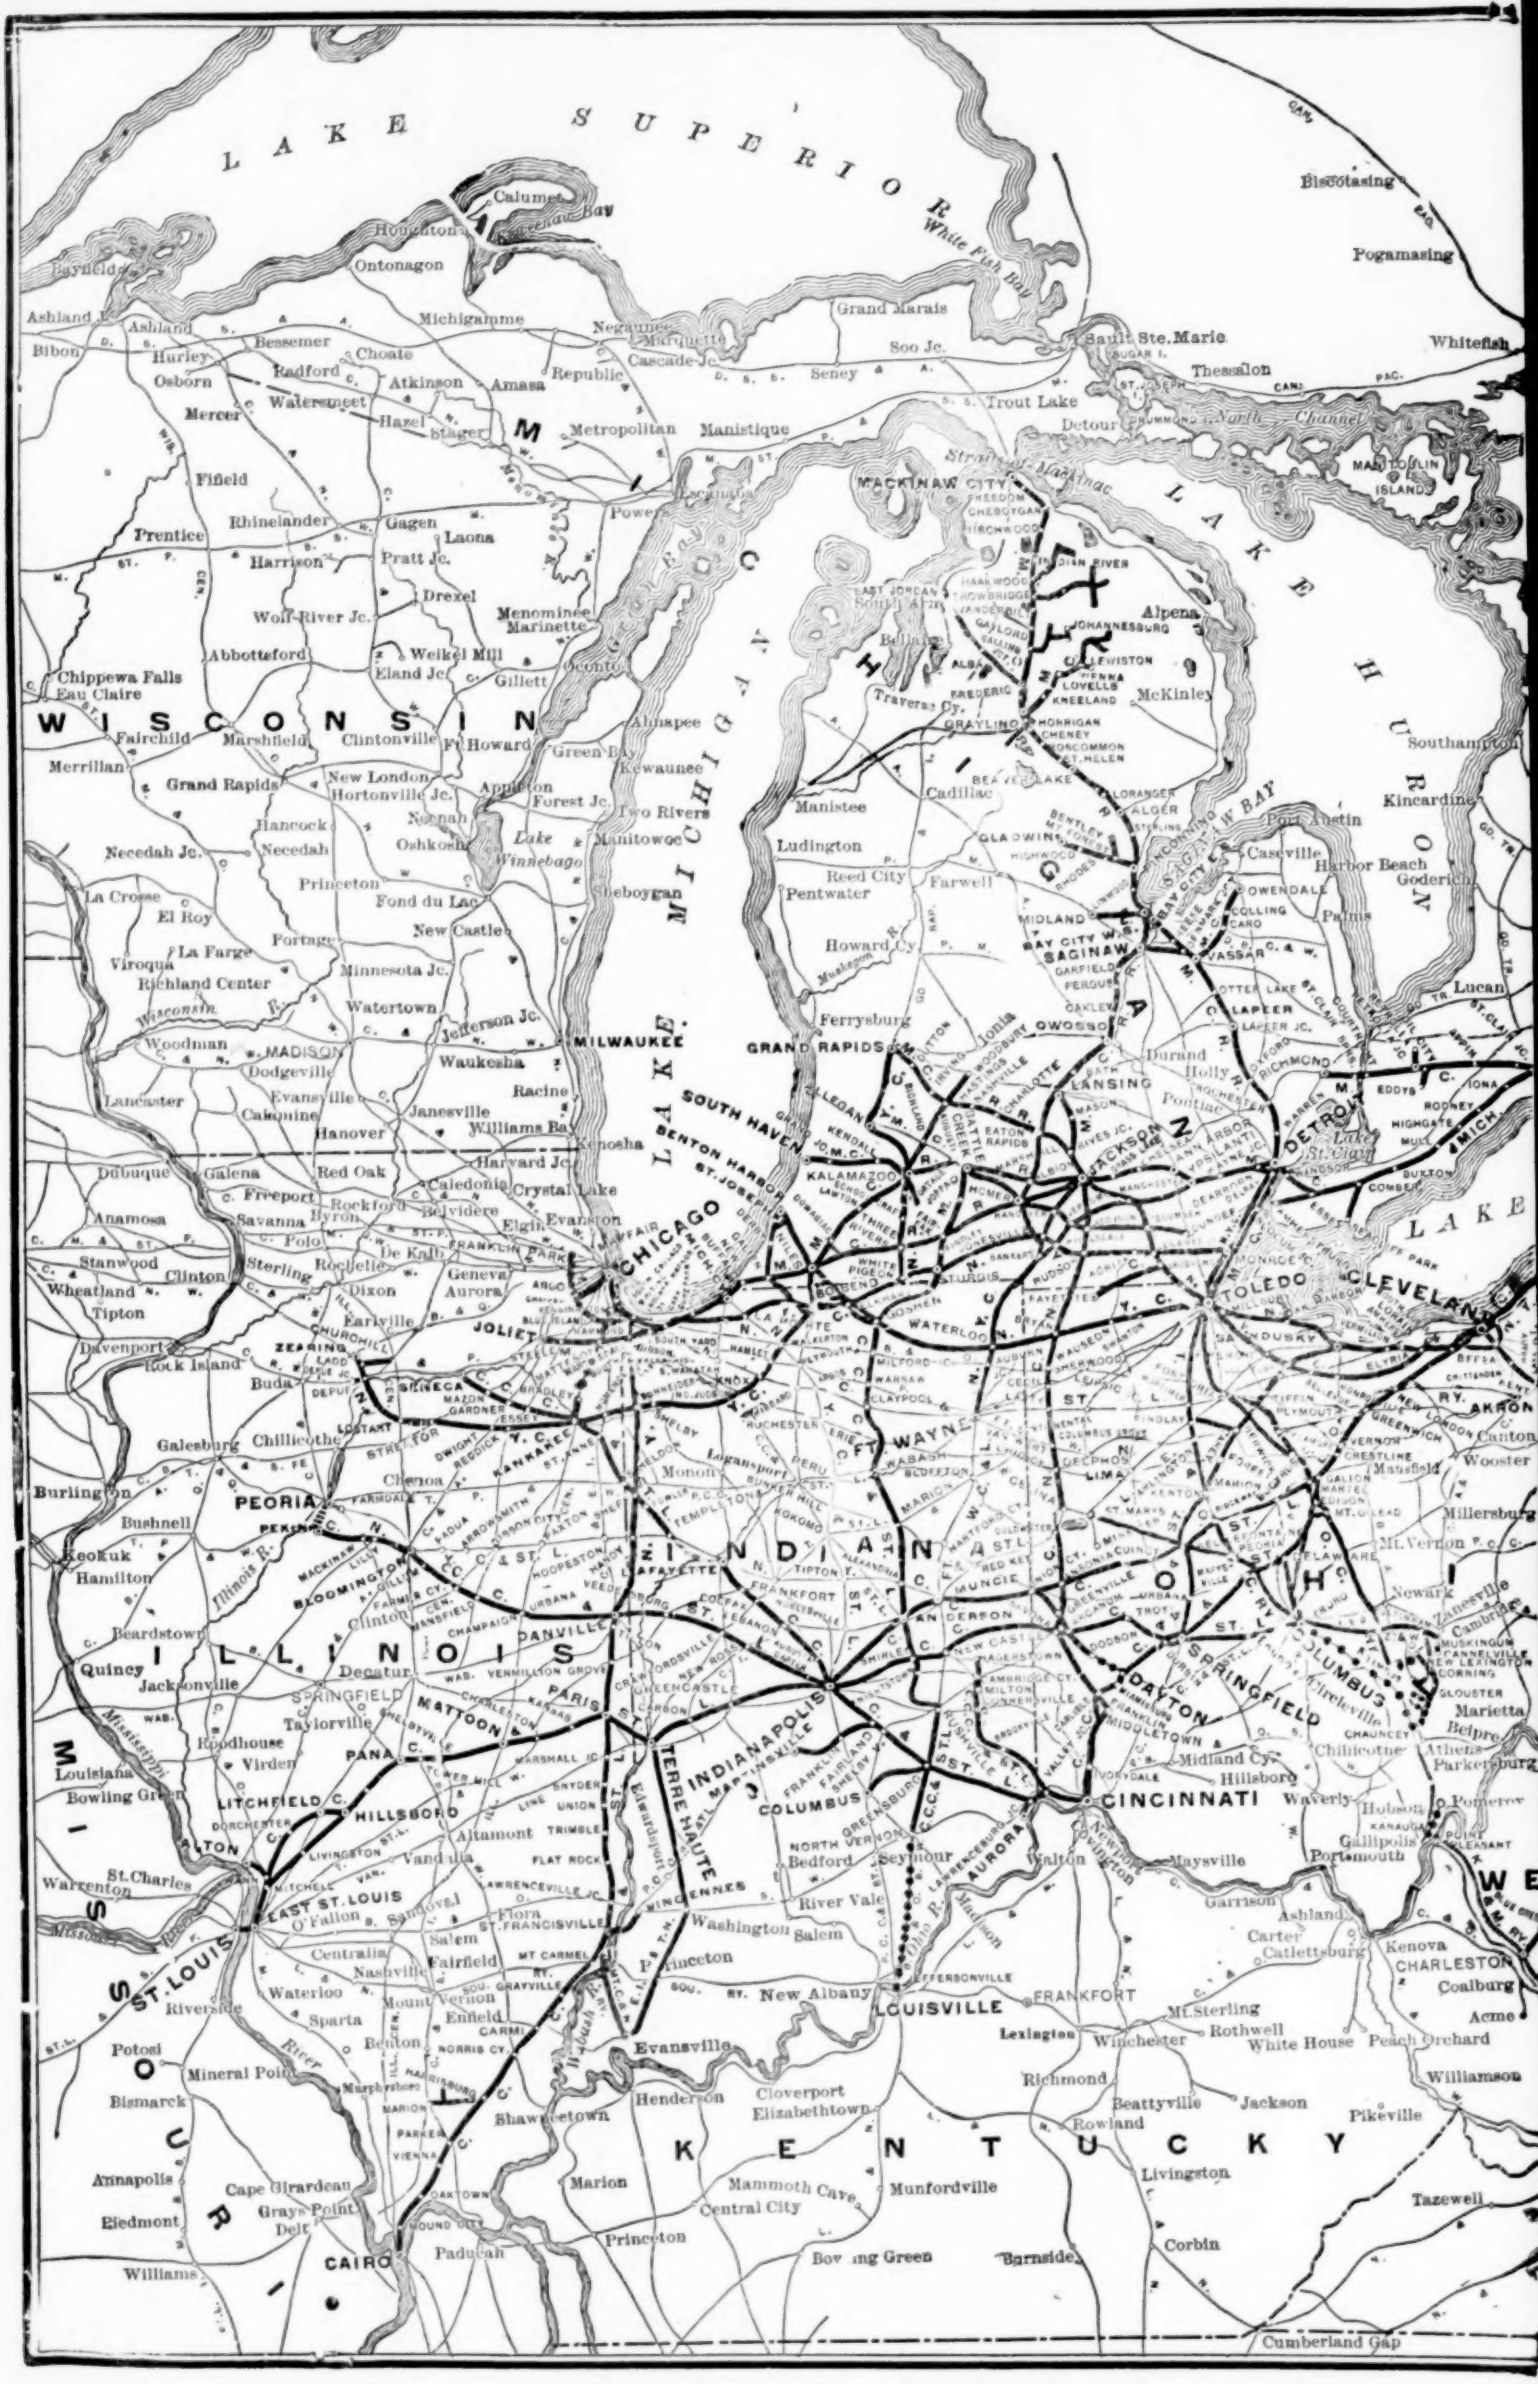
(e) 4% Consolidation Mtge. bonds dated Aug. 1 1913 and due Feb. 1 1998, issuable in series A, B, C and D only to refund above collateral bonds and debentures, respectively. See below.

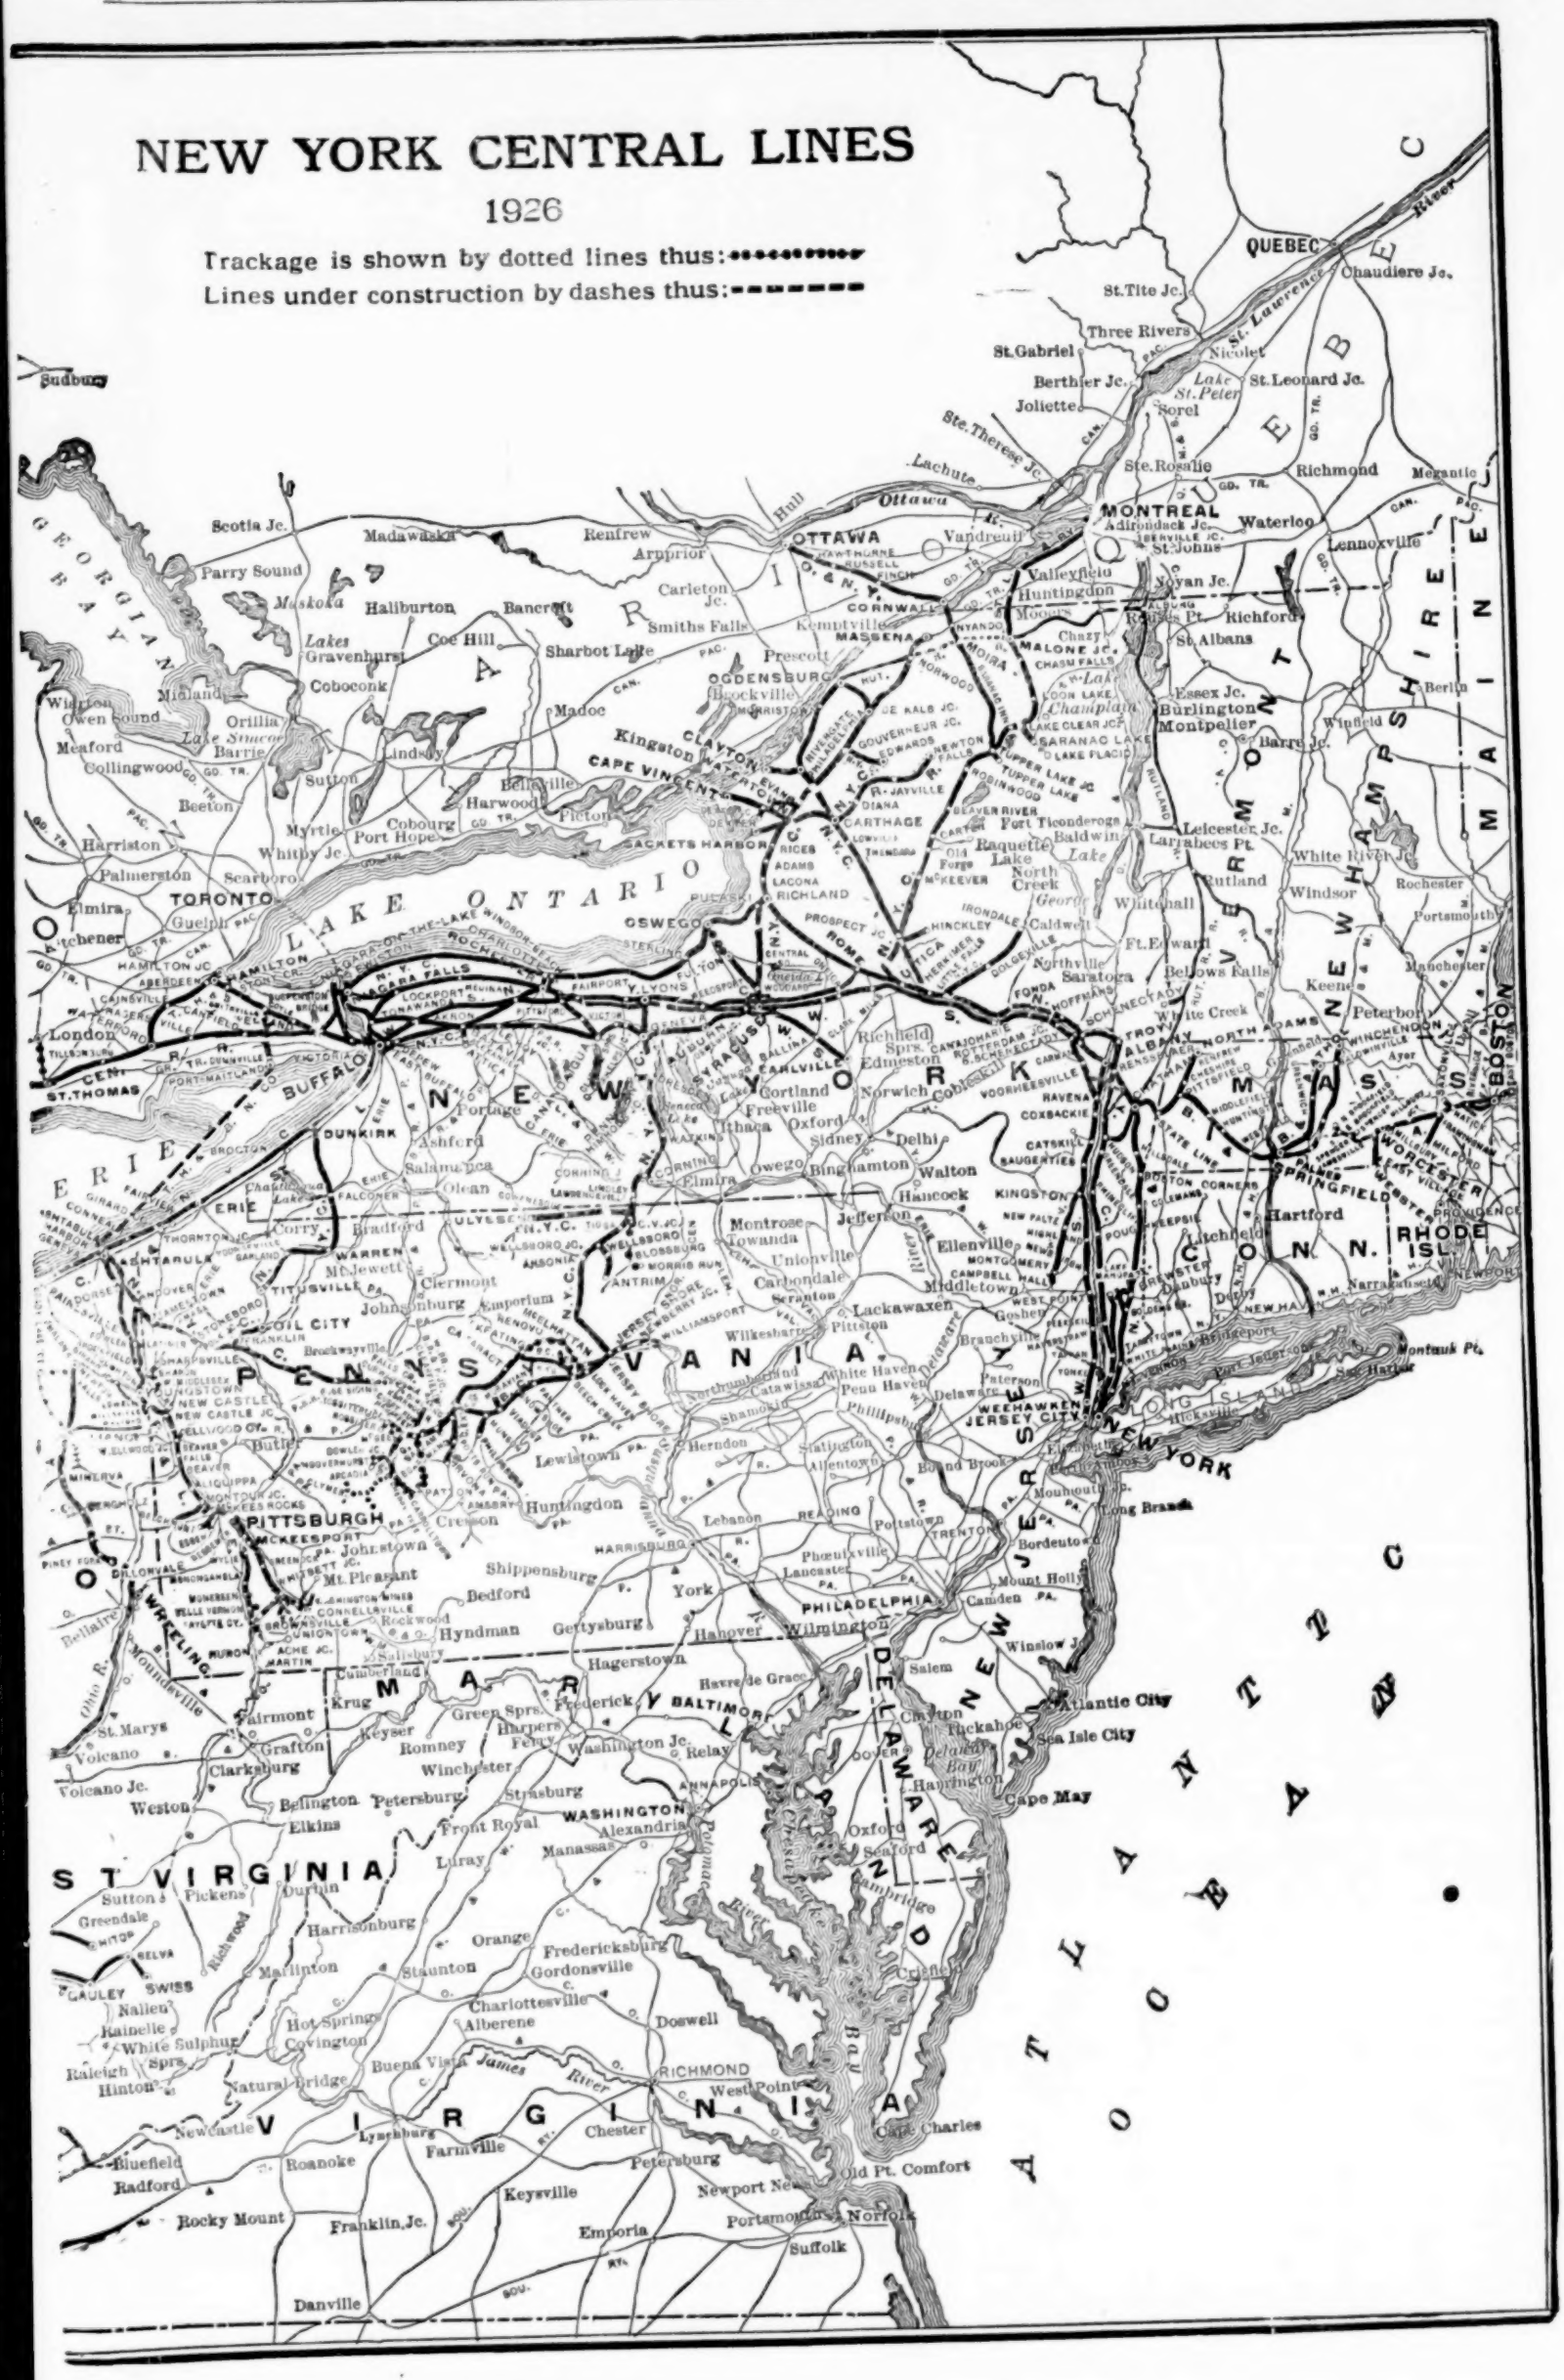
The Consolidation Mortgage (securing the collateral issues and other bonds in the order indicated above) covers by a lien ranking ahead of the Refund. & Impt. Mtg (see below), the lines owned in 1913 (inc., those then brought in by consolidation or merger), 75% (3,750 shares) of the stock of Hudson River Bridge Co. at Albany and the leases of Troy & Greenbush, New York & Harlem, West Shore and Beech Creek railroads. On the main line between New York and Buffalo there is no lien ahead of it except the $100,000,000 1st M. of 1897; and on the railroads consolidated or merged in 1913, such as the Rome Watertown & Ogdensburg, Mohawk & Malone, &c., there are no prior liens except the old underlying mortgages thereof and the N. Y. Central's $100,000,000 1st M. V 102, p. 800, 1541

Refunding & Impt. Mtge. for New Capital and Debt Unification.

The purpose of the Refunding and Impt Mtge. was to provide for future financing of the N. Y. Cent. & Hud. River and the consolidated company, and for the unification of the debt. The bonds are issuable in series, all due Oct 1 2013, but bearing date of April 1 or Oct. 1 next preceding the date on which the series is authorized, and carrying interest at such rates, subject to call at such dates, and prices, and with such provisions as to conversion, &c. as shall be fixed for successive series. V. 96, p. 1424.



The amount of bonds which may be issued under the Ref and Imp. M. is not limited to a stated amount, but is determined by standards set up in the mortgage itself, and those standards are believed to be such that a bondholder will be indifferent as to the amount of bonds which may be outstanding under the mortgage, so long as the standards are complied with. The amount of Ref. & Impt. M. bonds outstanding cannot exceed three times the amount of the capital stock as from time to time increased.



After $500,000,000 of the bonds shall have been issued, not more than 80% of the cost of improvements, additions or new property can be paid for from the proceeds of bonds. Not more than one-third of the amount of bonds can be used in the acquisition of bonds or stocks of other companies. After $500,000,000 of bonds shall have been issued no additional bonds can be issued without the vote of stockholders. Each issue of bonds must receive approval of RR commissions and P. S. Commissions. V. 98, p. 387, 611, 690, 1245, 1393; V. 99, p. 1052, 1131, 1367; V. 100, p. 1079; V. 104, p. 1387; V. 106, p. 2757.

The Ref. & Impt. M. is (1) a lien next to the lien of the Consolidation Mtge. (see above) on the properties, &c., covered by the Consolidation Mortgage. (2) A first lien on the *leases* of the Beech Creek Extension, New Jersey Junction and Walkill Valley railroads, subject to the outstanding bonds of each. (3) A first collateral lien on $500,000 2d Mtge. bonds of Beech Creek RR. and $3,964,000 Consol. Mtge. 4s of the Beech Creek Extension RR. companies. (4) A first collateral lien on—

NEW YORK CENTRAL LINES.—The N. Y. Central Lines equip trusts cover engines, passenger cars and freight cars used by various lines of the system, which jointly and severally agree to pay prin. and int., the larger part being for N. Y. Central.—(V. 122, p. 2489.)

NEW YORK CHICAGO AND ST. LOUIS RR. CO. (THE).—This company was formed in 1923 under laws of N. Y., Pa., Ohio, Ind. and Ill. as a consolidation of the New York Chicago & St. Louis RR., Chicago & State Line RR., Toledo St. Louis & Western RR., Lake Erie & Western RR. and Fort Wayne Cincinnati & Louisville RR. The consolidated company operates 1,692 miles of road, its main line extending from Buffalo through Cleveland to the three Mid-Western gateways at Chicago, Peoria and St. Louis. Its lines also reach Fort Wayne, Indianapolis, and the important Lake ports of Sandusky and Toledo and the company also owns half the capital stock of the Detroit & Toledo Shore Line Ry., connecting Toledo with Detroit.

The agreement and articles of consolidation were entered into by the directors of the constituent companies on Dec. 28 1922. Ratification by the stockholders, and compliances with the requirements of State statutes, were completed on April 11 1923, on which date the consolidation became effective. On June 18 1923 the I.-S. C. Commission issued a certificate of public convenience and necessity authorizing the acquisition, and operation in inter-State commerce, of the lines of railroad of the constituent companies by the consolidated corporation, and approved the necessary issue of securities.

The total capital stock of the consolidated company authorized by the agreement and articles of consolidation is $105,500,000, of which $45,880,000 is preferred stock and $59,620,000 is common stock. The amount of stock authorized by the I.-S. C. Commission to be issued in exchange for the stocks of the constituent companies is $78,967,900, of which $32,720,000 is preferred stock and $46,247,900 is common stock. On Dec. 31 1925 capital stock of the constituent companies amounting to $78,797,900 par value had been exchanged, par for par, for stock of this company, leaving a stock liability for conversion under the agreement and articles of consolidation of $170,000. A part of the stock which will be issued to discharge that liability will be contributed to the company pursuant to the agreement. Because of contributions by stockholders and other adjustments incident to the consolidation, the company holds in its treasury, out of the total of $78,797,900 issued and exchanged to Dec. 31 1925, fully paid preferred stock of the par value of $6,843,300 and fully paid common stock of the par value of $15,795,300. V. 116, p. 721; V. 119, p. 1183.

Merger Plan Rejected.—The I.-S. C. Commission on March 2 1926 rejected the proposed unification of the Nickle Plate, Erie, Pere Marquette, Hocking Valley and Chesapeake & Ohio roads. For full text of Commission's report compare V. 122, p. 1249.

DIVIDENDS.—On July 16 1923 paid 3% on new common stock; Oct. 1923 to Jan. 2 1926 paid 1½% quar.; April 1 1926 paid 1½% quar. and 1¼% extra; July 1 1926 paid 2¾% quar.

BONDS.—First mtge., abstract, V. 45, p. 541.

The stockholders on July 2 1918 authorized a "Second & Impt. Mtge." for $35,000,000, including the $10,000,000 debentures of 1906, which are equally secured, leaving $25,000,000 that may be issued for improvements.

The company also issued its notes, payable in fifteen years from date, to the United States of the total amount of $8,130,000, with interest at 6% in return for a loan of that amount from the revolving fund created by the Transportation Act of 1920, and deposited its first & ref. mtge. bonds to the amount of $9,565,000 as collateral security.

******Note.*—It has been the company's practice for many years to include in its figures of operating revenues for each month the revenue from local business for that month and the revenue from inter-line forwarded and received business for the preceding month. By order of the I.-S. C. Commission, it became necessary, beginning with Dec. 1924, to include the revenue from inter-line business in the figures for the month in which it was earned. Dec. 1924 figures, therefore, include the revenue from inter-line business for November and December, and the figures for the year 1924 include similar revenue for the 13 months Dec. 1923 to Dec. 1924, inclusive.

PARIS-LYONS-MEDITERRANEAN RR.—Company was organized in 1857. Its lines in France, comprising about 6,121 miles of road, consist of a main trunk line from Paris to Lyons and from Lyons to Marseilles; its branches and extensions reach throughout the part of France southeast of Paris, through the French Riviera and to the Swiss and Italian frontiers. In addition the company operates in Algeria 1,000 miles under lease.

Capitalization.—Company has outstanding debenture bonds to the amount of 8,886,688,125 francs, £5,000,000 and dollar bonds amounting to $60,000,000. None of the above debentures or bonds carries any special security nor is any part of the company's system or equipment mortgaged or pledged in any way. The capital stock originally amounting to 400,000,000 francs, has, through amortization to date, been reduced to 333,871,500 francs.

Guaranty of French Government.—Before the war the company paid substantial dividends on its capital stock in excess of the minimum rate of 11% guaranteed by the Government under the Convention of 1883. In 1914, at the outbreak of the war, the French Government took control of all French railroads in order to insure efficient co-ordination for military purposes. After the war a new convention was entered into on June 28 1921 by the French Government and the larger railroad companies, including the Paris-Lyons-Mediterranean RR., revising the status of the railroads. This convention was approved by the law "Regulating the Great Railroad Systems" dated Oct. 29 1921.

Under the terms of this convention and law there is established a "common fund" for the purpose of creating financial solidarity of the large companies and, if necessary, during any fiscal year, to provide funds for the current treasury requirements of the companies. The railroad companies shall turn over to the "commun fund" any balance of their gross receipts available after providing for their operating expenses, interest and amortization of their loans, a variable operating premium intended to encourage efficient and economic operation, the guaranteed dividends to the stockholders and other charges as established by the convention. If, at any time, the gross receipts of one of the railroad companies should be insufficient to meet the charges mentioned above, there will be paid to the railroad out of the "common fund" any sums necessary to make up the deficiency.

The Government of the French Republic has undertaken to provide the "common fund" with any sums by which the receipts of the "common fund" may fall short of its requirements; provided, however, that if the Minister of Public Works so requires, the railroads will issue bonds for such purposes, the Government of the French Republic guaranteeing the interest, amortization and actual expenses of the service of such bonds until paid. The convention further provides for an adjustment of tariffs if necessary, in order to provide the railroads with sufficient revenue to meet expenditures. In regard to 1,673,000,000 francs of bonds issued by the company under the special law of Dec. 26 1914 to cover its deficiencies of 1,229,000,000 francs since the beginning of the war, the convention provides that the Government will reimburse the company therefor by the payment of annuities to cover the service for interest and amortization of these bonds. Thus the Government of the French Republic as above described undertakes to provide, if necessary, funds sufficient to pay interest on the bonds of this issue and funds for sinking fund sufficient to retire the entire issue by maturity.

Goldman, Sachs & Co., Bankers Trust Co., Lehman Bros., Halsey, Stuart & Co., Inc., and Union Trust Co. of Pittsburgh in Sept. 1924 sold at 93¼ and int. $20,000,000 7% external sinking fund gold bonds.

Dated Sept. 15 1924; maturing Sept. 15 1958. Denom. $1,000 and $500c*. Int. payable M. & S. Principal and int. payable in gold at the office of Bankers Trust Co., New York, fiscal agents for the loan, without deduction for any French taxes. Red. only as a whole on or after Sept. 15 1932 on any int. date at 103 and int., except for sinking fund.

Sinking Fund.—Graduated annual sinking fund payments beginning with $248,000 on Sept. 15 1931 and progressively increasing to a maximum of $1,540,000, calculated to retire the entire issue by maturity through purchase at not exceeding 100 and int. or by annual drawings for redemption at 100 and interest.

In March 1925 Kuhn, Loeb & Co. and National City Co. sold $40,000,000 6% external sinking fund gold bonds, due Aug. 15 1958.

Dated Feb. 15 1922. Not subject to redemption before Feb. 15 1932 except for the sinking fund. Entire issue outstanding, but not any part, will be redeemable at 103 and int., at the option of the company on Feb. 15 1932, or on any interest date thereafter. Denom. $1,000 and $500 (c).

Sinking Fund.—Bonds are to have the benefit of a cumulative sinking fund calculated to redeem the entire issue by Aug. 15 1958. This sinking fund will begin Aug. 15 1929, and is to operate by purchases of the bonds at or below 100 and int. or by redemption on Aug. 15 1929, and any Aug. 15 thereafter, at 100 and interest of bonds to be drawn by lot.

PARIS-ORLEANS RR. (COMPAGNIE DU CHEMIN DE FER DE PARIS A ORLEANS).—Organized in 1838 to operate a railroad line between Paris and Orleans. As a result of subsequent mergers, purchases of other companies and construction, now owns and operates the second largest system in France.

Mileage.—System covers about 7,800 kilometers, or 4,848 miles. The lines serve (*a*) the central part of France, providing a direct route between Paris and the important seaports of Bordeaux, Nantes and St. Nazaire and forming part of the through lines between Paris and Southern France and Spain; (*b*) rich agricultural districts; (*c*) the industrial centres of Montlucon (iron), Albi (coal) and Limoges (porcelain); (*d*) through the western extension the south coast of Brittany; (*e*) the Valley of the Llore and the Aubergne Mountains, carrying a very heavy and profitable tourists' traffic.

Government Guaranty.—A law enacted on Nov. 20 1883 provides that the French Government shall advance each year any amount necessary in addition to the net income to cover the interest on and amortization of the bonded debt and to make an annual distribution on the capital stock of frs. 56 per share of frs. 500 and frs. 45 on the beneficiary shares without par value. Any amounts so advanced are to be repaid with int. at 4% p. a. out of any future surplus remaining after paying the div. on the stock.

This agreement continues in effect until Dec. 31 1956 (the end of the concession of the company) and contains similar provisions to protect the bondholders and stockholders in case the Government should take over the company's property prior to that date.

New Convention—Common Fund Established.—See Paris-Lyons-Mediterranean RR. above.

Capital Stock.—Frs. 300,000,000, divided into 353,318 shares of frs. 500 each, and 246,682 beneficiary shares without par value. The stock is listed on the Paris Bourse.

Bonded Debt.—The bonded debt of the company consists of debentures to the amount of 6,100,000,000 francs; 2,000,000, 50,000,000 Swiss francs and $10,000,000.

In Feb. 1921 A. Iselin & Co., Halsey, Stuart & Co., Inc., and Hemphill, Noyes & Co., New York, offered frs. 50,000,000 6% bonds (Foreign Series), redeemable at par, by semi-annual drawings, not later than 1956. Interest from Dec. 1 1920, payable J. & D. at office of A. Iselin & Co., 36 Wall St., N. Y. City, without deduction for any French taxes, present or future, if held by non-residents of France. Denom. fr. 1,000.

Tax Exemption.—Under a recent French law these bonds are payable, principal and interest, without any deduction of French taxes, present or future, provided that are held by a non-resident of France.

Convertibility.—The company agrees to exchange any bond of this issue at its Paris office at any time prior to the drawing of such bond for redemption without expense for an equal face amount of 6% bonds (French series). These French Series bonds are listed on the Paris Stock Exchange, but holders thereof are subject to French taxes.

Redemption.—The concessions of the French railroad companies stipulate that at the expiration of their concessions, their property, except rolling stock and certain other working assets, shall revert to the Government free of charge. The companies have, therefore, with the approval of the French Government, adopted a plan of amortization which provides for the total redemption of their funded debt, and for the repayment of their capital stock by the time of the termination of their concessions.

The amortization plan provides for semi-annual drawings at par of a gradually increasing number of bonds, sufficient to retire the entire issue by Dec. 1 1956. Drawings under this amortization plan are made annually and the bonds drawn will be payable on Dec. 1 each year, beginning Dec. 1 1921. £2,000,000 6% sterling bonds of 1922, see Midi RR. Co. above. See V. 112, p. 563.

A. Iselin & Co., Brown Brothers & Co., Halsey, Stuart & Co. and Hemphill, Noyes & Co. in Sept. 1924 sold at 92¾ and int. $10,000,000 7% external sinking fund gold bonds.

Dated Sept. 1 1924. Due Sept. 1 1954. Int. payable M. & S. Denom. $500 and $1,000. Principal and int. payable in New York in gold at the office of A. Iselin & Co., fiscal agents of the loan, without deduction for any French taxes. Red. on any int. date as a whole only at 103 and int. except for sinking fund.

Sinking Fund.—Sinking fund beginning March 1 1925 sufficient to retire all bonds by maturity through purchase at not exceeding par or by semi-annual drawings for redemption at par. V. 119, p. 1282.

panies amounted to $5,867,284, representing construction expenditures, chiefly moneys advanced by the Pennsylvania. Construction work was begun in 1917 and the line opened for passenger traffic on Jan. 1 1923 and for freight traffic on May 1 1923. The entire project, however, is not yet completed. The railroad of the company extends from a connection with the Pere Marquette Ry. at Carleton, Mich., in a northerly direction to a connection with the Wabash Ry. at Detroit, a distance of about 19.96 miles. It also owns certain extensions and branches in and near Detroit, Mich., having an aggregate length of about 8.98 miles. The total length of its owned railroad is about 29.01 miles. In addition it has trackage rights in and near Detroit over the Wabash, Pere Marquette and Fort Street Union Depot railways amounting to about 21.11 miles. It also has trackage rights over the Pere Marquette Ry. between Carleton, Mich., and Alexis Junction, O., a distance of about 25.33 miles. Between Alexis Junction, O., and Toledo, O., a distance of about 4.37 miles, it operates over the Ann Arbor RR. The total distance operated under trackage rights is about 50.81 miles.

To be merged into Pennsylvania Ohio & Detroit RR.—See that co. below.

The Inter-State Commerce Commission in Sept. 1923 approved the lease of the property to the Pennsylvania RR.

By the terms of the proposed lease (which runs for 999 years from June 1 1923) the Pennsylvania agrees to maintain and operate the leased railroad and to pay to the Detroit company, as rental, a sum equivalent to 5% per annum on the aggregate par value of the Detroit company's issued and outstanding capital stock, and such percentage as may be agreed to upon any additional capital stock that may be issued after Jan. 1 1923 by the Detroit company with the approval of the Pennsylvania. The Pennsylvania is also to pay all taxes as they shall accrue and a sum each year sufficient to pay all installments of interest and sinking funds when due and payable on its bonded and other indebtedness, as well as such sum as may be necessary to maintain the corporate organization of the Detroit Co.—(V. 117, p. 1556.)

PENNSYLVANIA OHIO & DETROIT RR.—The I.-S. C. Commission on Dec. 10 1925 issued a certificate authorizing the company to acquire and operate the line of railroad of the Manufacturers Ry. and to acquire the lines of railroad of four other constituent companies, viz.: Cincinnati Lebanon & Northern Ry., Cleveland Akron & Cincinnati Ry., Toledo Columbus & Ohio River RR. and the Pennsylvania-Detroit RR.

Authority was also granted to the co. to issue $28,410,000 capital stock (par $100) in exchange for all the outstanding capital stock of its five constituent companies.

The Commission also approved the acquisition by the Pennsylvania RR. of control of the Pennsylvania Ohio & Detroit RR. by accepting the latter's capital stock in exchange for stock of the constituent companies. The stockholders of the Pennsylvania RR. on April 27 1926 approved the proposed lease of the road. Compare V. 121, p. 3128; V. 122, p. 2489.

PENNSYLVANIA RAILROAD CO. (THE).—(*See Maps.*)—The system, as shown on the adjoining maps, extends from New York City westerly via Philadelphia, to Pittsburgh, Erie, Cleveland, Toledo, Chicago and Burlington on the north and to Washington, Cincinnati, Louisville and St. Louis on the south. The total system on Jan. 1 1926 aggregated 11,698 miles. On Jan. 1 1926 the lines included in the company's results aggregated 10,582 miles.

ORGANIZATION, LEASES, &c.—The charter of the Pennsylvania RR. was dated April 13 1846. As to agreement in 1917 to take over the properties and assume the obligations of the Pennsylvania Company, see that company's statement below, and V. 106, p. 1031.

In Nov. 1917 it was agreed that, effective Jan. 1 1918, or such later dates as might be determined, the leases of railroad property held by the Pennsylvania Co. should be reassigned to the Penn. RR. and the lines west of Pittsburgh operated directly by the Pennsylvania RR., through the same officials who had heretofore been in charge of the operation of those lines. In pursuance of this plan the Penn. RR. Co. had resumed in Oct. 1918 operating under lease the Pitts. Ft. Wayne & Chicago Ry., Cleveland & Pittsburgh RR., Erie & Pittsburgh RR., and Pitts. Youngs. & Ashtab Ry. V. 107, p. 83, 284; V. 106, p. 86, 1031; V. 105, p. 2094, 2184. During 1918 accordingly the Pennsylvania *Company* was relieved of the operation of all the aforesaid lines, which were operated directly by the Penn. RR. Co. as its "Western Lines."

System Operated as a Unit.—It was announced in Feb. '20 that, effectiv March 1 1920, the system would be operated as a unit instead of being subdivided as formerly between the lines east and west of Pittsburgh. The system was divided into four regions, each in charge of a Vice-President, the headquarters of the respective regions being at Philadelphia, Pittsburgh, Chicago and St. Louis, and known as the Eastern, Central, Northwestern and Southwestern regions. As of June 1 1925 the Northwestern and Southwestern regions were combined and will be known as the Western region. V. 120, p. 2812.

In March 1916 incorporated the Penn.-Detroit RR. with $5,000,000 stock to build a 52-mile road from Ohio-Michigan line northward to Detroit V. 104, p. 1146; V. 106, p. 1031; V. 107, p. 91. The stockholders in April 1923 approved the lease of this road to the Pennsylvania RR. for 999 years. V. 116, p. 1893.

In April 1918 took title to the Susquehanna Bloomsburg & Berwick RR a 42-mile line Watsontown to Berwick, Pa. &c., with $700,000 First Mtge gold 5% bonds outstanding. V. 106, p. 2011.

The U. S. Supreme Court on Dec. 16 1912 in the Govt. suit (1) dismissed the charge of combination and conspiracy in restraint of trade against the company and other anthracite coal companies and coal-carrying roads (2) held that the Temple Iron Co. is an illegal organization and should be dissolved; and (3) also held illegal the arrangement under which the coal companies pay the independent operators for coal at the mines 65% of selling price at tidewater. See V. 95, p. 1684, 1652; V. 96, p. 286, 554, 1090, 1557. The U. S. District Court on July 31 1915 held that the company and its subsidiaries, had not violated either the Sherman Law or the commodities clause of Commerce Law. The Government filed an appeal. V. 103 p 1119; V. 101, p. 85, 929, 1465, 1807; V. 96, p. 1425; V. 97, p. 666; V 99 p. 821. The U. S. Supreme Court on April 26 1920 sustained most of the Government's charges of illegal combination against the company and certain of its railroad and coal subsidiaries, and ordered their dissolution. See V. 110, p. 1816. The company on June 1 1920 sought a modification of the dissolution decree. The motion, however, was dismissed by the Court on June 7 1920. V. 110, p. 2358, 2488.

Third Modified Segregation Plan.

The company on May 10 1923 filed with the U. S. District Court for the Eastern District of Pennsylvania a third modified plan for the carrying out of the decision of the U. S. Supreme Court, which provided as follows:

1. No additional general mortgage bonds shall be authenticated except that, to refund underlying bonds and obligations [other than those mentioned in clause (a) of Section 5 below], additional general mortgage bonds may be issued to the trustee of the new mortgage of the Reading Co. [provided for in Section 10 below] and stamped to show that they represent obligations of the Reading Co.

2. After payment by the Reading Iron Co. to the Reading Co. of a div. or divs. of $6,000,000 in cash or marketable securities at market value, the Reading Co. will sell all its right, title and interest in and to the stock of the Iron Co., including the present right to vote and receive dividends thereon, to the Coal Co. for $8,000,000. The stock of the Iron Co. will, however, remain subject to the lien of the general mortgage but as security for the obligation of the Coal Co. and not the obligation of the Reading Co.

3. The liability of the Reading Co. on the $94,627,000 gen. mtge. bonds outstanding on Nov. 30 1922 will be decreed to be two-thirds thereof and the liability of the Coal Co. thereon one-third thereof.

4. (Section 4 deals with sinking fund payments, for details of which compare plan published in full in V. 116, p. 2256.)

5. There are outstanding certain underlying bonds mentioned in the Gen. Mtge These bonds include (*a*) $810,000 of the Phila. & Reading RR. Co. 10-year Sinking Fund Coll. Gold bonds of 1892, extended to Feb. 1 1932, which are secured by pledge of bonds of coal companies belonging to the Coal Co., were assumed by the Coal Co. in 1896 and are in effect guaranteed by the Reading Co.; (*b*) $5,766,717 of the Phila. & Reading RR. Co. 1st Series Consol. Mtge. bonds of 1882, extended to March 1 1937, which are secured by property of the Railroad Co. and of the Coal Co. and are in effect guaranteed by the Reading Co. and the Coal Co., and (*c*) certain other bonds which are not the obligation of the Coal Co. and are not secured upon any property of the Coal Co. The final decree will make provision so that the covenants of the companies in the Gen. Mtge. in respect of these underlying bonds shall bind only the Reading Co. in respect of the bonds described in (*b*) and (*c*) above and shall bind only the Coal Co. in respect of the bonds described in (*a*) above; and, as between the companies, the Coal Co. will remain ultimately liable on the bonds described in (*a*) above, and the Reading Co. will remain ultimately liable on the bonds described in (*b*) and (*c*) above.

6. (Section 6 deals with defaults, liens, &c., and is published in detail in V. 116, p. 479.)

7. The Coal Co. will pay to the Reading Co. $10,000,000 in cash or current assets at market value. General releases of all claims and liabilities as between the Reading Co. and the Coal Co., including the claim of approximately $70,000,000 carried on the books of the Reading Co. as an asset and on the books of the Coal Co. as a liability, will be exchanged. The current indebtedness of the Reading Co. to the Coal Co. amounting to $2,500,000 will first be paid.

8. The Reading Co. will, subject to the lien of the Gen. Mtge. (but as security for the obligation of the Coal Co. and not the obligation of the Reading Co.), sell, assign and transfer all its right, title and interest in and to the stock of the Coal Co. to a new corporation to be formed with appropriate powers, in consideration of the payment by the New Coal Co. to the Reading Co. of the sum of $5,600,000, and its agreement to issue its shares to the stockholders of the Reading Co. as hereinafter provided. The New Coal Co. will issue 1,400,000 shares of stock without par value. Such no par value stock will be sold by the New Coal Co. to the stockholders of the Reading Co., preferred and common, share and share alike, for $5,600,000, or $2 00 for each share of Reading stock. Provision will be made for the disposition by the Reading Co. of any rights to subscribe which may not be availed of by the Reading stockholders within such period as may be fixed by the Reading Co., with the approval of the Court, to the end that the New Coal Co. shall receive the full purchase price of $5,600,000. This sale will be carried out by issuing to Reading stockholders assignable certificates of interest in stock of the New Coal Co., exchangeable for such stock only when accompanied by an affidavit that the holder is not an owner of any stock of the Reading Co.,

9. The Reading Co. will merge the Railway Co. under the authority contained in the present charter of the Reading Co., and will subject the Railway Co.'s property to the direct lien of the Gen. Mtge. The name of the Reading Co., after merger, will not be changed.

10. In order to compensate for any injury to the security which the modification of the terms of the gen. mtge. bonds and the general mortgage may cause, and to leave the Reading Co. properly financed to meet its obligations to the public, the Court will direct the Reading Co. and the Coal Co. to tender for acceptance by the bondholders the following proposals for the execution of new bonds and mortgage and the delivery of new bonds to holders of general mortgage bonds:

(a) The Reading Co. shall execute a new mortgage which will provide for the creation of a series of bonds to be known as Series A, to be limited to the aggregate principal amount of $63,084,666 2-3, and to be issuable only upon the surrender of general mortgage bonds as hereinafter provided. Said bonds of Series A will bear interest at the rate of 4½% per annum, will mature Jan. 1 1997 and will be redeemable as a whole only at 105 and int. on any int. day on 60 days' notice. The new mortgage will contain appropriate provisions for the creation and issue of additional series of bonds equally secured thereby bearing interest at such rates and maturing on such dates and otherwise in such form and containing such provisions as may be determined by the directors at the time of issue.

(b) The Coal Co. shall execute a new mortgage which will provide for an issue of bonds limited to the aggregate principal amount of $31,542,333 1-3, and to be issuable only upon the surrender of gen. mtge. bonds as hereinafter provided. Said bonds will bear interest at the rate of 5% per annum, will mature Jan. 1 1973, and will be redeemable as a whole, but not in part except for the sinking fund, at 105 and int. on any int. day on 60 days' notice.

(c) The Reading Co. and the Coal Co. shall offer to the holders of gen. mtge. bonds the right to surrender their bonds and receive in exchange therefor an equal aggregate principal amount of new bonds (with an adjustment of interest as of the date of the surrender of the gen. mtge. bonds for exchange) as follows:

Two-thirds of said principal amount in 4½% 74-year gen. (or, if and when practicable, *first*) & ref. mtge. gold bonds, Series A, of the Reading Co.

One-third thereof in 5% 50-year ref. mtge. sinking fund gold bonds of the Coal Co.

(d) The exchanged bonds will be pledged under the new mortgages. (For details, see V. 116, p. 2256.)

Plan Approved by Court.—Judges Buffington, Davis and Thompson filed a final decree in the U. S. District Court June 28 1923 at Philadelphia, directing the dissolution of the Reading Co. and its subordinate concerns within six months.

The decree adopted the third modified segregation plan submitted May 10 1923.

STOCK.—Reading Co. has the right to convert the 2d pref. stock into one-half first pref. and one-half common stock. See V 64, p. 709.

Pursuant to the final dissolution decree, the Reading Co. in Jan. 1924 offered to its stockholders, preferred and common, share and share alike, the right to subscribe for certificates of interest in 1,400,000 shares of the capital stock (no par value) of Philadelphia & Reading Coal & Iron Corp.

Stockholders of record Dec. 17 1923 have the right to subscribe for said certificates of interest at the rate of a certificate of interest in one share of stock of Philadelphia & Reading Coal & Iron Corp. for each two shares of stock of Reading Co. pref. or com. held. This right of subscription must be exercised before Jan. 1 1927, and certificates of interest may be exchanged for stock of the coal corporation by filing the necessary affidavit prior to July 1 1927. The price of subscription is $4 for each share of stock of Philadelphia & Reading Coal & Iron Corp. represented by the certificates of interest subscribed for, or $2 for each share of Reading stock. Compare V. 118, p. 203, and Segregation Plan above.

PROPRIETARY LINES.—These, with a total mortgage indebtedness Dec. 31 1924 of $453,863,408, are controlled through stock ownership, only $2,479,800 out of their total capital stock of $363,702,900 not being held on Dec. 31 1924 by the Southern Pacific Co.

ORGANIZATION.—Organized under laws of Kentucky.

As to disposal made by Union Pacific of its interests in company in 1913 under order of court, see V. 97, p. 50, 445, 667.

Suit by the Govt. to compel the company to dispose of its holdings in Central Pacific was decided against the Govt. in the lower court in March 1917; an appeal by the Govt. came up for hearing in the Supreme Court on April 17 1921, and, after full oral argument, was submitted on April 19 1921 and taken under advisement by the Court. On Jan. 9 1922 the Court ordered a re-argument of the case. On May 29 1922 the U. S Supreme Court ordered the dissolution of ownership and control of the Central Pacific Ry. by the Southern Pacific Co. V. 107, p. 1542; V. 104, p. 1046; V. 107, p. 513; V. 114, p. 199, 2470, 2718; V. 115, p. 646, 1732. The company in Oct. 1922 filed an application with the I.-S. C. Commission asking authority to acquire control of the Central Pacific by lease and stock ownership, pending final determination by the Commission of a plan for consolidation of the railroads into a limited number of systems. This application was approved by the Commission upon certain conditions on Feb. 6 1923. Compare V. 116, p. 685, 2768; V. 117, p. 782. As to Union Pacific decision in 1912, see V. 97, p. 445, 667.

Oil land decision, V. 98, p. 1994; V. 99, p. 1461; V. 100, p. 399, 734, 2011 V. 103, p. 1221; V. 106 p. 2123; V. 107, p. 513; V. 109, p 889, 1988, 2172 V. 110, p. 1090. In Sept. 1925 the company was awarded $4,075,478 in the final accounting of the old Oregon-California RR. land grant cases. Compare V. 121, p. 1457.

The directors on Dec. 1 1920 adopted a plan for the separation of the company's California oil properties and of its stock holdings in the Associated Oil Co. from its railroad properties, a new company, known as the Pacific Oil Co., being organized for this purpose. See Pacific Oil Co. under "Industrials."

On Jan. 1 1917 agreed to take part in building and then to operate the San Diego & Arizona Ry. (V. 104, p. 74), San Diego to Yuma, Cal., 220 miles and branches. V. 104, p. 74; V. 105, p. 2367; V. 107, p. 514.

Southern Pacific RR. of Mexico, incorporated 1909 with $75,000,000 stock (all owned Dec. 31 1924 by Southern Pacific Co.), took over the 1,507 miles covered by Mexican concessions, extending from Empalme to Guadalajara, 815 miles, with branch lines 692 miles, of which 1,249 miles had been completed Dec. 31 1924. In Dec. 1910 obtained additional concession from Guadalajara to Mexico City V. 83, p. 1536; V. 84, p. 1141; V. 86 p. 350; V. 87, p. 414; V. 88, p. 303, 1622; V. 91, p. 1645, 1770. It was announced in March 1923 that work had been resumed on the Southern Pacific RR. of Mexico, which will connect the main line at Tucson with Mexico City by meeting the National Railways of Mexico at Orendian All but 98 miles of the line were completed when revolutions interrupted in 1910. This gap is now to be bridged. The road is not expected to be completed before 1926. Northwestern Pacific RR. (jointly owned with Atchison), see that company.

The Southern Pacific Equipment Co. was incorp. in May 1920. V 110, p 2293.

The I.-S. C. Commission in Sept. 1924 authorized the acquisition by the Southern Pacific Co. of control of the carriers comprising the El Paso & Southwestern System by stock ownership through purchase of the interest of the El Paso & Southwestern Co. therein and by lease. Also granted authority to the Southern Pacific Co. to issue not exceeding $28,000,000 common stock and not exceeding $29,400,000 5% 20-year collateral trust bonds in payment for the interest of the El Paso & Southwestern System in the Nacozari RR. Co. The operation of the properties of the El Paso & Southwestern System was formally taken over on Nov. 1 1924. V. 119, p. 1626, 2177.

On Dec. 31 1925 $61,333,000 of development & gen. mtge. 4% bonds were outstanding and a further $37,519,000 was available for company's use. These bonds, subject to underlying liens, are now said to be a direct mtge. on some 3,880 miles of road, a coll. lien on 1,175 miles, a lien by pledge of leaseholds on 1,813 miles and are also secured by pledge of securities, &c. Principal and 4% interest secured by lien of the dev. & gen. mtge. The additional int. obligations will not be secured by the dev. & gen. mtge., but in the supplemental indenture the company will covenant that it will not create any new mtge. upon any part of the railways subject to the dev. & gen. mtge. unless such new mtge. expressly shall secure the payment of the additional interest obligation equally and ratably with any indebtedness secured by such new mtge. The total 6½% and 6% int. obligation is combined in the several coupons. V. 114, p. 307; V. 117, p. 2214.

The collateral trust 4s of 1901 have been issued, $ for $, in exchange for the Mobile & Ohio gen. 4s as acquired, by a pledge of which they are secured. Decision of U. S. Supreme Court permitting all would-be tenants to use the property, see V. 94, p. 1187; V. 95, p. 545, 1208, 1685; V. 96, p. 136, 1774; V. 98, p. 764, 1394, 1994; V. 100, p. 1734.

In the litigation between the western lines of the Terminal Railroad Association and the eastern lines over the "bridge arbitrary," Judges of the Circuit Court of Appeals, en banc as District Judges, on Feb. 8 1923 handed down a final decree which declared that the Terminal and the eastern subsidiary companies had been in contempt of Court since 1914, and ordered the defendants to rebate to the western lines alleged unfair through freight charges which they declared had been charged against them, to the advantage of the Terminal Association and the eastern lines. Compare V. 116, p. 1178. Appeal granted, V. 116, p. 1412. Appeal heard and decided Oct. 13 1924 by the Supreme Court of the United States, reversing the decree of the District Court entered Feb. 8 1923, and holding that the making of rates and the division of joint rates is a legislative, and not a judicial, function, and that the controversy was referable to the I.-S. C. Commission. Feb. 4 1925 the West Side Lines filed a complaint with the I.-S. C. Commission and against the East Side Lines, asking for division and reparation. In this proceeding no complaint is made against the Terminal Railroad Association charges.

ORGANIZATION.—In 1888 reorganized (V. 43, p. 164; V. 45, p. 401) without having foreclosure sale confirmed, thus preserving Federal charter.

In Oct. 1916 receivers were again appointed and on Dec. 31 1923 the stockholders approved a plan for a readjustment of the road's finances, which was declared operative in May 1924. The plan did not disturb the capital stock but offered holders of the 2d mtge. income bonds 5% non-cumul. pref. stock on a par-for-par exchange basis. The plan also provided for the creation of an issue of new gen. & ref. mtge. bonds secured by a new mortgage subordinate only to prior mortgages of about $31,000,000 and subordinate as to equipment to outstanding equipment trust obligations aggregating approximately $4,600,000.

STOCK.—The Missouri Pacific RR. Co. on Dec. 31 1925 owned $10,000,000 common stock, $23,703,000 preferred stock and $4,440,583 unsecured coupon serial 6% notes.

The pref. stock and the com. stock have equal voting power and no mtge. to secure add'l indebtedness shall be created (except the gen. & ref. mtge.) no obligations maturing more than two years after their date (except the notes described below, the Gen. & Ref. Mtge. bonds and equipment trust obligations) shall be issued, and no stock on a parity with, or having a priority, either as to dividends or assets, over the Pref. stock shall be issued without, in each such case, the consent of the holders of a majority of the outstanding Preferred stock.

DIVS.—Initial dividend on the 5% non-cum. pref. stock of $2.91 a share was paid Dec. 31 1924, covering the period from May 26 1924 to Dec. 31 '24. On Dec. 31 1925, paid 5%.

BONDS.—See 1888 mortgage abstracts, V. 47, p. 82; V. 78, p. 1448. The Weatherford Mineral Wells & Northwestern ($660,000 5s of 1902) are guaranteed, principal and interest, by endorsement. V. 78, p. 344. The $100,000 Denison & Pacific Suburban 5s are also guaranteed.

Louisiana Branch Lines mtg. is limited to $7,000,000. V. 72, p. 577, 1189.

The $5,000,000 5s due Apr. 1 1942 of the Union Terminal Co., Dallas Tex., are guaranteed jointly with seven other proprietary companies.

General & Ref. Mtge. Bonds.—Authorized issue not to exceed 1½ times the par amount of the capital stock from time to time issued. The mortgage securing these bonds shall be a lien, subject only to such of the existing liens as are not displaced upon all the railroads, property and franchises, and, subject to existing equipment trusts, upon all equipment now owned. The lien of the mortgage shall also extend (subject to prior liens) to all properties hereafter acquired by the use of the new Gen. & Ref. Mtge. bonds or their proceeds. Such lien shall be in the form of a direct mortgage, but it may take the form of the pledge or assignment of securities of a corporation or corporations owning property to which the lien is intended to extend.

General & Ref. Mtge. bonds may be issued in separate series, maturing on the same or different dates, and bearing the same or different rates of interest, and any series may be made redeemable, in whole or in part, at times, on notice and at premiums, and may have such conversion privileges and other provisions as determined by the directors.

Notes to Director-General of Railroads.—Such notes bear interest at the rate of 6% per annum and were issued to fund indebtedness of the receivers to the Director-General. They will mature Mar. 1 1930 and will be secured by pledge of $5,500,000 gen. & ref. mtge. Series "A" bonds. Amount issued, $4,400,000.

Unsecured Coupon Serial Notes.—Unsecured coupon serial notes bearing interest at rate of 6% per annum were issued to the amount of the judgments on the unsecured notes of the Texas & Pacific and int. thereon to Jan. 1 1924. Such notes will be dated Jan. 1 1924, will mature in equal annual installments over a period of 10 years, beginning Jan. 1 1930, and will bear interest from Jan. 1 1924. Amount issued, $4,440,583.

Entrance to Chicago is over Chic. & West. Indiana, of whose stock this company owns $1,000,000.

The I.-S. C. Commission on Nov. 2 1925 approved the acquisition by the company of control of the Ann Arbor RR. by purchase of its capital stock (66.9393% acquired as of Dec. 31 1925).—V. 121, p. 2400; V. 122, p. 607.

ORGANIZATION.—Incorporated in Indiana Oct. 22 1915 as successor of Wabash RR. (foreclosed) under First Ref. & Extension Mortgage, and reorganized per plan in V. 100, p. 1599, 1594; V. 101, p. 1975. Took possession Nov. 1 1915. The plan reduced the fixed charges from $5,795,278 to $3,183,915, besides eliminating guaranties and unsecured obligations.—V. 108, p. 270, 1927; V. 109, p. 2074, 2173; V. 110, p. 1090.

STOCK.—The pref. shares A and B are respectively pref., prin. and divs. (non-cumulative) and are callable after 5 years at 110. The A shares are entitled, after payment in any year of 5% on all stock (com. and pref.), to participate in any further dividend for that year at the same rate as declared on common stock (above said 5%). Of the authorized common and convertible preferred, $3,750,000 and $1,250,000 respectively were issuable from time to time on account of unsecured creditors' claims against old co. The pref. and common are issuable as needed for conversion of pref. B, and in Dec. 1925 the amounts outstanding had been increased chiefly in this manner from the totals issued at reorganization in 1915, namely $43,540,000 and $46,200,000, respectively, to the amounts shown in table at top of page. V. 108, p. 1929; V. 107, p. 182; V. 101, p. 2072, 1599; V. 102, p. 1812.

The holders of the convertible pref. stock may at any time after Aug. 1 1918, and up to 30 days prior to any date fixed for the redemption of the entire issue of said profit sharing pref. stock A, convert the same into and exchange the same for profit-sharing pref. stock and com. stock at the rate of $50 of profit-sharing pref. stock and $50 of com. stock for each $100 of convertible pref. stock, with adjustment of unpaid dividends.

DIVIDENDS.—No. 1 on pref. "A" stock Jan. 29 1917, 1%; April, July and Oct., 1%; 1918, Jan. and April, 1%; then none until May 25 1925, when 1¼% was paid; same amount paid quar. to May 25 1926.

BONDS, &c.—The plan of 1915 left it to the new co., after reorganization, to provide, by a first & ref. mtge., or otherwise, for refunding the underlying bonds at maturity and for future capital requirements.

The stockholders on Dec. 29 1924 approved and authorized the creation of a ref. & gen. mortgage, the aggregate principal amount of which at any one time outstanding, together with all prior obligations as defined in the mortgage or deed of trust securing the ref. & gen. mtge. bonds, shall be limited to 1½ times the aggregate par value of the then outstanding capital stock, determined as provided in the mortgage. The lines of railroad covered by the mortgage comprise about 2,034 miles of first main track, 322 miles of second main track and 927 miles of other track, on various parts of which the ref. & gen. mtge. is subject to prior obligations issued and outstanding on Dec. 31 1925, in the aggregate principal amount of $68,443,526, for the retirement of which at or before maturity ref. & gen. mtge. bonds are reserved. None of the prior obligations may be renewed or extended and no further issues made under the indentures securing them, except that $5,936,311 principal amount of additional bonds may be issued under Wabash RR. 1st lien terminal gold 4% trust indenture dated Jan. 1 1904, for the acquisition of additional terminal properties. Ref. & gen. mtge. bonds are reserved for the retirement of any such additional terminal bonds which may be so issued. The $12,500,000 Series "A" gold bonds are not red. before March 1 1935. The entire series, but not part thereof, will be red. on Mar. 1 1935, or on any int. date thereafter at 105 and int. upon not less than 60 days' previous notice. V. 120, p. 700.

Abstracts of the mortgages of 1889 were in V. 49, p. 270-273; *Detroit & Chicago Exten.* mtge., V. 54, p. 1049. *Des Moines Division* bonds of 1889, see V. 68, p. 574; V. 69, p. 1248. *Col. & St. L. RR.*, V. 73, p. 338, 786, 1012; V. 74, p. 1040; V. 75, p. 686.

For $10,000,000 terminal gold bonds of 1904, see V. 76, p. 436, 753, 1032; V. 81, p. 1437; V. 82, p. 570; V. 83, p. 1236; V. 84, p. 997.

The 6% secured gold notes due Mar. 1 1930 are a direct obligation of the co. and are additionally secured by deposit of $729,000 Chicago & Western Indiana RR. consol. mtge. 4% bonds, due 1952, and 1,217 shares (par $100) American Refrigerator Transit Co. capital stock (out of a total issue of 5,000 shares capital stock). V. 120, p. 1324.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 1409; V. 118, p. 665. Government loan, V. 111, p. 794.

Plan.—The stockholders on March 4 1925 approved a capital readjustment plan, which provided as follows:

(1) That 35,000 shares of the unissued pref. stock be changed and reclassified into 35,000 shares of 8% cumul. prior preference stock (par $100 each).

(2) That the authorized capital stock be decreased from $35,000,000, consisting of 175,000 shares of pref. stock, par $100 each, and 175,000 shares of common stock, par $100 each, to $25,000,000, to consist of 35,000 shares of 8% cumul. prior preference stock, par $100 each, 100,000 shares of pref. stock, par $100 each, and 115,000 shares of common stock, par $100 each.

(3) That the decrease of the capital stock of the company be effected by (*a*) cancelling and extinguishing 10,000 shares of the unissued pref. stock, being all of the auth. pref. stock not heretofore issued, remaining after changing and re-classifying 35,000 shares thereof into 8% cumul. prior preference stock; (*b*) purchasing for retirement at not above par, and retiring, 30,000 shares of the outstanding pref. stock; (*c*) cancelling and extinguishing 60,000 shares of the unissued common stock, being all of the authorized common stock not heretofore issued.

(4) That the directors be authorized to purchase from time to time for the company, for retirement, at not above par, the 30,000 shares of pref. stock above referred to, by any one or more of the following methods, as in the discretion of the board may seem advisable: (*a*) pro rata from each holder of shares of said stock; (*b*) from pref. stockholders offering said stock to the co. at the lowest prices up to a total of not exceeding 30,000 shares, or any part thereof, all of said stockholders to be given equal opportunity to submit offerings; (*c*) in the open market; (*d*) by direct purchase at private sale.

All accumulated and accrued unpaid divs., and the right to receive the same, on any of such shares of the outstanding pref. stock so as aforesaid purchased for retirement by the co. to be surrendered and extinguished. The outstanding preferred stock had in this manner been reduced to $11,048,300 in Dec. 1925.

(5) That the directors be authorized from time to time to issue shares of 8% cumul. prior preference stock up to 35,000 shares, for cash at not less than par, or in exchange for shares of outstanding pref. stock, share for share, or upon any other basis of exchange which to the board may seem advisable, with such adjustments of divs. as shall be determined by the board, or to sell the stock or any part thereof and with the proceeds of such sale to purchase shares of outstanding pref. stock for the company, for retirement, at not above par, provided that for each share of said 8% cumul. prior preference stock issued at least one share of outstanding pref. stock shall be purchased, or acquired, by the company, so that at no time shall there be issued and outstanding more than a total of 100,000 shares in the aggregate of both classes of 8% cumul. prior preference stock and pref. stock.

Such sinking fund payments shall be applied by the trustee to the purchase or redemption of Series A bonds at not exceeding the current redemption prices. The company shall have the right to deliver bonds to the trustee at par in lieu of cash. V. 116, p. 298.

STOCK.—In Sept. 1922 amendments to certificate of incorporation provided for creation of a new class of 7% Cumul. Pref. stock, of which $77,000,000 was authorized and issuable for following purposes and in following amounts so long as required for such purposes:

(1) $34,500,000 in exchange for existing 8% Cumul. Conv. Pref. stock;
(2) $15,000,000 in exchange for existing 7% Non-Cumul. Pref. stock;
(3) $12,500,000 in payment for the Lackawanna properties; and
(4) $15,000,000 for sale.

At the same time the holders of the existing 8% Cumul. Conv. Pref. stock were given the right, after Jan. 1 1923, and until termination by the board of directors to exchange such stock for new 7% Cumul. Pref. stock. The basis of said exchange prior to March 4 1926 was $115, and is now $110, par value, of 7% cumul. pref. stock for each share of 8% cum. conv. pref. stock. All of the outstanding 8% pref. stock has been called for retirement on July 1 1926 at 115 and divs.

At the same time the holders of the 7% Non-Cumul. Pref. stock were given the right to exchange such stock after Oct. 1 1922 and prior to Jan. 1 1923, subject to extension by the board, for new 7% cum. pref. stock on the basis of share for share. The 7% non-cum. pref. stock has been retired, substantially all of it having been exchanged.

The certificate of incorporation of the corporation as last amended Sept. 1922, provided that after 80% of the 7% Non-Cumul. Pref. stock shall have been exchanged for Cumul. Pref. stock or otherwise retired Class B Com. stock shall be in all respects the same as the Com. stock and shall cease to exist as a separate class of stock. Pursuant to such provision, on April 4 1923 the Class B common stock became in all respects the same as the common stock and ceased to exist as a separate class of stock.

The stockholders on April 6 1926 increased the authorized 7% preferred stock from $77,000,000 to $100,000,000.

(J. I.) CASE PLOW WORKS, INC.—Incorp. under laws of Delaware on Aug. 3 1925 as a reorganization of the J. I. Case Plow Works Co. (see Reorganization Plan below). The latter company was incorp. in Delaware June 29 1919 to acquire the property, business, &c., of J. I. Case Plow Works and Wallis Tractor Co. of Racine, Wis. Manufactures plows, tillage implements and Wallis tractors. V. 109, p. 1276, 1528.

Reorganization Plan (V. 120, p. 3191).

The stockholders on July 7 1925 approved a reorganization plan providing as follows:

New Company and Capitalization.—It was proposed that a new corporation be organized in Delaware, to be known as *J. I. Case Plow Works, Inc.*, and that all of the present assets of the J. I. Case Plow Works Co. be transferred to the new corporation in consideration of the new corporation issuing to the J. I. Case Plow Works Co. $1,111,200 1st Mtge. bonds, 16,668 shares of "A" stock (par $100) and $160,000 shares of "B" stock of no par value. The new company was incorporated Aug. 3 1925.]

The "A" stock is preferred as to assets and entitled to receive $6 dividends in any one particular year before any dividends whatsoever are paid on the common stock for that year, but the dividends on "A" stock shall not be cumulative.

What Bank Creditors Received.—The stock thus transferred by the new corporation to the J. I. Case Plow Works Co., constituted all of the capital stock of the new corporation, and permitted the J. I. Case Plow Works Co. to pay its creditors 20% of their claims in first mtge. bonds, 30% of their claims in "A" stock (figuring both bonds and "A" stock at par value) and four shares of "B" stock for every one share of "A" stock so issued. The "B" stock had a book value of approximately $5 50 a share, which meant that the creditors received securities of the new company of the par or book value of approximately 56% of the amount of their claims.

All Other Creditors to Be Paid in Full in Cash.—The plan contemplates that all creditors other than the bank creditors and the Illinois Steel Co. be paid in full in cash, so that there will be no danger of any kind of any bankruptcy or receivership proceedings being instituted against either the old or the new company.

What Old Preferred Stockholders Received.—The preferred stockholders of the J. I. Case Plow Works Co. received one share of the "B" stock of the new corporation for each share of preferred stock that they held in the J. I. Case Plow Works Co.

What Common Stockholders Received.—Common stockholders received one share of "B" stock in the new corporation for each 20 shares of the common stock of the J. I. Case Plow Works Co. held.

Sinking Fund.—A sinking fund will be provided for, for the retirement of the 1st mtge. bonds, and these bonds will be retired as quickly as possible.

Voting Trust.—All of the stock of the new company, including both the "A" and "B" stock, was placed in a voting trust for a period of three years, and voting trust certificates were issued to the creditors and the old stockholders in lieu of the actual stock certificates.

Reorganization Committee.—C. B. Mills, Pres. Midland National Bank, Minneapolis (Chairman); Norman J. Ford, V.-Pres. Illinois Merchants Trust Co., Chicago; David G. Janes, Pres. First National Bank, Racine; Norris E. Crull, Credit Mgr. Illinois Steel Co., Chicago; Abner J. Stilwell, Asst. Cashier Continental & Commercial National Bank, Chicago.

STOCK.—The 1st Pref. is cumulative. Redeemable at 110. Annual sinking fund of $175,000 provides for its retirement at 110. The 2d pref. is non-cumulative. Red. at 115 on 30 days' notice when 1st pref. is all retired. Shares equally in any divs. declared upon the common stock without reservation as to amount of such common div. No mortgage without consent of 75% of 1st pref. stock. See offerings in V. 109, p. 1276, 1528.

CUBA CANE SUGAR CORP.—ORGANIZATION.—Incorporated in Dec. 1915 in N. Y. A consolidation of 17 sugar plantations. V. 103, p. 64; V. 102, p. 1628. In July 1916 acquired Stewart Sugar Co. of Cuba. V. 102, p. 2344; V. 103, p. 64, 496. During 1920 the company purchased Central Violeta, in Camaguey Province, Cuba. V. 110, p. 2196, 2052. Other acquisitions during 1920, V. 111, p. 2052. Crops made by the company: No. of bags (7 bags equal one ton of 2,240 lbs.), viz.: 1916-17, 3,261,621; 1917-18, 3,613,325; 1918-19, 4,319,189; 1919-20, 3,763,915; 1920-21, 3,978,102; 1921-22, 3,379,451; 1922-23, 3,284,731; 1923-24, 3,683,291; 1924-25, 4,471,357.

STOCK.—Authorized, $50,000,000 7% cum. conv. pref. (par $100), and 2,100,000 shares common (including 500,000 shares reserved for conversion of pref. stock and sufficient shares for conversion of 7% debenture bonds; see below), no par. Pref. is redeemable at 120 and int. and is preferred as to assets and dividends. Convertible into common, share for share, at any time, at option of holder. V. 103, p. 64, 794.

BONDS, &c.—The $25,000,000 10-year 7% debentures (offered in Jan. 1920 at 100 & int.) are convertible at any time into common stock at $45.8823 per share. Redeemable on 60 days' notice at 107½ during the first 5 years, 105 during the sixth year, 104 during the seventh year, 103 during the eighth year, 102 during the ninth year, and 101 thereafter. No mortgage may be created while any of these debentures are outstanding except purchase money mortgages. V. 109, p. 2174; V. 110, p. 363.

In Sept. 1921 the company announced that it had arranged with a group of bankers to secure at once a loan of $10,000,000 under an arrangement which required the subordination of the $25,000,000 7% Convertible Debentures to the new money for the period of the loan and of any renewals, substitutions or refundings thereof. As a consideration therefor, the company offered to increase the rate of interest on assenting debentures from 7 to 8% per annum from July 1 1921 to the maturity of the debentures. The plan was declared operative on Oct. 31 1921. On Sept. 29 1923 it was announced that the loan had been paid off and the subordination of the 8% debentures had been terminated. The 8% debentures therefore now enjoy the same position in point of security as the 7% debentures, but they will continue until maturity (Jan. 1 1930) to bear interest at the rate of 8% per ann. instead of 7%. V. 113, p. 1475, 1986; V. 115, p. 2682; V. 117, p. 1560.

The Eastern Cuba Sugar Corp. 7½% mortgage bonds are guaranteed, prin. and int., by Cuba Cane Sugar Corp. and are exchangeable for the life of the bonds into Cuba Cane Sugar Corp. common stock at $20 per share. Sinking fund will retire annually for five years, beginning in 1925, 3%, and thereafter annually 5% of the maximum amount of bonds at any one time outstanding; redeemable at any time after one year, all or part, on 60 days' notice at a premium of 7½% if redeemed on or before Sept. 1 1924; if redeemed thereafter and on or before Sept. 1 1934, the premium shall decrease ½ of 1% for each year or fraction thereof elapsed from Sept. 1 1924 to date of redemption; if redeemed after Sept. 1 1934 the premium shall decrease 1% for each year or fraction thereof elapsed from Sept. 1 1934 to date of redemption. V. 115, p. 650, 1326.

DIVIDENDS.—On pref. April 1916 to Apr. 1 1921, 7% p. a. (1¾% qu.); none since.

CUBAN DOMINICAN SUGAR CO. (THE)—Co. was incorporated in Maryland March 22 1922 as a holding company. Owns stocks of operating subsidiary companies (through 100% stock ownership), which subsidiaries are engaged in the business of owning and operating sugar plantations and factories in Cuba and in the Dominican Republic, and in the growing and grinding of sugar cane and manufacturing and selling of raw sugar and related products.

Company was organized to acquire all of the assets of the Cuban Dominican Sugar Development Syndicate, including all proceeds of any claims against defaulting subscribers, in accordance with the plan for the liquidation of the syndicate dated March 8 1922 (V. 114, p. 1185). Compare V 116, p. 620. On Oct. 1923 the company acquired the Sugar Estates of Oriente, Inc. V. 119, p. 1960, 2184.

Reorganization Plan.

A reorganizationof the company was announced in a letter sent to stockholders in April 1926 by Pres. George H. Houston. The plan of capital readjustment calls for the formation of a new company (Cuban-Dominican Sugar Corp., organized under laws of Maryland) with but one class of stock outstanding. The authorized capital stock will consist of 1,150,000 shares (without par value) of which 1,142,836 shares are to be issued presently. The plan in brief provides as follows:

Each present holder of the pref., in addition to receiving 1 share of stock of the new co. for each share of the old now held, is also to receive a transfer of the subscription warrant entitling him to subscribe at $20 a share for all or any part of 2 shares of stock of the new co.

Each nolder of present com., in addition to receiving one share of stock in the new co. for each 10 shares of old com., is also to receive transferable subscription warrants giving him the right to subscribe at $20 a share, for all or any part of 35-100ths of a share of stock of the new co. for each share of his existing com. stock. This is equivalent to all or any part of 3½ shares of stock of the new co. for each 10 shares of his existing com.

The plan of capital readjustment will provide the new co. with $15,300,000 in cash, which will be sufficient to pay off all bills payable and provide the co. with adequate working capital to meet its needs. A syndicate, headed by W. A. Harriman & Co., Inc., and Cassatt & Co., has agreed to underwrite the reorganization. Compare V. 122, p. 2505.

STOCK.—Preferred and common stocks have equal voting power

BONDS, &C.—The first mtge. 8% bonds (see table at head of page) have a sinking fund provision of $500,000 for each year, commencing July 1 1925, and continuing to maturity.

The $15,000,000 1st (closed) lien 20-year sinking fund 7½% gold bonds are redeemable on any int. date, either as a whole or at the option of the company, at 105%, or by lot, through the operation of the sinking fund, at 110%. As security there will be pledged with the trustee $16,500,000 1st (closed) mtge. bonds of certain controlled properties constituting their entire funded debt, and the entire issued and outstanding common capital stocks (other than directors' shares) of all controlled companies, both in Cuba and in the Dominican Republic. The sinking fund provisions will require the payment to the trustee semi-annually of cash aggregating at least $750,000 a year, less certain credits on account of subsidiary sinking fund retirements, together with additional amounts equivalent to 25% of all dividends declared and paid on the company's pref. and common stocks, respectively; and all moneys so deposited will be applied semi-annually commencing May 1 1925 to the redemption and retirement by lot of bonds of this issue at 110%. V. 119, p. 1960; V. 120, p. 1753.

NOTES.—The $1,600,000 secured 7% serial gold notes will be secured by a second lien on the same collateral as the 1st lien 20-year s. f. 7½% gold bonds, and will be redeemable in whole or in part at any time at face value and accrued interest. These notes will mature in five equal annual installments.

EASTMAN KODAK CO.—ORGANIZATION.—Incorp. in New Jersey Oct. 24 1901 as an amalgamation per plan in V. 73, p. 1114, of various operating companies, of which it owns practically all the stock. See list, V. 67, p. 1160, 1207; V. 69, p. 387; V. 75, p. 735, 613; V. 77, p. 253, 300; V. 89, p. 1225; application to list, V. 80, p. 1477; V. 93, p. 1728; V. 97, p. 731; V. 98, p. 1540.

The decree of dissolution and injunction entered on Feb. 1 1921, against the co. was modified May 13 1925 when Judge Hazel of the U. S. District Court for the Western District of New York signed a new decree in the case.

This case, which was a suit against the co. under the anti-trust laws, was won by the Government several years ago. The decree directed the respondent to sell the Premo camera, Century-Fulmer and Schwing business and certain brands of dry plates and printing-out paper. The plates and paper interests were sold to Defender Photo & Supply Co., Inc., of Rochester in 1924.

The decree signed May 13 1926 recites that the co. has entered into a contract with Clark Williams & Co. of 160 Broadway, N. Y. City, for sale of the Premo and Century-Folmer and Schwing departments of its business, including a factory in Rochester and modifies the other decrees to the extent that, although the Premo camera business is transferred title is not passed to the factory in which this business has heretofore been carried on, nor does the purchaser take such machinery as remains in the Premo factory.

The decree also recites that Clark, Williams & Co. proposes to organize a corporation to take title to the properties purchased and to continue the manufacture of the several lines of cameras and accessories which are the subject of sale.

CAPITAL STOCK.—The stockholders on Apr. 4 1922 ratified the proposal to change the 250,000 shares of common stock, par $100, to 2,500,000 shares of no par value, and to give ten shares of no par value stock for each share of $100 par value.

Readjustment Plan (V. 122, p. 1032).

The directors in Feb. 1926 submitted to the stockholders a plan of readjustment of the company's affairs outlined as follows:

New Company.—It is proposed that a new company be organized under the name of Emerson-Brantingham Corp. in Illinois. All of the assets of the present company are to be transferred to the new corporation which will assume all of the obligations of the present company.

Capitalization.—The new corporation will issue: 200,000 shares class A stock and 20,000 shares class B stock.

Both classes of stock shall be no par value and with equal voting privilege, but the A stock shall have a preference of $50 per share as to assets, in event of liquidation, and $3 50 per share as to divs. paid, and shall participate share for share with class B stock on any divs. paid over $3 50 per share. Dividends on the class A stock to be non-cumulative.

Exchange of Stock.—Holders of preferred stock of present company are to receive one share of class A stock of new company in exchange for each share of pref. stock which they hold. Common stockholders of present company are to receive one share of class B stock of new company in exchange for each 5 shares of common stock they own in present company.

Stock for Employees.—A portion of the class A stock shall be set aside for the benefit of employees participating in the management of the company, to be distributed among them in such manner and at such prices as may be determined by the directors, in the event of the company showing satisfactory earnings. None of the stock reserved for employees participating in the management of the company shall be distributed until 25% of the original issue of debentures (mentioned below) shall have been retired.

To Offer Additional Stock.—After this exchange, a part of the excess class A stock remaining in the treasury of new company shall be later either offered to preferred stockholders at such price as may be deemed fair and adequate by the directors, or otherwise disposed of, for the purpose of acquiring additional working capital.

Bank and Creditors to Convert Indebtedness.—In the event that the plan is consummated with the practically unanimous consent of the stockholders, the banks and the larger creditors have agreed to convert the indebtedness owing by the company to them as of Oct. 31 1925, into 5% 5-year debenture notes. The banks have further consented to make such additional loans as may from time to time be agreed upon as necessary in the conduct of the business, provided, of course, the company is making satisfactory progress. The indenture securing the debenture notes shall contain among others, the following provisions:

(*a*) Each year an annual audit is to be made by competent accountants. If such audit reveals a loss from operations, after all proper charges including the usual reserves in accordance with the practice of the leading companies in the industry, as of much as $400,000 in any one year, or losses aggregating $750,000 or more in any three consecutive years, or if any such audit shall show that the company's net quick assets do not equal at least 75% of the then outstanding obligations, upon request of the holders of 50% of the then outstanding debenture notes, the trustees shall declare the entire issue in default and proceed to exercise all rights given the trustee under the indenture in the event of any default on the part of the company. (*b*) No mortgage or prior lien shall be placed on any of the company's assets, nor

6½% Gold Debentures.—The National City Co. in Dec. 1925 sold at 94 and int. $10,000,000 15-year 6½% gold sinking fund debentures, carrying certain stock purchase rights which may be availed of at the option of the respective holders of such rights, at any time up to and incl. Dec. 1 1930.

Dated Dec. 1 1925, due Dec. 1 1940. Int. payable J. & D. Denom. $1,000c*. Principal, interest and sinking fund payable in N. Y. City in U. S. gold coin of the present standard of weight and fineness at National City Bank, New York, trustee, without deduction for any past, present or future taxes or duties levied by or within the German Reich. Red. on any int. date, beginning June 1 1931, but not prior thereto, on 30 days' notice, either as a whole, or in part for sinking fund, at 102½ up to and incl. Dec. 1 1935, the premium declining ½% each subsequent year to par in the year 1940.

Stock Purchase Rights.—Each debenture will carry a stock purchase right evidenced by an appropriate warrant, or otherwise, entitling the holder to purchase shares of the common stock of the AEG of the par value of 100 reichsmarks (about $23 80 at par of exchange) each, evidenced by certificates in bearer form, carrying unmatured annual dividend coupons. The number and price of shares covered by each warrant will be determined as follows: First 2,360 warrants presented will each call for 18 shares at $24 a share (100.8%); next 2,150 warrants presented will each call for 18 shares at $26 50 a share ($111.3%); next 1,940 warrants presented will each call for 18 shares at $29 a share (121.8%); next 1,800 warrants presented will each call for 18 shares at $31 50 a share (132.4%); last 1,750 warrants presented will each call for 17 shares at $34 a share (142.9%).

The requisite number of shares will be deposited with National City Bank, New York, which, upon exercise of any right, will deliver the appropriate number of share certificates, or, if the right be exercised prior to Dec. 1 1928, a trust receipt exchangeable for such shares on and after that date, or, at the option of the AEG, prior thereto. The purchase rights will expire if not exercised on or before Dec. 1 1930. The right may be exercised by the payment of cash, but in lieu of cash, debentures of the present issue will be accepted at face value, plus int. to an amount no greater than the aggregate purchase price of the shares. Substantially all the cash realized from the sale of shares will be applied to the purchase of debentures, if obtainable at prices not exceeding 100% and int. within a reasonable time (not less than six or more than 12 months) after receipt. If not so used, such cash reverts to the AEG.

Sinking Fund & Redemption.—A sinking fund will be provided which will redeem all the debentures outstanding on Dec. 1 1930, in substantially equal semi-annual installments during the following ten years. On any int. date beginning June 1 1931, but not prior thereto, the outstanding debentures may be redeemed either as a whole or in part for the sinking fund at 102½ up to and incl. Dec. 1 1935, the premium declining one-half point each subsequent year to par in the year 1940.

EARNINGS.—For the five years ending June 30 1914 the net earnings available for dividends after deducting all interest, tax and depreciation charges, were as follows:

President Alfred P. Sloan Jr. announced in Sept. 1925 that the corporation had pending a proposition looking towards the acquisition of all of the ordinary shares, or common stock, of the Austin Motor Co., a British manufacturer of automobiles with plants located at Birmingham, Eng. The proposition has been accepted by General Motors Corp. and approved by the directors of the Austin Motor Co., and is subject to ratification by the stockholders of the latter company. V. 121, p. 1352.

President Sloan in Oct. 1925 also confirmed cable advices from London to the effect that arrangements are under way whereby the corporation may become financially interested in Vauxhall Motors, Ltd. V. 121, p. 2046, 2527.

***Managers Securities Co.*—Pres. Alfred P. Sloan, Jr., on Oct. 29 1923 announced that the directors had worked out a plan under which about 70% of the principal executives of General Motors will be given an opportunity to acquire a substantial stock interest in the corporation. The plan is briefly summarized as follows:**

(1) General Motors Corp. will cause the Managers Securities Co. to be organized in Delaware with a capital of $28,800,000 of 7% cumul. non-voting con. pref. stock, $4,000,000 Class A stock and $1,000,000 Class B stock.

(2) General Motors Corp. will subscribe for all of the Class A and Class B stock, paying therefor $5,000,000 in cash, and will enter into a contract with the Managers Securities Co. agreeing to pay to it for each year from 1923 to 1930, both inclusive, 5% of its net earnings in excess of 7% on the capital employed. On Jan. 1 of each year it will advance $2,000,000 to the Managers Securities Co. on account of amount due under this contract, or as a loan, or both, as more fully recited in the plan.

(3) The Managers Securities Co. will offer to purchase as of Oct. 15 1923, the equivalent of 2,250,000 shares of General Motors Corp. com. stock at $15 per share, aggregating a total purchase price of $33,750,000, payable $4,950,000 in cash and $28,800,000 in its 7% cumul. non-voting conv. pref. stock; this is at the rate of $2 20 in cash and $12 80 in 7% pref. stock for each share of General Motors Corp. common stock purchased.

(4) A special committee of the directors will select a list of managers (including directors who are occupying managerial positions) to whom the General Motors Corp. will sell at cost the Class A and Class B stocks of the Managers Securities Co. theretofore purchased. Sales so made to these managers will be secured by an agreement under which the General Motors Corp. shall have the right to repurchase said stock under the terms and conditions recited in the plan.

Each common stockholder is given the right to supply common stock for the purposes of this plan up to 10% of his total common stock holdings, to be paid for at the rate of $2 20 in cash and $12 80 in 7% cumul. non-voting conv. pref. stock of the Managers Securities Co. for each share of General Motors Corp. common stock supplied.

(For further details of plan, compare V. 117, p. 1998.)

On Dec. 31 1925 E. I. du Pont de Nemours & Co. owned 1,330,829 shares of the company's common stock; also owned $15,520,000 preferred stock of Managers Securities Co.

STOCK.—The stockholders on June 16 1924 adopted the charter amendments proposed by the directors for the purpose of simplifying the capital structure of the corporation.

These amendments provided for the consolidation of the three issues of senior securities into one issue of 7% pref. stock, which will constitute a prior preference on the entire assets after debts of the corporation.

Holders of the outstanding 6% pref. stock and 6% debenture stock were accorded the right, upon payment of $10 per share, to exchange their shares for a like number of shares of the new 7% pref. stock, exchanges to be made on or before Dec. 31 1924.

Holders of the outstanding 7% debenture stock were notified to send in their 7% debenture certificates to the stock transfer office of the corporation for exchange into 7% pref. certificates, which were to be ready for delivery on July 1 1924.

The charter amendments also provided for the exchange of the outstanding common shares for new common shares on the basis of one new common share for each 4 shares of common stock outstanding, thus reducing the 20,646,400 common shares outstanding to 5,161,599 shares.

DIVIDENDS.—On com., in 1917, Feb., 1%; May 1917 to Feb. 1920, 3% each quar. (12% p. a.). The directors on March 25 1920 declared a dividend of 25 cents a share in cash and 1-40th of a share in stock on the new com. stock without par value, and a dividend on the old com. stock of the par value of $100 a share at the rate of $2 50 a share in cash and one-fourth of a share of com. stock without par value, payable May 1 1920. In Aug. and Nov. 1920, paid 25c. a share in cash and 1-40th of a share in stock on the new com. In Feb., May, Aug. and Nov. 1921 paid 25c. a share in cash, the stock dividend being omitted. GOLD DUST CORPORATION.—Organized in Sept. 1923 with an authorized capital of $5,000,000 non-cumul. 6% pref. stock, par $100, and 325,000 shares of com. stock, no par value. It succeeded to the soap and washing powder business (the manufacture and sale of Gold Dust, Fairy Soap, Sunny Monday Soap and like products) formerly carried on by The N. K. Fairbank Co., a subsidiary of American Cotton Oil Co., and all of its then outstanding stock was issued to The N. K. Fairbank Co. and American Cotton Oil Co. for property. On Oct. 25 1925 it was announced that the corporation had contracted to acquire the business of the F. F. Dalley Corp., manufacturers of Two-in-One, Bixby's and Shinola shoe polishes. V. 121, p. 2164.

A plan for the exchange of stock of Gold Dust Corp. for stock of American Cotton Oil Co. was formulated under which pref. and com. stock of American Cotton Oil Co. were made exchangeable for stock of Gold Dust Corp. in the ratio of one share of com. stock of Gold Dust for one share of the pref. stock of American Cotton Oil Co. and one share of com. stock of Gold Dust Corp. for each three shares of the com stock of American Cotton Oil Co. In furtherance of this plan there was organized in Dec. 1923 the F. S. Corp. in New Jersey. To this corporation were transferred the pref. and com. stock of American Cotton Oil Co. deposited under the plan for exchange of stock of Gold Dust Corp. By consolidation agreement, dated Jan. 22 1924, the F. S. Corp. merged with and into Gold Dust Corp. This merger effected the transfer to Gold Dust Corp. of the deposited stock of American Cotton Oil Co., consisting of over 93% of each class. The capital of Gold Dust Corp. continued the same. $1,000,000 of its pref. stock were reissued to American Cotton Oil Co. and $4,000,000 pref. and approximately 50,000 shares of its com. stock to N. K. Fairbank Co. Arrangements were made for the exchange of further stock of the American Cotton Oil Co. for stock of Gold Dust Corp., &c., in the above ratios. As of May 1 1926 Gold Dust Corp. owned over 98% of pref. and over 99% of common stock.

STOCK.—The stock is deposited under a voting trust agreement, dated Jan. 28 1924 and expiring July 1 1931. The voting trustees are Francis D. Bartow, Ray Morris, George K. Morrow and Royall Victor.

HOUSTON OIL CO. OF TEXAS.—Incorp. July 5 1901 in Texas. Owns the oil and gas rights on over 800,000 acres of land in Texas and Louisiana. The fee simple of the lands, together with all mineral rights thereon other than oil and gas was sold in 1915 to the Southwestern Settlement & Development Co. (not incorporated).

The stockholders in Nov 1916 ratified the acquisition by the Federal Petroleum Co and the Republic Production Co. of an undivided half-interest in the mineral rights retained by the company and also in those sold to the Southwestern Settlement & Development Co. The Federal Petroleum Co. and the Republic Production Co. assumed the management and control of the company's oil development of the lands involved in Dec. 1916 under this agreement.

In 1901 the Houston Oil Co. contracted to sell to the Kirby Lumber Co. about 8,000,000,000 feet of standing yellow pine timber of 12 inches and upwards to be paid for semi-annually at $5 per 1,000 feet. Under an agreement effected in July 1908 the amount of timber to be cut under this contract was reduced to 6,400,000,000 feet, the minimum semi-annual payments to be five-eighths of amount specified in original contract.

The stockholders on May 12 1921 approved the terms of the adjustment of the company's claims against the Kirby Lumber Co., under which the Houston Oil Co. received in settlement $3,000,000 in 7% notes, payable semi-annually in installments of $150,000 and secured by a lien on the Kirby Lumber Co.'s timber. Compare V. 112, p. 1982.

The company in April 1925 issued $7,000,000 10-year sinking fund 6½% gold notes, the proceeds to provide the Houston Pipe Line Co. (all of whose securities are owned by the Houston Oil Co. and pledged with the trustee to secure this issue) with funds for the construction of a 200-mile pipe line from the company's recently developed gas field in Live Oak County, Texas, to Houston, Texas, and intermediate points.

CAPITAL STOCK.—Under the terms of a readjustment plan dated July 1911, the Readjustment Managers assigned to the Mercantile Trust & Deposit Co. of Baltimore, trustee, under a readjustment and voting trust agreement, all the pref. and common stock deposited with them, against which were issued Certificates of Beneficial Interest. Under this agreement, the divs. accrued to Jan. 1 1912 were separated from the pref. stock by the issue of (*a*) Pref. stock certificates carrying 6% divs. from Jan. 1 1912, which were issued for pref. stock par for par (*b*) accrued div. certificates which were issued for the divs. unpaid to Jan. 1 1912. All of the accrued dividend certificates have been paid off.

DIVS.—At the end of 1911 accumulated divs. on pref. stock amounted to 54%. Payments were resumed on Aug. 1 1912 with a div. of 3%, which amount has been paid semi-annually to Feb. 1926. The 54% back divs. were paid with an issue of $2,394,065 6% Accrued Dividend Certificates (See above).

The 10-year sinking fund 6½% gold notes are redeemable all or part on any int. date on 60 days' notice at par and int. plus a premium of ½ of 1% for each year or fractional year from date of redemption to maturity.

The indenture provides that the co. will not create any mortgage upon any property now owned or hereafter acquired, except purchase-money mortgages and loans made in the ordinary transactions of the business, while any notes of this issue are outstanding. There will be deposited with the trustee for the benefit of these notes all the bonds and stocks of the Houston Pipe Line Co., including $7,000,000 6½% bonds, which will constitute a first mortgage on the entire 20 (miles of proposed pipe line.

The indenture will provide a sinking fund equal to 75% of the net earnings of the Houston Pipe Line Co., after deducting int. charges on the latter's 1st mtge. bonds, but before depreciation. Sinking fund to be applied to redemption of this issue by purchase in the open market, and if not obtainable, to redemption by lot. It is estimated there should be available for the sinking fund not less than $700,000 annually from date of completion of the pipe line. V. 120, p. 1754.

Reorganization Plan.

A reorganization plan, prepared by the reorganization committee has been adopted by the committee representing the holders of the 8% 10-year sinking fund gold notes.

Digest of Plan.

Sale of Property.—The reorganization committee proposes to petition the court for an order of sale of the receivership property and assets, and arrange for a bid to be made therefor by a purchaser designated by the committee and representing the participating creditors. If purchased, payment for the property is to be made as far as possible through the medium of the creditor's claims. The committee may decline to bid for all or any of the receivership property and assets in the event that a minimum sale price is set for the property in excess of the amount which the committee in its discretion deems it advisable to bid, or it may refrain from bidding in the event other bids are submitted if the committee is of the opinion that the acceptance of any such other bid would be of greater advantage to the participating creditors.

Offer for West Side Plant.—If the committee is successful in purchasing the receivership property, it will proceed in accordance with the following plan.

The committee is in receipt of an offer from H. W. Kranz and associates who are and have been for several years the managing executives of the West Side plant. The offer, summarized, is as follows:

They propose to form an Ohio corp. with the following capitalization:

(*a*) $500,000 1st mtge. 10-year 6% gold bonds. Callable at 101 and int. upon 30 days' notice. Mortgage to provide for a fixed minimum sink fund of $25,000 p. a. and a further provision that after the payment of the div. on the pref. stock and a payment of $1 per share on the common stock in any year, 80% of the balance of net earnings shall be used to retire bonds. Bonds to be underwritten at 90 and int.

(*b*) 25,000 shares 7% cumul. pref. (a. & d.) stock (par $100), of which 15,000 shares are to be presently issued. Callable as a whole at 105 and divs., or for sinking fund at 100 and divs. After present issue of 1st mtge. bonds shall have been retired, it is provided that after the payment of pref. stock divs. and $1 per share on the common stock in any year, 50% of the balance of net earnings shall be used to retire pref. stock until a total of $500,000 shall have been retired, at which time such provision will expire. Pref. stock shall have no voting power except in the event that the co. shall fail to pay divs. for 4 consecutive quarterly periods, in which case the holders of pref. stock shall have the right to elect a majority of the board of directors.

(*c*) 100,000 shares no par value common stock.

They propose to purchase from the reorganization committee the West Side plant, together with all assets pertaining thereto, on the basis of the receiver's balance sheet as of Jan. 31 1925, with certain adjustments caused by changes in the statement due to operations of the company since Jan. 31, and to pay for the whole property $250,000 in cash (par of the proceeds of the sale of the bonds), $1,500,000 7% cumul. pref. stock, and 45,000 shares no par value common stock.

It is estimated that they will pay an amount in cash of $160,000 in settlement of the before-mentioned adjustments, making a total cash payment of approximately $410,000.

The balance of the proceeds of the 1st mtge. bond issue, namely, $200,000, to be paid into the treasury of the co. as additional cash working capital.

They also propose to buy the balance of 55,000 shares common stock, paying therefor into the treasury of the company $50,000 in cash.

East Side Plant.—The committee has no definite offer in hand for the property and assets of the East Side plant, but feels that within a reasonable time it should be able to develop an offer, from reponsible parties who will furnish satisfactory management, for the assets pertaining to the East Side plant. It therefore proposes to form, or have formed, an Ohio corporation with the same capitalization as set forth above, namely, 1st mtge. 10-year 6% sinking fund gold bonds, $500,000; 7% cumul. pref. stock, authorized, $2,500,000, to be presently issued, $1,500,000; common stock, no par value, 100,000 shares; and to convey to such new corporation all the assets pertaining to the East Side business, planning to deal with the securities received in payment in, as nearly as practical, the same manner as outlined above in connection with the West Side plant.

U. S. Government Claim.—The committee proposes to adjust as promptly as possible the U. S. Government claim in connection with the Steelcraft property, and thereafter to dispose of the equity therein on as favorable terms as possible.

To Form Holding Company.—Upon completion of the above steps, the committee should have in its possession the following assets: $1,500,000 7% cumul. pref. stock of the West Side company; 45,000 shares common stock (no par value) of the West Side company; $1,500,000 7% cumul pref. stock of the East Side company; 45,000 shares common stock (no par value) of the East Side company, and a cash balance.

The committee proposes to form a holding company to acquire from the committee the above securities, the holding company to have approximately the following capitalization:

5-year secured gold notes, say	$3,000,000
Common stock (no par value), say	100,000 shs.

The amount of notes to be issued will be the total amount of participating creditors' claims, without interest from date of receivership, less such amount as the committee may pay in cash on account of the principal of said claims.

The number of shares of stock to be issued will be the total of the following: One share for each $100 of participating creditors' claims and 59,989 shares, which is the no. of shares of pref. stock of Hydraulic Steel Co. outstanding.

The 5-year secured gold notes will be issued in registered form and secured by deposit and pledge as collateral of all the above-mentioned securities, and they shall be entitled to receive all of the net income of the co. Of such income, an amount equal to 6% on the face amount of such notes outstanding, as shown on the books of the trustees, shall be paid as int. Any balance of income remaining shall be paid to all noteholders pro rata in reduction of principal until notes shall have been paid in full. In the event of the sale of part or all of the pref. stocks pledged, which sales may be made only at reasonable prices, the proceeds from such sale will be paid to all noteholders pro rata in reduction of principal of said notes.

The 100,000 shares no par value common stock, or whatever number of shares may be issued, are to be placed in a voting trust for five years. There shall be three voting trustees to be selected by the reorganization committee. A condition of the trust shall be that if the 5-year secured gold notes shall

Readjustment Plan.—The stockholders on Oct. 3 1923 approved a plan for the readjustment of the debt and capitalization of the corporation. The plan in brief provided as follows:

The capital stock was reclassified so as to consist of $10,000,000 of prior preference cumulative 7% preferred stock and 450,000 shares of common stock, of no par value.

Holders of the old preferred stock received 1½ shares of new common stock of no par value for each share of preferred stock held, in lieu of the share so held, and of the accumulated dividends thereon. Holders of common stock received one share of new stock of no par value for each six shares of old common stock.

A new issue of $10,000,000 of prior preference stock was underwritten at 90, carrying with it for each share of prior preference stock so underwritten 2¼ shares of the new non-par value common stock. This prior preference stock, together with the accompanying common stock, was offered pro rata to the stockholders on identically the same terms as the banks had underwritten it.

Accordingly, rights were issued to the old preferred stockholders, entitling each preferred stockholder to subscribe for his proportionate share of the $10,000,000 prior preference stock, together with the 225,000 shares of common stock.

Under the plan the maturity of the bonds was extended from May 1 1932 to May 1 1942, the annual sinking fund payments postponed until May 1 1929, unless a dividend is paid on common stock (see V. 117, p. 1241), and the mortgage closed at $10,000,000, leaving in the treasury of the company $1,771,700 of bonds available for future corporate purposes. (Compare V. 117, p. 1241, 1669, 1783.)

DIVIDENDS.—An initial quar. div. of 1¾% on the prior pref. stock was paid March 1 1926; same amount paid June 1 1926. Accumulated dividends on this issue total 14%.

INTERNATIONAL HARVESTER CO.—Originally incorporated in N. J. on Aug. 12 1902 and acquired five concerns manufacturing agricultural machines: Deering Harvester Co., McCormick Harvesting Machine Co., &c. Also has timber lands, coal, ore, blast furnace and steel properties. See full description of plants, organization, &c., in Oct. 1918, V 107, p. 1574, 1575; V 108, p. 2038; V. 85, p. 104. Canadian Co., V. 108, p. 385. In 1919 acquired Chattanooga Plow Co. and Parlin & Orendorff Co. of Canton, Ill. V 108, p. 2437. In June 1920 acquired the Richmond (Ind.) plant of the American Seeding Machine Co., V. 110, p. 2662. The International Harvester Co. of Argentina (a subsidiary) was incorporated in Delaware Sept. 29 1924 with a stated capital of $5,000,000.

Plants are located at Chicago, Ill.; Milwaukee, Wis.; Akron, Ohio; Auburn N. Y.; Chattanooga, Tenn.; Ft. Wayne, Ind.; Canton, Ill.; New Orleans, La.; Richmond, Ind.; Rock Falls, Ill.; St. Paul, Minn.; Springfield, O.; Chatham, Ont.; Hamilton, Ont.; Croix, France; Neuss, Germany, and Norrkoping, Sweden. Manufactures binders, reapers, harvester threshers, mowers, rakes, hay stakers, corn machines, ensilage cutters, potato diggers, culti-packers, engines, cream separators, tractors, commercial cars, motor trucks, tillage implements, plows, cane mills, evaporators and kettles, listers, beet pullers, cultivators, corn planters, seeding machines, &c.

The U. S. Govt. through Attorney-General Daugherty on July 17 1923 filed a petition in the Federal District Court at St. Paul, Minn., demanding that the International Harvester Co. be separated into three independent corporations, with different stockholders, owners and officials, as suggested by the Federal Trade Commission in its report to the U. S. Senate in 1920 (V. 111, p. 1088).

The action was taken, the Att'y-Gen. stated in his petition, because the original decree dissolving the Harvester company which was entered Nov. 2 1918 (V 107, p. 608, 699) was inadequate to achieve its purpose, viz. "To restore competitive conditions in the United States in the inter-State business in harvesting machines and other agricultural implements."

The Att'y-Gen. asks the Court to decree that the company is "still a combination in restraint of inter-State trade and commerce, and still is monopolizing and attempting to monopolize said trade and commerce in violation of the Sherman Anti-Trust Law, and contrary to several opinions, orders and decrees of this Court." Compare V. 117, p. 282, 1561; V. 118, p. 1672; V. 119, p. 1741.

The Government on Oct. 23 1924 filed in the Federal Court at St. Paul a brief in the foregoing proceedings asking that the consent decree of 1918 be reversed or "effective dissolution" ordered. Compare V. 119, p. 1962.

Holding that the decision of 1918, divesting the company of three of its manufacturing lines, had proved effective, a special Federal Court of Equity at St. Paul, Minn., May 19 1925, denied the Government's petition for supplemental provisions to that decree. The Government, it is stated, will appeal from the decision. Compare V. 120, p. 2689.

STOCK.—Rights of stock, see application to list. V. 107, p. 1574.

The stockholders on July 29 1920 ratified the proposal increasing the authorized Pref. stock from $60,000,000 to $100,000,000 and the Common stock from $80,000,000 to $130,000,000. The plan provided: (a) that $20,000,000 of the new Common and $40,000,000 of the Pref. stock be set aside for employees under the stock ownership and profit-sharing plan; (b) that $10,000,000 of the new Common will be used for the payment of 12½% stock dividend on the Common and (c) the balance, $20,000,000, will be available for the payment of 2% semi-annual stock dividends on the Common stock, the same to be declared on the first days of Jan. and July of each year if the directors so decide. V 111, p. 498, 697.

DIVIDENDS.—Regular dividends at rate of 7% per annum were paid on the pref. stocks of the International Harvester Co. of N. J and Int. Harvester Corp. Dividends at rate of 5% per annum were paid on Inter. Harvester Co. of N. J. common stock from 1913 to 1916; 7% in 1917 (5% and 2% extra), 1¼% on Jan. 15 1918 and two dividends of 1¾% each on April 15 and July 15 1918, respectively. No dividends had been paid on the common stock of the Inter. Harvester Corp. since July 15 1914 owing to European war.

The consolidated company paid its initial dividend on common stock 1½% Oct. 25 1918 Jan. 1919 to April 1920, 1½% quar. July 1920, 1¾%; Sept. 1920, 12½% in com. stock; Oct. 1920 1¾%; Jan. 1921 1¾% and 2% in com. stock; April 1921, 1¾%; July 1921, 1¾% in cash and 2% in stock (V. 112, p. 2418); Oct. 1921, 1¾%; Jan. 1922, 1¾% in cash and 2% in common stock; Apr. 1922, 1¾%; July 1922, 1¾% in cash and 2% in common stock; Oct. 1922, 1¾%; Jan. 1923, 1¾% in cash and 2% in common stock; April 1923 to Jan. 1926 paid 1¾% quar. in cash; April and July 1926 paid 1½% quar. in cash.

In Oct. 1916 the company's financial position having been vastly improved owing to the war, a reorganization was effected without foreclosure per plan in V. 103, p. 582, 668, 1214, 1985, the funded debt of the International Co. being reduced by $30,729,000 and its direct interest charges from $3,248,330 as of Dec. 31 1914 to $2,369,820. INTERNATIONAL PAPER CO.—Company, organized in 1898, is the largest manufacturer of paper in the world.

The stockholders on March 24 1925 ratified a contract between the company and *Canadian International Paper, Ltd.*, which provided among other things for the acquisition by the company of all or substantially all of the capital stock and other securities of Canadian International Paper, Ltd., and the issue and exchange therefor of $5,000,000 of Com. stock, $5,370,000 of Cumul. 7% Pref. stock, and not less than $6,912,250 of new 6% 30-Year Sinking Fund Gold bonds of the company and the further payment of a large sum in cash.

Through the acquisition of the securities of the Canadian International Paper, Ltd., the company acquired indirectly all, or substantially all, of the properties formerly owned by the Riordon Co., Ltd., of Canada, purchased at a foreclosure and liquidation sale of the properties of the Riordon Co., Ltd., held in Montreal, Canada, on Sept. 8 1924, by the committee representing holders of 20-Year Sinking Fund 1st Mtge. & Ref. Gold bonds of the Riordon Co., Ltd., and by the committee representing holders of 10-Year 6% Gen. Mtge. Sinking Fund Gold bonds of the Riordon Pulp & Paper Co., Ltd.

Company also controls Continental Paper & Bag Mills Corp. and Bastrop Pulp & Paper Co. V. 121, p. 847.

Mill Properties.—Company and wholly owned subsidiaries own 25 paper and pulp mills located in Maine, New Hampshire, Vermont, Massachusetts, New York, Louisiana and the Provinces of Quebec and Ontario, Can. These mills have a daily capacity of 1,800 tons of various classes of paper, which is being increased to approximately 2,200 tons.

The most important plant is the Three Rivers (Que.) mill, which has a daily capacity of 700 tons of newsprint. The Kipawa mill, a bleached sulphite plant for merly owned by Riordon Co., Ltd., is located in the Province of Quebec.

Including the above mills International Paper Co. and wholly owned subsidiaries own and operate 5 ground wood mills for the manufacture of mechanical pulp, 7 combination ground wood and paper mills, 7 combination ground wood, sulphite pulp and paper mills, one paper mill, one mill for the manufacture of kraft or sulphate pulp, one combination paper and soda pulp mill, one combination Kraft paper and Kraft pulp mill, and two bleached sulphite mills.

Work has begun on the construction of a four-machine newsprint mill of over 450 tons daily capacity on the Gatineau River in the Province of Quebec.

Timber Limits & Water Powers.—**Company and wholly owned subsidiaries will own in fee 1,604,000 acres of timber lands, stumpage rights covering 55,000 acres and Canadian Crown timber limit leases covering an additional 9,069,000 acres. The pulp wood on lands owned in fee is estimated to be in excess of 6,000,000 cords, while that on lands held under Canadian Crown leases is estimated to exceed 28,000,000 cords.**

Company with its wholly owned subsidiaries is also among the largest holders of developed and undeveloped water powers on the Continent. The developed water power sites have an installed capacity of 180,000 h.p., capable of being increased through further development and through the utilization of undeveloped sites to over 600,000 h.p. on a hydro-electric basis. Most of the company's mills are located adjacent to and utilize the output of the developed water powers and in addition certain powers have been electrically developed and their output is sold to public utility companies.

The *International Hydro-Electric Corp.*, a subsidiary, has been incorporated for the purpose of segregating the company's power properties from the manufacturing end of the business. V. 120, p. 2689.

STOCK.—The stockholders on Nov. 6 1925 voted to change the authorized common stock from 500,000 shares, par $100, to 750,000 shares of no par value, and to increase the authorized 7% pref. stock from $50,000,000 to $75,000,000, par $100. The old common stock was exchanged share for share for common stock of no par value.

In addition, the company offered additional shares of no par value common stock at $50 a share to common stockholders of record Nov. 9 1925. Payments may be made in installments as follows: $12 50 each on Nov. 30 1925, and on March 1, June 15 and Aug. 1 1926.

The holders of the 6% pref. stock have been given the privilege of exchanging their stock, share for share, for the new 7% pref. stock on payment of $10 per share.

KRUPP (FRIED.), LTD. (FRIED. KRUPP AKTIENGESELLSCHAFT), ESSEN, GERMANY.—HISTORY AND BUSINESS.—Fried. Krupp Aktiengesellschaft (Fried. Krupp, Ltd.) was organized in 1903 to continue the industrial enterprises theretofore conducted for nearly 100 years under the firm name of Fried. Krupp.

NOTES.—In Dec. 1924 Goldman, Sachs & Co., Kleinwort Sons & Co. (London), Lehman Brothers, White, Weld & Co., Hallgarten & Co., Halsey, Stuart & Co., Inc., and J. & W. Seligman & Co. sold at 99¼ and int. $10,000,000 7% 5-year merchandise secured gold dollar notes.

Description of Notes.—Dated Dec. 15 1924, due Dec. 15 1929. Notes will be the direct obligations of Fried. Krupp, Ltd. The notes will be in bearer form in denom. of $1,000 and $500 and will bear int. payable J. & D. at the rate of 7% per annum, such interest to be represented by coupons. Principal and int., and premium, if any, will be payable at the New York office of Goldman, Sachs & Co., fiscal agents for the loan, in U. S. gold coin of the present standard of weight and fineness. Company covenants that net interest receivable from it by the holders of these notes shall not fall below 7% per annum, and that net payments by way of principal and sinking fund shall not fall below the amounts specified, by reason of any German taxes, present or future, which the company may be required or permitted to deduct or withhold. The notes will be issued pursuant to the terms of an agreement with the National Bank of Commerce in New York, defining the obligations of the company, and an agreement with the Dresdner Bank, Germany, as trustee of pledged assets.

The company will covenant to retire $750,000 of notes on or before Dec. 15 in each of the years 1925 to 1928, incl. To the extent that the company shall not purchase such notes at not to exceed 102 and int., notes will be called for redemption at 102 and int., all as provided in the trust agreements. Except as redeemed for this purpose, the notes may be redeemed only as a whole on any interest date at 102 and int. and on three months' prior notice. Notes not retired nor redeemed as above are payable at par on Dec. 15 1929.

Security.—The notes will be secured by a direct and exclusive first charge upon merchandise and raw material in salable form of a value at cost or market, whichever is lower, of at least 150% of the amount of the outstanding notes, all as defined in the trust agreements pursuant to which the notes are issued. Company will covenant to maintain at all times this ratio between the pledged security and the amount of outstanding notes. The pledge of assets to secure the notes will be made in favor of the Dresdner Bank, as trustee of pledged assets.

Relation to "Dawes Plan."—The obligations of the company with respect to the payment of reparation ("Dawes Plan") will take the form of a requirement that the company pay annually an amount not exceeding 6% upon a capital sum which has not yet been definitely determined but which in all probability will not exceed 30,000,000 gold marks, or about $7,200,000. No payment whatever is required for the first year ending Aug. 31 1925. For the second year the rate is 2½%; for the third year, 5%. For the fourth year, it attains 6% whereof 1% is as amortization of principal. As there is no provision for accelerating the maturity of the capital sum, the average annual payment required of the company for account of reparation during the life of these notes would thus not exceed $306,000. The burden of the company's liability for reparation will, furthermore, be considerably reduced, as, under a special German law, part of the annual payments in respect of industrial reparation bonds will be refunded to the obligors of such bonds by branches of German industry, banking and commerce which under the "Dawes Plan" do not themselves assume a direct responsibility for reparation payments. The liability of the company for reparation will be secured by a charge in the nature of a first mortgage upon the fixed assets of the company, but such charge does not extend to assets of the character to be pledged as security for these notes.

Neither German law nor any international engagements assumed by the German Government involve any restrictions upon the acquisition by the company of the foreign exchange requisite to permit the company to meet the external obligations evidenced by these notes.—(V. 121, p. 3012.)

ROGERS-BROWN IRON CO.—(V. 122, p. 1466.)

ROYAL DUTCH CO.—ORGANIZATION.—Incorp. in The Hague, Holland, in 1890, with a capital of 1,300,000 florins ($522,600). Through its subsidiaries it is now the largest international producer and distributor of mineral oil and its by-products of Europe. V. 107, p. 2243. Started as a local enterprise of the Dutch East Indies. After 1900 developed rapidly. In 1902 entered the international field and in conjunction with the "Shell" Transport & Trading Co. of London (which see) and the de Rothschild (Paris) group, founded the Asiatic Petroleum Co. as a distributing concern. Subsequently absorbed the principal other oil producing enterprises in Dutch East Indies and amalgamated its interests with those of the "Shell," the combined assets of both being turned over to two new companies, viz., the "Bataafsche Petroleum Co. and the Anglo-Saxon Petroleum Co. The "Royal Dutch" holds 60% in these two concerns (the "Shell" 40%); also 12½% of the outstanding ordinary "Shell" shares. The two interests so combined have since then acquired exclusive or controlling interests in important oil fields in Rumania, Russia, Egypt, the United States (Oklahoma and California), Panama, Venezuela and Mexico.

On Dec. 31 1924 the company owned the following shares: Fl. 180,000,000 Bataafsche Petroleum Maatschappij; Fl. 115,200,000 Anglo-Saxon Petroleum Co., Ltd.; Fl. 25,200,000 Asiatic Petr. Cy., Ltd.; Fl. 209,739,358 Shell Union Oil Corp. and Asiatic Petr. Cy. (Del.), Ltd.; Fl. 22,220,352 Soc. "Astra Romana"; Fl. 9,705,862 Mexican Eagle Oil Co.; participation in various companies, Fl. 90,997,640.

In Nov. 1921, a plan was formulated for the merger of the company's "American interests" with the Union Oil Co. of Dela., for details of which see statement of Shell Union Oil Corp. below.

SHARES.—The com. shares have a par value of Fl.1,000 (say $402) each, but the company issues sub-shares of Fl.100 (say $40 20) each. For trading purposes here, Dutch shares of 100 Florin par value were deposited with the Equitable Trust Co., N. Y., against which were issued three certificates for each share deposited. This gives a nominal par value of $13.40 to each "American certificate."

SHERWIN-WILLIAMS CO. (THE).—(V. 121, p. 2416.)

SIEMENS & HALSKE (A. G.) SIEMENS SCHUCKERTWERKE (G. m. b. H.).—The business of the Siemens & Halske A. G. was founded, in 1847 by Werner von Siemens. The Siemens group covers the whole field of electrical manufacture, and is subdivided into several companies. The Siemens & Halske A. G. is the parent organization. Its scope of business includes the automatic and manual telephone, the telegraph, the signalling and electro-medical apparatus and all kinds of radio equipment. The principal associated company is the Siemens Schuckertwerke B.m.b.H., over 50% of whose stock is owned by Siemens & Halske A. G., the balance of the stock being owned by the closely allied Elektrizitaets Aktiengesellschaft, formerly Schuckert & Co. The Siemens Schuckertwerke G.m.b.H. manufactures all kinds of electrical machinery and appliances for lighting, power, traction and electro-chemical purposes, also wires and cables. The Siemens & Halske A. G. also owns 40% of the stock of the Osram Co., a German incandescent lamp factory, employing about 20,000 hands. The Siemens Schuckertwerke G.m.b.H. owns 67% of the stock of the Austrian Siemens Schuckertwerke A. G. with works at Vienna, at Pressburg and Mueglitz in Czechoslovakia, and at Budapest. There are a number of other subsidiary companies for the manufacture of electric carbons, porcelain, glass, paper and other material required for use in the companies' principal products.

The concern has outside of Germany and Austria 82 branch offices situated in most of the countries of the world. About 40% of its production is exported. The Siemens group consists of 26 factories situated at various points in Germany. The main plants are located at Siemensstadt, near Berlin, and in Nuremberg.

BONDS.—In Jan. 1925, Dillon, Read & Co., Marshall Field, Glore, Ward & Co., New York; Union Trust Co., Cleveland, and Central Trust Co. of Illinois, Chicago, sold $10,000,000 bonds as follows: $5,000,000 3-year 7% secured sinking fund gold bonds, due Jan. 1 1928, at 99 and int., to yield 7.37%; $5,000,000 10-year 7% secured sinking fund gold bonds, due Jan. 1 1935, at 96½ and int., minimum yield 7.64%. $1,500,000 of these bonds were purchased from the bankers by Mendelssohn & Co. and Pierson & Co., both of Amsterdam, Holland, for offering in that market.

Dated Jan. 1 1925. Interest payable J. & J. Coupon gold bonds in denoms. of $1,000 and $500, registerable as to principal. Principal, interest and sinking fund payable at the office of Dillon, Read & Co., New York, in U. S. gold coin of the present standard of weight and fineness, without deduction for any German taxes, present or future. Central Union Trust Co. of New York, trustee; Deutsche Kreditsicherung A. G., Berlin, German agent of trustee.

Security.—The bonds are a joint and several obligation of the two companies, the Siemens & Halske A. G. and the Siemens Schuckertwerke G.m.b.H.

These bonds will be secured by the actual ownership of salable merchandise, title to which will be held by a trustee under the provisions of the German law for the benefit of the bondholder. The method of taking title to the merchandise and of handling the security during the life of the bonds will be the same as that used by the Netherlands Government to its credit to German industry. In 1920 the Netherlands Government arranged to advance to German industry as a whole 140,000,000 guilders (about $56,000,000) for a period of ten years. The Netherlands Government insisted that these credits should be secured as much as possible and in such a way that the total amount of the credit should always be covered by merchandise having a current market value at all times substantially in excess of the amount borrowed. Under the German laws the actual ownership of the commodities passes to the trustee, who is in a position to dispose of them without reference to the company, if and when foreclosure of the mortgage is called for. The Netherlands Government thus has ownership through the medium of a trustee of quick assets in the form of salable merchandise the value of which exceeds at all times the amount of the credit granted.

For the purpose of handling these government credits there was organized in Germany the "Treuhandverwaltung Fuer das Deutsch-Niederlaendische Finanzabkommen" (Trustee Administration for the German-Dutch Finance Agreement) which passes on and grants the individual credits. For the purpose of handling the merchandise there was also organized by most prominent members of German industry the "Deutsche Kreditsicherumg A. G., Berlin" (German Securities Trustee Co., Berlin) having for its purpose the safeguarding of foreign financing for the lender. The trustee company has a thorough and elaborate system of segregating the commodities held as collateral security and permanently controls the maintenance of the necessary values. It also supervises the insurance of the merchandise and satisfies itself as to the adequacy thereof. The trustee thus safeguards the above-mentioned Netherlands Government credit, and will in the same way and to the same extent safeguard the collateral security given for this loan.

The Siemens companies will transfer to the German Securities Trustee Co., as the German agent of the Central Union Trust Co., New York, trustee, stocks of salable merchandise, such as brass, copper, aluminum, zinc, steel, iron plates, dynamo plates, lumber, oils and rubber, as well as suitable half-finished and finished goods. The value of these stocks, which under the German law will be actually owned by the trustee's German agent and which will be kept open to permanent inspection by the trustee's German agent, will at all times exceed the amount of bonds outstanding by at least 66 2-3%. The merchandise will be constantly revalued by the trustee's German agent at the lowest market prices prevailing. The companies will obligate themselves to insure the stocks serving as collateral security against all risks in accordance with the requirements of the trustee's German agent.

Sinking Fund.—A sinking fund is provided for the 3-year bonds sufficient to retire $250,000 each six months through purchase at prices not exceeding par and interest if obtainable, any unexpended balance to revert semi-annually to the companies. The 3-year bonds are callable as a whole on any interest date, at the option of the companies, at 101 and interest.

A sinking fund is provided for the 10-year bonds sufficient to retire through call by lot $132,000 of bonds each six months at 102 and interest, the balance of less than 50% of the issue to mature at 102 and interest. The 10-year bonds are callable as a whole, at the option of the companies, on any interest date, at 104 and interest on July 1 1925, the call price being reduced by ½ of 1% each 12 months until July 1 1929, from which date until maturity the call price remains 10° and interest.

In Aug. 1918 the South American and Australian properties were organized as Compania Swift Internacional Ltd. under the laws of the Argentine Republic, with a stock of $22,500,000 Argentine gold, divided into 1,500,000 shares of $15 each, all one class, fully paid and non-assessable, all outstanding. Each stockholder of Swift & Co. of record Aug. 31 1918 was given until Oct. 15 the opportunity of exchanging 15% of his holdings in Swift & Co. at par for equivalent amount of capital stock in International at par, evidenced by the First Trust of Chicago certificates of deposit. The company by thus exchanging $22,500,000 of stocks in foreign subsidiaries for equal amount of stock of Swift & Co. obtained the latter as a quick asset, since sold (see below) for requirements of business. V. 107, p. 701, 910.

The aforesaid exchange in Oct. 1918 had reduced the outstanding capital stock to $127,500,000 when the holders of record Oct. 26 were offered until and incl. Nov. 30 the further option of exchanging one-tenth of their ($100) shares for an equal par value in the $10 shares of the $12,750,000 stock of Libby, McNeill & Libby (canners), held in Swift & Co.'s treasury. This further reduced the stock to about $114,750,000. The $35,250,000 treasury stock was offered at par to shareholders and employees in May 1919. V. 108, p. 2130, 688.

WELLS FARGO & CO. (EXPRESS).—Incorp. in Colorado Feb. 5 1866. On June 30 1917 operated on 84,751 miles of railroad in the U. S. and Mexico, 33,466 miles of stage, inland and ocean steamer routes; total, 118,218 miles. Also, jointly with National Rys. of Mexico, controls Wells, Fargo & Co. S. A. (Sociedad Mexicana). V. 91, p. 1451.

The loss of their contracts with the railroads because of Government control and operation, and inability to effect an arrangement with the Railroad Administration for continuing their individual operations culminated in an enforced retirement from domestic express operations and the transfer of the property of this company and the other leading express companies used in the express business to the American Railway Express Co. on June 30 1918 at least for the duration of the war. In consideration for the properties the several companies received stock in the Am. Ry. Exp. Co. (the Wells Fargo, $10,500,000 thereof) but no guaranty of net return. In Dec. 1920 the I.-S. C. Commission approved the permanent consolidation of the several companies into the American Railway Express Co. V. 111, p. 2532; V. 108, p. 2020, 2124. See American Railway Express Co. above for dividends paid by that company.

American Express Co. acquires control—see that company above.

CAPITAL STOCK.—The stockholders on Feb. 6 1923 voted to reduce the capital stock from $24,000,000 to $12,000,000 by reducing the par value from $100 to $50, the reduction to be effected by payment in cash of $50 a share, payable as soon as possible after March 5. Payment, it was stated, would be made by disposing of Govt. bonds. This return of capital was the first step toward the ultimate liquidation of the company. See also V. 116, p. 526.

The directors on Aug. 7 1924 authorized the reduction of capital stock from $12,000,000 (par $50) to $240,000 (par $1). The directors also declared a cash dividend of $8 per share in liquidation out of capital assets and a dividend of 1-30 of a share of American Ry. Express Co. stock of $100 par, for each share of Wells, Fargo stock, both payable June 10 1925 On June 1 1926 paid a cash dividend of $2 a share in liquidation.

Voting trustees are: F. W. Allen, Samuel F. Pryor, Theodore H. Wickwire and Richard B. Young.

New Money—Subscription by Stockholders of Old Company—Subscription Rights.—In order to provide $2,515,000 additional cash capital, $2,515,000 5-year 7% class "A" notes and 440,125 shares of common stock (represented by v.t.c.) of the new company were offered to stockholders of the old company on the following terms:

Each pref. stockholder of the old company who assented to the plan had the right to subscribe $20 on account of each share of pref. stock of the old company which he held, for which he received $20 principal amount of 5-year 7% class "A" notes and 3½ shares of common stock (represented by v.t.c.) of the new company.

Each common stockholder of the old company who assented to the plan had the right to subscribe $2 25 on account of each share of common stock of the old company, which he held, for which he received $2 25 principal amount of 5-year 7% class "A" notes and 63-160 of a share of common stock (represented by v.t.c.) of the new co. (i. e., on the basis of $20 principal amount of 5-year 7% class "A" notes and 3½ shares of common stock, represented by v.t.c., for each $20 so paid).

Adjustment with Creditor Banks.—Creditor banks which held $3,639,400 of overdue notes of the old company accepted in exchange therefor an equal face amount of 5-year 6% class "B" notes of the new company.

Description of 5-Year Class "A" and Class "B" Notes.—The 5-year 7% class "A" notes and 5-year 6% class "B" notes shall be issued under a trust indenture or trust indentures, and the notes of both or either classes may be issued in registered or coupon form or both, and in such denominations as may be hereafter determined. Class "A" notes shall be callable on any int. date, all or part, on 30 days' notice at 102 and int.; at or before 2 years from their date at 101 and int. for the next year, and at par and int. thereaftr. Class "B" notes shall be callable on any int. date, all or part, on 30 days' notice at the same prices as the class "A" notes; but class "B" notes shall not be so called while any of the class "A" notes are outstanding unless such class "A" notes shall previously have been called for redemption or unles such class "A" notes are called for redemption at the same time. Class "B" notes shall be convertible into common stock of the new co. (or v.t.c. therefor) on the basis of 40 shares of com. stock of new co. for each $1,000 of notes.

The new bonds shall be given an additional right not contained in the old 1st mtge. bonds, viz., the right to convert the same into common stock of the new co. (or v.t.c. therefor) on the basis of 40 shares of stock for each $1,000 of bonds. New bonds shall be red. in any year at the same premiums at which the present 1st mtge. bonds are red. for such year.

Reorganization Plan Dated April 2 1925 (V. 120, p. 2025.)

It was announced April 2 1925 that the four committees representing, respectively, the bank debt, convertible bonds and preferred and common stocks, had agreed upon a plan of reorganization.

The plan contemplates that the properties of the company will be acquired by a new company through a sale under decrees of the Federal courts, and that 7% pref. stock, no par value convertible Class A stock and no par value common stock of the new company will be delivered in exchange for the debt to be adjusted.

The new 7% pref. stock (auth., $50,000,000, if of par value, consisting of 500,000 shares (par $100 each), or of 500,000 shares, if without par value) will be preferred as to both assets and earnings, will be cumulative after two years, will be redeemable at $110 per share and accrued dividends and entitled to receive the same amount per share on liquidation.

The new convertible Class A stock will be preferred as to dividends over the new common stock in the amount of $5 per share per annum, which will be cumulative after five years, and preferred over the common stock as to assets in the amount of $75 per share and accrued dividends in the case of liquidation. It will be redeemable at $75 per share and accrued dividends and convertible into new common stock share for share.

Class A stock shall be an authorized issue of shares without par value in an amount to be determined by the reorganization committee, not exceeding 500,000 shares. Common stock of the new company shall be an authorized issue of shares without par value in an amount to be determined by the reorganization committee, not exceeding 1,500,000 shares.

All of the three classes of stocks of the new company will have equal voting rights.

New Notes.—The only financing provided for in the plan is the sale of $2,500,000 of 5-year 6% gold notes of the new company. These notes shall be redeemable in whole at any time or in part from time to time upon at least 30 days' notice at par and interest plus a premium of ½% for each year or fraction thereof from the redemption date to their maturity date.

charges for transportation of property than would have accrued if no reductions had been made below the basis established on Aug. 26 1920. Of this it has been roughly estimated that more than $175,000,000, or about 22% of the total, represents decrease in freight charges on livestock and the products of agriculture. The latter constitute approximately 15% of the tonnage.

In the attached statement, marked "Appendix 1" [given below] will be found a list of important general rate reductions between Oct. 26 1921 and July 1 1922.

The attached statement marked "Appendix 2" [given below] shows representative rates now in effect on lumber, base bullion, packing-house products sugar and iron ore as compared with the rates in effect on Aug. 26 1920. The percentage relationship of the present rates to the Aug. 26 1920 rates is also shown.

APPENDIX 1.

Important General Rate Reductions Between Oct. 26 1921 and July 1 1922, Inclusive.

1. A 10% reduction in rates on a products of farm, garden, orchard and ranch—other than grain, hay and their products, and livestock—which became effective about Jan. 1 1922.

2. A reduction of 10% in rates on livestock between any two points, both of which are located west of the Indiana-Illinois State line or the Mississippi River, where such rates wer 50 cents per 100 pounds or less. This reduction became effective about Jan. 1 1922.

3. Reductions in rates on grain, hay and their products made by the order of the Commission effective about Jan. 21, between any two points located west of Lake Michigan or the Indiana-Illinois State line and east of the Rocky Mountains; on wheat, hay, and their products, such as flour, cornmeal, bran, alfalfa meal, &c., 13%; on corn, oats, barley, and otherso-called coarse grains, and their products, 21%.

4. Reductions ranging from 1 to 15% on forest products from Southern Southeastern and Southwestern producing territory to points in Eastern Trunk Line and Central territories, including points in Illinois and Wisconsin. These reductions became effective about May 10 1922 and were the result of the Commission's opinion in the Southern Hardwood Traffic Association case, Docket No. 12995.

5. Material reductions in rates on coal, both bituminous and anthracite, from Lake Superior docks to points in Minnesota, and also in South Dakota on and east of the Missouri River. These reductions were made effective about April 1 1921, and were the result of the Commission's decision in the Holmes & Hallowell case, Docket No. 6194.

6. General reductions in rates under the Commission's opinion in Reduced Rates, 1922, Docket No. 13293. These reductions became effective July 1 1922 and applied to all classes and commodities. The general effect was to make a reduction of 10% in the rates of June 30 1922 except in cases where prior thereto and subsequent to the general increase of Aug. 26 1920 reductions had been made by that per cent or more. Generally speaking, no rates were to be higher than 90% of the Aug. 26 1920 rates and where reductions had been made but not to that basis, such further reductions were required to be made to bring the rates to that level.

The Inter-State Commerce Commission on July 17 1924 definitely refused further rate reductions on grain, grain products and hay, sought by 10 States of the Mississippi and Missouri Valley cereal growing region under the leadership of the State of Kansas. The Commission held that the financial status of the carriers did not justify the step, while, in general, it held that the financial situation of the Western grain farmers was showing a slow improvement, relieving them of the necessity for the reduction. (V. 119, p. 288.)

Under the Hoch-Smith resolution passed by Congress on Jan. 30 1925, the Inter-State Commerce Commission was directed to make a thorough investigation of the rate structure of common carriers. A petition was filed late in April 1925 by the Western railroads for an increase in revenues in their territory. The petition was not in the usual form of a proposal for an increase in rates, and made no suggestion as to how the increased revenues should be provided, but asked that the Commission, "in pursuance of the powers invested in it and the duties imposed upon it by the Inter-State Commerce Act, after due investigation, issue the necessary order or orders which will result in yielding to the carriers operating in the Western district a net rate of return of not less than 5¾%." Based on the results for 1924, when the Western roads had a net railway operating income of $378,080,991, or 3.87%, on their property investment, it would require an increase in revenues of approximately $182,000,000 to bring the return up to the $560,000,000 that would mean a 5¾% return. As the freight revenues of the Western lines in 1924 were $1,655,000,000,000, this would be equivalent to a general advance in freight rates of about 11%. The petition shows that not only was the general advance in rates allowed by the Commission in 1920 insufficient to produce the fair return contemplated by the Act, but that reductions in freight rates made since have prevented them from realizing it as the result of increased traffic. This petition followed the statement which had been filed by the Western carriers of their views in relation to the Commission's general rate structure investigation under the Hoch-Smith resolution, in which statistics were presented to show that the present situation of the Western lines calls for advances in their rates, rather than reductions. It was signed by 66 roads, of which six—the Chicago Milwaukee & St. Paul, Chicago & Alton, Denver & Salt Lake, Minneapolis & St. Louis, San Antonio Uvalde & Gulf, and Trinity & Brazos Valley, are in the hands of receivers. (V. 120, p. 2500, 656; V. 119, p. 2969.)

On May 24 1925 the Western railroads, including the Northwest group, applied to the Inter-State Commerce Commission for permission to increase rates on a straight percentage basis. This increase would have the effect of a 10% or 11% advance in freight rates from the existing levels (see above). Subsequently, the receivers of the Chicago Milwaukee & St. Paul Ry. presented a plan devised by Mark W. Potter, former Inter-State Commerce Commissioner, and now a receiver for that property, calling for a 5% freight rate increase to all Western carriers, but providing for pooling of the additional revenues derived from the increase, and redistribution thereof in such a way as to provide, in effect, more than 5% for the so-called weaker roads, and less than 5% for the stronger systems. (See also table showing the application of the Potter plan to railroads operating in Western territory in V. 121, p. 36.) In August 1925 some of the Western carriers announced their willingness to accept an increase in rates of 5%, instead of the 11% previously sought (see V. 121, p. 802, 1310). Hearings were opened in Chicago on Sept. 8 1925. Briefs in support of the urgency for a 5% increase in freight rates were filed by the Western carriers with the Commission in March 1926 (V. 122, p. 1715). A supplemental brief in answer to arguments opposing the increase sought was filed on April 24 1926 (V. 122, p. 2449). Oral arguments are now being held before the Commission and an early decision is expected.

New England Roads Allowed a Higher Pro Rata.

Because of the relatively disadvantageous position of the New England group of roads, a readjustment of the basis for division of through rates was authorized by the Inter-State Commerce Commission on Feb. 14 1922, effective March 1 1922, by which the New England roads other than the Bangor & Aroostook were to receive an increase of about 15% in the amount coming to them from the division of revenue derived from most classes of traffic interchanged with the lines west of the Hudson River. (V. 114, p. 702, and V. 111, p. 1942; V. 112, p. 744, 987.) Compare remarks in Oldham merger plan, V. 113, p. 1950, 1951. In the suit brought in April 1922 against the Commission to prevent the carrying out of this increase as discriminatory, the United States Supreme Court on Feb. 19 1923 handed down a decision upholding the order of the Commission. (V. 114, p. 917, 1253.)

Cost to Government of Federal Control of Railroads $1,696,000,000.

According to the report of James C. Davis, Director-General of railroads, submitted to President Coolidge on Dec. 14 1925, the total cost to the Government of Federal control of the railroads (during 32 months), including operating losses during the period of Federal operation and the six months' guarantee period, after relinquishment of control and the payment of the deficit of the short lines, amounted to $1,696,000,000. In his report the Director-General, after detailing the taking over of the railroads on Dec. 31 1917, said in part:

When the property was returned to its owners, claims were presented by the carriers, represented largely by the items of unpaid compensation, undermaintenance of way and equipment, material and supplies and depreciation, in the sum of $1,014,402,446 72. The Railroad Administration set up claims against the railroads, largely for excess expenditures for maintenance, in the sum of $440,353,715 08.

Congress directed the President, through his agent, as soon as practicable to settle and adjust these and all other claims incident to Federal control. Every one of the claims of the carriers whose property was taken over has been adjusted. The creditor roads were paid $243,652,196 91. There was collected from the debtor roads $195,272,295 17. The balance paid by the Government was $48,379,901 74, or less than 5% of the claims as originally presented.

There are perhaps two outstanding features in the adjustment: It was made without litigation, and well within the appropriation originally made by Congress for this purpose.

The liquidation has involved the handling of large sums. As an outgrowth of Federal control the Government took definitive obligations of the railroads for advances, funding of additions and betterments, balance due on settlement, and the like, aggregating $629,241,250. Of this amount there has been collected, or disposed of at par, $495,705,450. This amount has been returned to the United States Treasury.

The Railroad Administration for a number of years has been returning large sums to the treasury. For the eleven months ended Nov. 30 1925 the receipts in excess of expenditures were $50,690,499. (V. 121, p. 3082.)

Changes in Railroad Wages.

On July 20 1920 the U. S. RR. Labor Board, acting under Transportation Act of 1920, granted wage increases to the 2,000,000 railway employees of the United States, retroactive to May 1 1920, which the Board estimated would add approximately $600,000,000 to the pay-roll, but which the Association of Railway Executives estimated at $625,921,085, or 21%, and which appears to have aggregated possibly $720,000,000. Increases aggregating about a billion had been demanded. See V. 111, p. 347 to 350, 459, 460; V. 110, p. 2252, 2254, 2624.

On July 1 1921, after careful investigation, the U. S. Labor Board permitted the railroads, aside from the so-called short lines (which are in a class by themselves), to make a wage decrease of about 12%, as against the aforesaid wage advance of May 1 1920. It was estimated that this would effect a saving in the yearly pay-rolls of the roads of $375,000,000. (Compare V. 112, p. 2143 to 2150, 2377; V. 113, p. 33.) While the decrease was duly put in effect, the question whether it should be accepted or should be opposed by a strike was referred by the leaders of the 16 railroad unions to their local organizations (V. 113, p. 149), which, it appears, were quite generally in favor of a strike, both to recover the lost wages and prevent further unfavorable changes in wage or labor conditions.

When, however, it came to the actual declaring of a strike only the four trainmen's brotherhoods and the switchmen's union were prepared to take this step in the face of a strongly adverse sentiment on the part of the public and the Federal Government, and even in the case of these unions, on a number of roads, notably the Pennsylvania Eastern Lines, the necessary 66 2-3% vote was lacking (V. 113, p. 1326, 1706, 1718, 1730 to 1738).

The strike was scheduled to begin in the various sections of the country Oct. 30 to Nov. 5 1921 (V. 113, p. 1735), but it was called off on Oct. 27 1921 after a hearing before the Labor Board, in view of the vote by the latter that it would not take up the matter of wage decreases until all the questions relating to national rules and regulations had been disposed of by it. (V. 113, p. 1849 to 1852, 1943.)

In 1921-22 the national rules were rewritten by the Labor Board on a somewhat more satisfactory basis for the shop crafts and maintenance of way men, clerks and station employees, signal men, supervisors, firemen and oilers, train dispatchers, railway express employees, &c., but not for the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railroad Conductors, Brotherhood of Railroad Trainmen and Switchmen's Union of North America. The efforts of the railroads to get these latter bodies to agree to a further wage reduction of about 10% and to submit to various changes in the rules failed in April 1922.

The rules as revised for the other unions in general add from one to two hours to the eight hours that must be worked at the regular pro rata rate before the punitive extra pay becomes operative.

Following a test suit brought by the Atchison Topeka & Santa Fe Ry., the Federal District Court at Chicago in April 1924 handed down a decision upholding the nine-hour day ruling of the I.-S. C. Commission for yardmasters. This order affected between 8,000 and 9,000 yardmasters on roads in all parts of the United States, who formerly worked 12 hours per day (V. 118, p. 2040).

Reductions in wages of shopmen, maintenance of way men, freight car men, signal men, clerks, &c., aggregating approximately $135,000,000 per annum, were announced by the United States Railroad Labor Board in May and June 1922, effective July 1 1922. V. 114, p. 2432, 2541, 2784.

Following the wage reduction, the shop craft organizations went on strike July 1 1922, and for three months thereafter the railroads of the country were seriously handicapped in their operations. V. 115, p. 139. On July 17 1922 about 8,000 stationary firemen, engineers and oilers also were called out. President Harding made strenuous efforts to get the strikers to return to work and held numerous conferences with representatives of the unions and with railway executives. But his proposals for the settlement of the strike of railway shopmen, though accepted Aug. 2 1922 by the employees, fell through, because the carriers rejected the recommendation that the men return to work with their former seniority and other rights unimpaired (V. 115, p. 611, 612). Later in the month, however, many of the roads made individual agreements with their men on the basis of the so-called Baltimore plan or other separate arrangements, and where this was not done the strikers in large numbers gradually drifted back, so that by the end of September 1922 the strike ceased to be much of a disturbing influence. V. 115, p. 2123, 1596, 1282, 1283. In February 1925, long after the strike had ceased of all influence, the shopmen's union declared the strike ended on all roads except the Pennsylvania and Long Island railroads.

A temporary injunction restraining the officials of the Federated Railway Shop Crafts from interfering in any way with the operation of the railroads was granted at Chicago Oct. 5 1922 by Federal District Judge James H. Wilkerson, and later was continued in force. This was an additional aid in breaking up the strike. (V. 115, p. 1495, 2123.) On May 1 1923 leaders of the strike of railroad shopmen abandoned their case in defense against this injunction and announced that their principal contentions in the case had been upheld. (V. 116, p. 2086.) A final decree making permanent the temporary injunction was entered July 12 1923 by Judge Wilkerson. The decree affected about 400,000 railroad employees and officers of the shop crafts concerned in the strike. (V. 117, p. 169.)

The threatened strike of 400,000 maintenance of way men had meanwhile been stayed, E. F. Grable, President of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, having reached an agreement with the Railroad Labor Board to withhold any strike order until the Board could arrange for a rehearing (V. 115, p. 139, 395). After the rehearing the Labor Board (Oct. 14 1922) granted the employees, represented by the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, an increase, effective Oct. 16 1922, of 2 cents an hour over the reduced schedule put in force on July 1 1922 (V. 115, p. 1790).

An increase totaling over $3,000,000, together with the eight hour day and time and-one-half for overtime, was granted to approximately 65,048 members (freight employees and common laborers) of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees, effective March 1 1923. V. 116, p. 898; V. 115, p. 2446, 2343.

The United States Railroad Labor Board on March 10 1923 refused to reopen the case under which 11,000 telegraphers on eleven Western roads suffered wage reductions (said to total $1,500,000 annually) in a decision handed down by the Board in December 1922 (V. 115, p. 2755), and which became effective Jan. 1 1923. (V. 116, p. 1138.) Increases in wages affecting about 5,500 telegraphers and station agents and aggregating approximately $364,432, were, however, granted by the Board in Nov. 1923 on a number of roads. (V. 117. p. 2400.)

On April 24 1923 the Brotherhood of Maintenance of Way employees, &c., filed a request with the Labor Board for a return to wages in effect prior to July 1 1921 (V. 116, p. 1856). The petition affected 28 railroads and 175,000 employees. On June 30 1923 the Board remanded the case back to the roads for individual settlements. Failing this, the Board on Dec. 3 1923 awarded a wage increase of 1 to 2 cents an hour, retroactive to June 1 1923, to approximately 22,612 maintenance of way men of the Boston & Maine RR., the Fort Smith & Western Ry., the Louisville & Nashville RR., the Louisville Henderson & St. Louis Ry., the Nashville Chattanooga & St. Louis Ry., the San Antonio Uvalde & Gulf RR., and the Trinity & Brazos Valley Ry. These roads had failed to reach individual settlements with their men. A number of other carriers involved in the original controversy had settled. (V. 117, p. 2508; V. 116, p. 1969.)

In Oct. 1923 the firemen, trainmen, conductors and engineers, represented by the Big Four Brotherhoods, asked for wage increases averaging approximately 12½%. This increase, it was computed, would cost the railroads about $100,000,000 additional a year and bring wages up to the schedules in effect as of May 1 1920. (V. 117, p. 2848, 1740, 1524, 750, 636.)

The first settlement growing out of negotiations with the railroad brotherhoods over wage increases asked in Oct. 1923 was announced by the New York Central RR. on Jan. 22 1924, when the road made known that it had reached an agreement with engineers and firemen on practically all divisions and subsidiary lines providing for an increase in wages of approximately 5% and changes in certain working conditions. The agreement, which was to run for one year, affected, it was estimated, about 15,000 men, including engineers, firemen, hostlers and hostler's helpers. This settlement was then used by the labor organizations as a basis for attempted agreements on all American roads. The increase, when applied to the 160,000 engineers and firemen employed by all Class I. railroads, would cost, it was figured, about $25,000,000. (V. 118, p. 394, 627.) An increase of approximately 5%, affecting 44 Western railroads and about 50 subsidiaries, was granted on April 8 1924 to approximately 80,000 conductors and trainmen. (V. 118, p. 2003.)

The U. S. Railroad Labor Board handed down a decision on Oct. 21 1923 awarding increases of 1 to 2 cents an hour to clerks, station forces, dock, warehouse and platform freight handlers and similar employees of 65 carriers. The opinion found that 29 carriers and employees of the class involved had negotiated agreements increasing pay for some of the groups, but that there was no uniformity in the agreements. The employees affected by the decision were represented by the Brotherhood of Railway and Steamship Clerks, freight handlers, express and station employees, by the Brotherhood of Railway Station Employees, and by the International Longshoremen's Association. (V. 117, p. 1849.) This decision followed close upon another denying an increase to signalmen. The wage increases asked by signalmen on 45 carriers ranged from 13 to 23 cents an hour. This class of employee had been granted an increase of 13 cents an hour by decision No. 2 in July 1920. On July 1 1921 their wages were cut from 6 to 8 cents an hour and a further decrease in July 1922 of from 5 to 6 cents an hour brought the rates of pay to approximately what they were under the Federal Administration prior to decision No. 2. The Board decided in denying the request that the cost of living and other elements entering into consideration of the case had not changed sufficiently since the last decision of 1922 to justify an increase (V. 117, p. 1741).

Since March 1 1923 wage increases of one kind or another have been made by many individual roads to their employees. The Pennsylvania RR. on March 12 1924 increased wages of about 22,000 engineers, firemen, hostlers and hostler helpers by 5%, retroactive to Jan. 16 1924. the Pennsylvania RR. also granted a wage increase of about 6% to 32,000 conductors, baggagemen, brakemen and switch tenders. Early in 1924 an increase of about 5% was granted to engineers and firemen of the following roads: The Pittsburgh & West Virginia Ry., the New York Chicago & St. Louis Ry., the Erie RR., the Chesapeake & Ohio Ry. and the New York New Haven & Hartford RR.; this increase followed close upon the announcement of the New York Central RR. of similar wage adjustments, referred to further above. Increases of 5% were also granted during 1924 to conductors and motormen of a number of roads, including the New York New Haven & Hartford RR., the Louisville & Nashville RR., the Lehigh Valley RR. and the Southern Ry. A wage increase, ranging from 30 to 36 cents a day to conductors, switchmen and brakemen, was granted on June 2 1924 by the Chesapeake & Ohio Ry. Co., retroactive to May 1. This action was in line with an increase given to engineers and firemen. Wage increases amounting to 6½% for all yardmen and trainmen, retroactive to May 1 1924, were granted by the Texas & Pacific Ry. These illustrations might be multiplied almost indefinitely.

The United States Railroad Labor Board, in a decision on Jan. 19 1925, granted wage increases of from 1 to 2 cents an hour, involving an annual expenditure of approximately $3,700,000, to some 87,000 employees of forty-three railroads. The classes affected were clerks, freight handlers, express and station employees, janitors, elevator operators, truckers, stevedores and storers (V. 120, p. 414). This wage increase followed an advance of 5% granted by the Railroad Labor Board at the beginning of December 1924, to more than 75,000 members of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen. Under a decision of the United States Railroad Labor Board, 2,528 conductors and trainmen were awarded wage increases totaling $283,183 a year, effective from Feb. 1 1925. This latter increase, it was stated, affected 17 railroads, which were not included under the agreement reached through the efforts of the train service brotherhoods in 1923-24. The award was understood to be on the basis of the New York Central's 5% increase. The railroads affected included the Denver & Rio Grande Western System and its subsidiary, the Rio Grande Southern, the Ann Arbor Railroad Co. and the Bangor & Aroostook Railroad Co. (V. 120, p. 661.)

General managers of all the principal railroads of the country were served on Feb. 1 1926 with wage demands by representatives of the Brotherhood of Railway Trainmen and the Order of Railway Conductors (V. 122, p. 705) early in March 1926. Eastern, Western and Southern roads declined to accede to the demand for increased wages. Committees were appointed by the Eastern and Western railroad executives to represent them in the wage conferences. The total increases demanded by the trainmen and conductors amount to between $1 and $1 64 per day, depending on the class of service and the class of employee. This represents an increase of about 20% over the existing wages received by the trainmen and conductors. V. 122, p. 1506, 1559. It was reported on Feb. 20 1926 that the Norfolk & Western RR. granted its shopmen a wage increase of 2 cents per hour. This company was said to be the only road which granted the increase demanded.

The Pennsylvania Railroad and the U. S. Railroad Labor Board.

The United States Railroad Labor Board asserted in an opinion on June 27 1923 that the Pennsylvania RR. system (which had ignored the decision of the Board in refusing to acknowledge the elected representatives of the clerks' organization) "has persisted in such violation in contempt of the unanimous decision of the U. S. Supreme Court," which sustained the Board's jurisdiction. The excoriation of the Pennsylvania sustem resulted when the railroad refused to deal with the elected representatives of the clerks' organization as officials representing employees' organization, although the railroad was ready to consider them as individuals. (V. 116, p. 2693, 2953; V. 117, p. 1849). Judge Dickinson in the Federal District Court at Philadelphia, Pa., on Dec. 21 1923 dismissed the suit of the Brotherhood of Railway Clerks, Freight Handlers and Station Employees of the Pennsylvania RR. to compel the company to recognize their delegates in conferences on wages and conditions, on the ground that the Federal Court had no power to enforce the decisions of the U. S. RR. Labor Board and that the only way the Board's mandates could be carried out was in the "court of public opinion." The Board itself, Judge Dickinson declared, had no power to execute its own orders, "and no power has been delegated to the courts to have the decrees carried out." In conclusion the opinion said:

> The judgment it [the Labor Board] may render may be acceptable to neither party, but each has the legal right to accept it or refuse to follow it. If the parties refuse acquiescence all that the Board can then do is to give publicity to its ruling, leaving the parties to their willingness to adjust the dispute under the guidance and perhaps the stress of public opinion, influenced, or it may be aroused, by the opinion of the Board.

On the same grounds, Judge Dickinson in the Federal District Court at Philadelphia on Feb. 5 1924 dismissed the $15,000,000 suit brought by the shopmen's organization against the Penn. RR. system. (V. 117, p. 2849; V. 118, p. 627.) Five months later (in July 1924) the United States Circuit Court of Appeals at Philadelphia dismissed equity suits brought by System Federation 90 of the Federated Shopcrafts and the Brotherhood of Railway Clerks against the Pennsylvania RR. for enforcement of wage increase and working condition decisions of the United States Railroad Labor Board. The suits were dismissed on the ground that the Federal Courts have no jurisdiction in such matters.

The United States Supreme Court in March 1925 decided that roads are not required to submit to the United States Railroad Labor Board for arbitration disputes with employees and that the roads could determine who shall be recognized as representing their employees in labor disputes.

Settlements with Individual Carriers.

The United States Railroad Administration on May 14 1926 announced that all carriers formerly under Federal Control have now been settled with. The payment of the claims on final settlement was largely made up of balance of compensation due, but included all other disputed items as between the railroad companies and the Administration during the 26 months of Federal control. The list of railroads with which settlements had been concluded up to Nov. 14 1923 was given in the "Chronicle" of Dec. 1 1923. Later settlements will be found in our "General Investment News" Department, under the heading "United States Railroad Administration," in V. 122, p. 2945; V. 119, p. 695; V. 118, p. 1270 and 204, and V. 117, p. 2772, 1993.

Equipment Trust Agreements of Jan. 15 1920.

Equipment trust agreements were executed early in 1920 by some 80 leading railroad companies with the Director-General of Railroads and the Guaranty Trust Co. of New York as trustee, covering approximately $323,000,000 worth of new rolling stock, built and building. This rolling stock was ordered by the United States Railroad Administration during the period of Federal control of railroads and has been allocated to the railroad companies named below and accepted by them. (Compare V. 109, p. 1668, 1955, 2406.)

The notes, while issuable from time to time as equipment is delivered to the roads, are all dated Jan. 15 1920, payable, both principal and interest, in gold of present standard. Each issue will mature in 15 equal installments on Jan. 15 in each year, 1921 to 1935, both inclusive, and will bear interest at 6% per annum, payable semi-annually, July 15 and Jan. 15 at the office of the trustee in New York City. They will be subject to redemption at the option of the maker prior to maturity at 103 and interest on any interest date after 60 days' notice, but only as entire issues.

The War Finance Corporation, in a statement issued by Managing Director Eugene Meyer Jr., on Jan. 22 1922 announced that the Director-General had addressed a letter to all railroads of which the U. S. Treasury still held issues of equipment trust obligations no part of which had yet been sold by it, asking [in order to increase the salability of its holdings] that he be permitted to subordinate to the remainder of the issue [which remainder he might then sell] not alone the last five maturities, 1931 to 1935, or any one or more of them, but such portion of the maturities of any year as he might determine. The official statement said:

The amended clause will read as follows:

"'Eleventh. Upon request of the holder, or holders, of all the notes which by their terms shall be due and payable in any year, and upon presentation of such notes for that purpose, the trustee shall stamp thereon, or upon such part thereof as said holder, or holders, may designate and request, the following words:

"'For value received and as an inducement to purchases of unstamped notes, the holder of this note has caused the same to be stamped pursuant to Article Eleventh of the Equipment Trust Agreement mentioned in the note, and, as provided in said Article Eleventh, the unstamped notes shall be payable in preference and priority to the stamped notes out of any moneys received or collected by the Trustee under said Equipment Trust Agreement, upon enforcement of its rights or remedies in case of a default of the carrier.'

"For the present, it is the purpose of the Director-General, upon the execution of the supplemental agreements, making the amended clause operative, to make sales of railroad equipment trust obligations under an arrangement, to subordinate, on the part of the Government, approximately 33 1-3% of the principal amount of each maturity; and the Director-General will be prepared to sell 66 2-3% of issues of equipment trust obligations, unsubordinated, at par and accrued interest to date of delivery. The Railroad Administration will thus retain the one-third subordinated part of all serial maturities."

During the Federal control period from Jan. 1 1918 to Feb. 29 1920, and the guaranty period of 6 months from March 1 to Aug. 31 1920, and as a result of the financial operations called for by the Control Act of 1918, the Transportation Act of 1920 and the Act incorporating the War Finance Corporation, advances to a large amount were made to the railroads by the U. S. Treasury, the Director-General and the War Finance Corporation on account of additions and improvements, the funding and refunding of loans and in the case of the Boston & Maine for reorganization purposes.

Nine-Year Statement of United States Railroads—Property Investment, Revenues, Expenses, Fixed Charges, Dividends, Traffic, Train and Wage Statistics.

The Bureau of Railway Economics, Washington, D. C., in a bulletin designed as a convenient reference for statistics of railway operation in the United States, gave the following tabulations, which are based upon official summaries of the Inter-State Commerce Commission for the calendar years ended Dec. 31 1916 to 1924. The tabulations cover the operations of railways of Class I only, namely, carriers with annual operating revenues above $1,000,000 (switching and terminal company statistics are not included). Class I railways operate approximately 90% of the total railway mileage of the United States and earn about 96% of the total revenues.

a "Material and supplies" and "Cash" as shown for years 1918 and 1919 represent the average on hand as of Dec. 31 1917 and Dec. 31 1920.

b Total operating revenues and mail revenue for the year 1920 includes $64,508,260 of mail pay applicable to the years 1917, 1918 and 1919, of which $7,584,084 was earned in 1917, approximately $30,000,000 in 1918, and $26,924,176 in 1919.

Note.—The figures of "Investment in road and equipment" cover Class I roads and their non-operating subsidiaries. The figures of "Investment" are those taken from the annual reports of the carriers and do not include investment of some proprietary companies which do not render annual reports, notably the proprietary roads in the Baltimore & Ohio system. For the years 1916 to 1921 they also include some duplications in the Atchison Topeka & Santa Fe system. If these facts were taken into account, the total shown for 1919 would be increased by $265,525,964. Data for the years 1918, 1919 and 1920 represent the combined results of the Federal and Corporate operations of Class I roads under Federal control, also data for Class I roads not under Federal control, but do not take into account the general administrative expenses of the United States Railroad Administration

A House Founded on a Rock

STAPLE articles form the best basis for a staple business. For that reason, the packing industry enjoys the stability that comes from handling a most necessary food article.

For over 60 years, Armour and Company has provided an important part of the nation's meat supply. Founded on a vital, economic necessity, rendering an increasing national service, it is natural that Armour and Company has attained its present outstanding position.

It is an Armour aim that the value of the company's service, both to consumer and to producer, may become ever greater and more worth while.

F. Edson White
President
